LFIR # 1604

The milling and resurfacing of approximately one mile of roads that were left unrestored after the completion of the water installation project. These roads were adjacent to that installation, but not a direct part of the restoration that took place.

d. Who is the target population served by this project? How many individuals are expected to be served?

It will directly serve the residents of the Village of Pinecrest that live adjacent to the roads that will be resurfaced; however it will indirectly serve all of the users of the roads that not only live in Pinecrest but throughout Miami-Dade County.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

It addresses concerns over the disintegration of roads that may lead to safety hazards. The measurement will be the roads built to the same specifications as those that were recently resurfaced through the water line installation project.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Any deemed appropriate.
