## Local Funding Initiative Request

### Fiscal Year 2024-2025

LFIR # 2674

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

North Miami seeks \$400,000 to fund the construction of drainage improvements along NE 3rd Court between NE 131 Street and NE 135 Street. This project aims to reduce the potential for water pollution and general public health risk, while increasing economic development opportunities within City of North Miami and the environment. The project will help to reduce the pollutant loading to the Biscayne Bay by reducing the volume of stormwater runoff into this water body and reduce the flooding and potential health risks in this area. As a result, the project will assist in reducing street flooding in the area and protect the general public, properties, and water bodies.

#### 14. Program Performance

**a. What specific purpose or goal will be achieved by the funds requested?**

The project will help to reduce the pollutant loading to the Biscayne Bay by reducing the volume of stormwater runoff into this water body and reduce the flooding and potential health risks in this area.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

Design, permitting and bidding will be required to meet the purpose of the funds.

**c. What direct services will be provided to citizens by the appropriation project?**

This project will prevent repetitive flooding, reduce damages to residential properties, decrease the number of recurring insurance claims, and provide uninterrupted telephone, water, and sanitary sewer services to residents. The project will reduce flooding in the area and protect the general public, properties and water bodies.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

This project benefits the general population in North Miami, approximate over 60,000 residents.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

The project will help to reduce the pollutant loading to the Biscayne Bay by reducing the volume of stormwater runoff into this water body. This can be measured by the volume of water collected and treated by the drainage system as well as measuring the pollutant loadings in the groundwater. Also, the project will reduce flooding in the area and protect the general public, properties and water bodies.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

The City will not be reimbursed for project activities that do not meet the deliverables or performance measures.
