b. What activities and services will be provided to meet the intended purpose of these funds?

This project on NW/SW 8th Avenue aims to benefit the community by providing a safer, more efficient, and functionally improved environment. These state funds will help reconstruct an already heavily utilized road to improve the flow of traffic.

c. What direct services will be provided to citizens by the appropriation project?

Upgrading the roadway will enhance safety for both motorists and pedestrians, reducing the risk of accidents and injuries.

d. Who is the target population served by this project? How many individuals are expected to be served?

This will serve economically disadvantaged persons and the general population.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

It is a safety project. NW/SW 8th Avenue is one of only four north-south streets that traverse through Hallandale Beach. It is a local street that currently is well utilized. The planned enhancements will improve multi-modal conditions and help calm traffic, increasing safety for pedestrians. Outcomes will be measured by monitoring daily traffic counts.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

While the City of Hallandale Beach does not anticipate failing to meet any milestones and/or deliverables, it would be anticipated that reimbursement would only be received for deliverables met.
