## PRAYER

The following prayer was offered by the Reverend Jonathan M. Craig, Ministry to State, Tallahassee:

Heavenly Father, as we begin this morning, we do so with praise, for you, Lord, are God and not we ourselves. You alone are worthy of all praise and all glory and all honor and all power.

Be pleased today to bless these your servants, their staffs, and their families in the work to which you have called them. In the quiet moments of solitude when the weightiness of our callings rests heavy upon us, bless us with the knowledge of your loving presence and encourage us by the power of your Holy Spirit.

In moments of temptation, bless us with deliverance and should we succumb, bless us with humble and contrite hearts burdened by our sin. Remind us that we have an advocate with you and that if we confess our sins, you are faithful and just to forgive us our sins and to cleanse us from all unrighteousness. In our moments of triumph, bless us with joyful hearts which rejoice in you and which give you the glory for the great things you have done. In your holy name, we pray. Amen.

## PLEDGE

Senator Brandes led the Senate in the Pledge of Allegiance to the flag of the United States of America.

## ADOPTION OF RESOLUTIONS

At the request of Senator Baxley—

By Senator Baxley—

**SR 1572**—A resolution encouraging Floridians to consider opening their hearts and homes to children in this state who are in need of a loving family, and recognizing November 2021 as “Florida Adoption Month.”

WHEREAS, it is paramount that Florida’s children and families have the opportunities necessary to reach their full potential and lead healthy lives, and

WHEREAS, all children deserve a loving, supportive, nurturing, and permanent family of their own, and

WHEREAS, adoption is an opportunity to change the life of a child and the families that might adopt them while making an impact on local communities, and

WHEREAS, anyone with the ability to love and provide for a child and to make a lifelong commitment can be an adoptive parent, and

WHEREAS, 4,548 Florida children found permanent homes through adoption during the 2019-2020 state fiscal year, and

WHEREAS, approximately 800 Florida children, including teenagers, sibling groups, and children with special medical needs, are available for adoption and have no identified adoptive family, and

WHEREAS, First Lady Casey DeSantis, as chair of the Florida Children and Youth Cabinet and through her “Hope for Healing Florida” program, is working alongside state agencies to improve the health, safety, economic stability, and quality of life of Florida’s children, and

WHEREAS, the Governor’s Office of Adoption and Child Protection, the Florida Department of Children and Families, community-based care lead agencies, the Florida Association of Heart Galleries, state and local agencies, and child advocacy organizations join together each November to raise awareness of foster care adoptions in Florida, and

WHEREAS, this year, Florida will celebrate National Adoption Month and Florida Adoption Month with its 30 Days of Amazing Children campaign on the Explore Adoption website, [www.adoptflorida.org](http://www.adoptflorida.org), and

WHEREAS, families and children across this state and nation will celebrate adoption on November 20, 2021, National Adoption Day, while also remembering the children who are still in need of a loving, permanent family of their own, NOW, THEREFORE,

*Be It Resolved by the Senate of the State of Florida:*

That Floridians are encouraged to consider opening their hearts and homes to children in this state who are in need of a loving family, and that November 2021 is recognized as “Florida Adoption Month.”

—was introduced, read, and adopted by publication.

At the request of Senator Rodriguez—

By Senator Rodriguez—

**SR 2014**—A resolution recognizing the week of May 2-8, 2021, as “Tardive Dyskinesia Awareness Week” in Florida and encouraging all Floridians to become better informed about tardive dyskinesia.

WHEREAS, many people with serious, chronic mental illness, such as schizophrenia and other schizoaffective disorders, bipolar disorder, or severe depression, require treatment with medications that work as dopamine receptor blocking agents (DRBAs), including antipsychotics, and

WHEREAS, many people who have gastrointestinal disorders, including gastroparesis, nausea, and vomiting, also require treatment with DRBAs, and

WHEREAS, while ongoing treatment with these medications can be very helpful, and even lifesaving, for many people, it also can lead to tardive dyskinesia (TD), a movement disorder that is characterized by random, involuntary, and uncontrolled movements of different muscles in the face, torso, and extremities, and

WHEREAS, TD commonly manifests through movement of the arms, legs, fingers, or toes and, in some cases, may affect the tongue, lips, and jaw, and

WHEREAS, other symptoms of TD include involuntary swaying of the torso or hips and involuntary movement of the muscles associated with walking, speech, eating, and breathing, and

WHEREAS, TD can develop months, years, or decades after a person starts taking DRBAs and even after discontinuing the use of those medications, and, while not everyone who takes a DRBA develops TD, those who do often find the aftereffects are permanent, and

WHEREAS, common risk factors for TD include advanced age and alcoholism or other substance abuse disorders, and postmenopausal women and people with mood disorders also are at higher risk of developing TD, and

WHEREAS, a person’s risk for TD increases after taking DRBAs for just 3 months, and the longer the person takes these medications, the higher his or her risk, and

WHEREAS, it is estimated that more than 500,000 people in the United States suffer from TD, and the National Alliance for Mental Illness estimates that one in every four patients receiving long-term treatment with an antipsychotic medication will experience TD, and

WHEREAS, TD is often unrecognized, and patients suffering from the illness are commonly misdiagnosed, and

WHEREAS, patients suffering from TD often suffer embarrassment due to their abnormal and involuntary movements, which leads them to withdraw from society and increasingly isolate themselves as the disease progresses, and

WHEREAS, caregivers of patients with TD face many challenges and are often responsible for their overall care, and

WHEREAS, years of research have resulted in recent scientific breakthroughs, with two new TD treatments approved by the United States Food and Drug Administration, and

WHEREAS, the American Psychiatric Association recommends regular screening for TD in patients taking DRBAs, NOW, THEREFORE,

*Be It Resolved by the Senate of the State of Florida:*

That the week of May 2-8, 2021, is recognized as “Tardive Dyskinesia Awareness Week” in Florida and that all Floridians are encouraged to become better informed about tardive dyskinesia.

—was introduced, read, and adopted by publication.

At the request of Senator Cruz—

By Senator Cruz—

**SR 2050**—A resolution recognizing May 2021 as “Osteoporosis Awareness Month” in Florida.

WHEREAS, one in two women and one in four men in the United States who are 50 years of age or older will fracture a bone due to osteoporosis in their lifetimes, and

WHEREAS, approximately 4.7 million women who are 50 years of age or older live in this state, and

WHEREAS, a woman’s risk of fracturing a hip is equal to her combined risk of being diagnosed with breast, uterine, and ovarian cancer, and

WHEREAS, bone fractures due to osteoporosis can have serious long-term consequences, and

WHEREAS, after the first bone fracture, postmenopausal women with osteoporosis are five times more likely to fracture a bone within the next year, and

WHEREAS, persons who are living with osteoporosis often remain undiagnosed and untreated, and

WHEREAS, since lost bone cannot be replaced, treatment for osteoporosis typically focuses on preventing any further bone loss, NOW, THEREFORE,

*Be It Resolved by the Senate of the State of Florida:*

That May 2021 is recognized as “Osteoporosis Awareness Month” in Florida to increase awareness, screening, and prevention and provide educational resources to inform and empower women to take charge of their bone health.

—was introduced, read, and adopted by publication.

Senator Ausley offered a recognition of the passing of former Secretary of the Florida Senate Joe Brown, who passed away on April 16, 2021. In 1974, Joe Brown became the 40th Secretary of the Senate. His distinguished service spanned 22 years until his retirement in 1996. Joe met his wife of 25 years, Rebecca, during his tenure in the Senate. He and Becky exchanged their wedding vows in the Senate Chamber, being the very first couple to do so. He was born in Columbus, Georgia, but lived the majority of his life in Liberty County. He graduated from Liberty County High School in 1950. After graduation, Joe served his country in the United States Air Force during the Korean War. After the war, he continued to serve as a member of the United States Coast Guard Reserve. When he returned to the U.S., he attended the University of Florida and graduated in 1958 with a B.S. in Journalism. In 1973, Joe earned a graduate certificate in Public Administration and Executive Management from Florida State University. After he retired from the Florida Senate, Joe continued serving his community and state through his work and affiliations with a number of organizations. He was a member of the University of Florida Alumni Association and an advisor for Boys State and Girls State. Joe Brown is survived by his wife, five children, six grandchildren, two great-grandchildren, brother, and two sisters. His hobbies included hunting, fishing, and cooking for his family.

At the request of Senator Ausley, the Senate observed a moment of silence in memory of Joe Brown.

**HB 1309**—A bill to be entitled An act relating to ratification of Department of Environmental Protection rules; ratifying specified rules relating to biosolids for the sole and exclusive purpose of satisfying any condition on effectiveness pursuant to s. 120.541(3), F.S., which requires ratification of any rule exceeding the specified thresholds for likely adverse impact or increase in regulatory costs; exempting the rules from certain review and approval by the Environmental Regulation Commission; providing applicability; providing an effective date.

—a companion measure, was substituted for **CS for SB 7060** and read the second time by title.

Senator Brodeur moved the following amendment which was adopted:

**Amendment 1 (546548) (with title amendment)**—Between lines 50 and 51 insert:

Section 2. (1) *The following rule is ratified for the sole and exclusive purpose of satisfying any condition on effectiveness imposed under s. 120.541(3), Florida Statutes: Rules 62-41.300, 62-41.301, 62-41.302, 62-41.303, 62-41.304, and 62-41.305, Florida Administrative Code, titled “Central Florida Water Initiative Area,” as published on November 19, 2020, in the Florida Administrative Register, Vol. 46, No. 226, pages 5019-5025; February 9, 2021, in the Florida Administrative Register, Vol. 47, No. 26, pages 733-734; and March 26, 2021, in the Florida Administrative Register, Vol. 47, No. 59, pages 1506-1507.*

(2) *This section serves no other purpose and shall not be codified in the Florida Statutes. After this act becomes a law, its enactment and effective dates shall be noted in the Florida Administrative Code or the Florida Administrative Register, or both, as appropriate. This section does not constitute legislative preemption of or exception to any provision of law governing adoption or enforcement of the rule cited, and is intended to preserve the status of any cited rule as a rule under chapter 120, Florida Statutes. This section does not cure any rulemaking defect or preempt any challenge based on a violation of the legal requirements governing the adoption of any rule cited.*

Section 3. Paragraph (d) of subsection (2) of section 373.0465, Florida Statutes, is amended to read:

373.0465 Central Florida Water Initiative.—

(2)

(d) The department, in consultation with the St. Johns River Water Management District, the South Florida Water Management District, the Southwest Florida Water Management District, and the Department of Agriculture and Consumer Services, shall adopt uniform rules for application within the Central Florida Water Initiative Area that include:

1. A single, uniform definition of the term “harmful to the water resources” consistent with the term’s usage in s. 373.219;
2. A single method for calculating residential per capita water use;
3. A single process for permit reviews;
4. A single, consistent process, as appropriate, to set minimum flows and minimum water levels and water reservations;
5. A goal for residential per capita water use for each consumptive use permit; ~~and~~
6. An annual conservation goal for each consumptive use permit consistent with the regional water supply plan;
7. *A drought allocation for supplemental irrigation for agricultural uses which is based on a 2-in-10-year rainfall condition or, if the applicant so requests, is based on a 5-in-10-year rainfall condition alone or combined with the 2-in-10-year condition. The applicable water management district may also condition, for information only purposes,*

*consumptive use permits to advise permittees that their annual use of water should be less than the drought allocation in all years except for the drought condition that is the basis for the allocation or a more severe drought; and*

8. *A process for the applicable water management district to annually examine an agricultural user’s 5-year moving average supplemental irrigation water use against the annual supplemental irrigation needs in the 5-in-10-year rainfall condition beginning no earlier than 5 years following the effective date of the rules adopted under this section. If this annual examination indicates that the agricultural user’s 5-year moving average use exceeds that needed in such rainfall condition for reasons other than prolonged periods of below average rainfall, the water management district may modify the agricultural user’s permit to include an annual supplemental irrigation allocation based on both the amount of supplemental irrigation required during a 2-in-10-year rainfall condition and the amount of supplemental irrigation required during a 5-in-10-year rainfall condition as provided in rules adopted pursuant to this section. In such case, the supplemental irrigation allocation based on the 5-in-10-year rainfall condition shall be valid for only 5 years unless the agricultural user’s 5-year moving average use continues to exceed the amount of supplemental irrigation needed during a 5-in-10-year rainfall condition for reasons other than prolonged periods of drought.*

*Subparagraphs 7. and 8. may not be construed to limit the ability of the department or a water management district to establish different supplemental irrigation requirements as part of an existing or future recovery or prevention strategy adopted pursuant to s. 373.0363, s. 373.042, or s. 373.0421. The uniform rules must include existing recovery strategies within the Central Florida Water Initiative Area adopted before July 1, 2016. The department may grant variances to the uniform rules if there are unique circumstances or hydrogeological factors that make application of the uniform rules unrealistic or impractical.*

Section 4. Section 373.0466, Florida Statutes, is created to read:

373.0466 *Central Florida Water Initiative Grant Program.—Subject to appropriation, a grant program for the Central Florida Water Initiative is established within the Department of Environmental Protection.*

(1) *The department, in cooperation with the relevant water management districts, shall provide grants for projects that benefit the Central Florida Water Initiative Area and that promote alternative water supplies and protect groundwater resources.*

(2) *In allocating such funds, priority must be given to projects that use reclaimed water, create new surface water storage, enhance natural systems, recharge groundwater, optimize beneficial uses of water, expand water conservation programs, or are able to demonstrate that a significant financial hardship exists as a result of complying with rules applicable to the Central Florida Water Initiative Area.*

Section 5. Paragraph (a) of subsection (9) of section 403.8532, Florida Statutes, is amended to read:

403.8532 Drinking water state revolving loan fund; use; rules.—

(9) The department may adopt rules regarding the procedural and contractual relationship between the department and the corporation under s. 403.1837 and to carry out the purposes of this section and the federal Safe Drinking Water Act, as amended. Such rules shall:

(a) Set forth a priority system for loans based on public health considerations, compliance with state and federal requirements relating to public drinking water systems, and affordability. The priority system ~~shall~~ give special consideration to:

1. Projects that provide for the development of alternative drinking water supply projects and management techniques in areas where existing source waters are limited or threatened by saltwater intrusion, excessive drawdowns, contamination, or other problems;
2. Projects that provide for a dependable, sustainable supply of drinking water and that are not otherwise financially feasible; ~~and~~

3. Projects that contribute to the sustainability of regional water sources; *and*

4. *Projects that implement water supply plans and develop water sources as an alternative to continued reliance on the Floridan Aquifer, pursuant to s. 373.0465.*

Section 6. *The Legislature determines and declares that this act fulfills an important state interest.*

And the title is amended as follows:

Delete lines 2-11 and insert: An act relating to environmental regulation; ratifying specified rules relating to biosolids for the sole and exclusive purpose of satisfying any condition on effectiveness pursuant to s. 120.541(3), F.S., which requires ratification of any rule exceeding the specified thresholds for likely adverse impact or increase in regulatory costs; exempting the rules from certain review and approval by the Environmental Regulation Commission; providing applicability; ratifying specified rules relating to the Central Florida Water Initiative, for the sole and exclusive purpose of satisfying any condition on effectiveness pursuant to s. 120.541(3), F.S., which requires ratification of any rule exceeding any specified thresholds for likely adverse impact or increase in regulatory costs; providing applicability; amending s. 373.0465, F.S.; requiring the department, in consultation with specified water management districts, to adopt rules that include an annual drought allocation for supplemental irrigation for agricultural uses and a process for examining an agricultural user's supplemental irrigation needs as weighed against certain factors; providing for the applicability of specified rules to areas with certain existing recovery strategies; creating s. 373.0466, F.S.; establishing, subject to appropriation, a Central Florida Water Initiative Grant Program within the department; requiring the department, in cooperation with the relevant water management districts, to distribute appropriated funds for certain projects that benefit the Central Florida Water Initiative Area; amending s. 403.8532, F.S.; requiring the department to give funding priority to certain projects relating to the Central Florida Water Initiative; providing a declaration of important state interest; providing an

(4) “Clerk’s office” means the office of the clerk of the circuit court of the county, or another office serving as the county recorder as provided by law, in which the real property is located.

(8) “Contractor” means a person other than a materialman or laborer who enters into a contract with the owner of real property for improving it, or who takes over from a contractor as so defined the entire remaining work under such contract. The term “contractor” in-

cludes an architect, landscape architect, or engineer who improves real property pursuant to a design-build contract authorized by s. 489.103(16). The term also includes a licensed general contractor or building contractor, as those terms are defined in s. 489.105(3)(a) and (b), respectively, who provides construction management services, which include responsibility for scheduling and coordination in both pre-construction and construction phases and for the successful, timely, and economical completion of the construction project, or who provides program management services, which include responsibility for schedule control, cost control, and coordination in providing or procuring planning, design, and construction.

If materials to be used on one or more improvements on separate lots, parcels, or tracts of land ~~under one direct contract~~ are delivered by a lienor to a place designated by the person with whom the materialman contracted, other than the site of the improvement, the delivery to the place designated is prima facie evidence of delivery to the site of the improvement and incorporation in the improvement. The single claim of lien may be limited to a part of multiple lots, parcels, or tracts of land and their improvements or may cover all of the lots, parcels, or tracts of land and improvements. ~~If a In~~ ~~each~~ claim of lien under this section ~~is for multiple direct contracts~~, the owner under the direct ~~contracts contract~~ must be the same person for all lots, parcels, or tracts of land against which a single claim of lien is recorded.

2. The terms of the lease expressly prohibit such liability, and a notice advising that leases for the rental of premises on a parcel of land prohibit such liability has been recorded in the official records of the county in which the parcel of land is located before the recording of a notice of commencement for improvements to the premises, and the notice includes the following:

(4) The interest of the lessor is not subject to liens for improvements made by the lessee when the lessee is a mobile home owner who is leasing a mobile home lot in a mobile home park from the lessor.

Section 6. Paragraphs (a), (c), and (d) of subsection (1) of section 713.13, Florida Statutes, are amended to read:

Section 10. Section 713.21, Florida Statutes, is amended to read:

713.21 Discharge of lien.—A lien properly perfected under this chapter may be discharged, or released in whole or in part, by any of the following methods:

(1) By entering satisfaction of the lien upon the margin of the record thereof in the clerk's office when not otherwise prohibited by law. This satisfaction shall be signed by the lienor, the lienor's agent or attorney and attested by said clerk. Any person who executes a claim of lien ~~has~~ shall have authority to execute a satisfaction in the absence of actual notice of lack of authority to any person relying on the same.

(2) By the satisfaction or release of the lienor, duly acknowledged and recorded in the clerk's office. The satisfaction or release must include the lienor's notarized signature and set forth the official records' reference numbers and recording date affixed by the recording office on the subject lien. Any person who executes a claim of lien ~~has~~ shall have authority to execute a satisfaction or release in the absence of actual notice of lack of authority to any person relying on the same.

(3) By failure to begin an action to enforce the lien within the time prescribed in this part.

(4) By an order of the circuit court of the county where the property is located, as provided in this subsection. Upon filing a complaint therefor by any interested party the clerk shall issue a summons to the lienor to show cause within 20 days why his or her lien should not be enforced by action or vacated and canceled of record. Upon failure of the lienor to show cause why his or her lien should not be enforced or the lienor's failure to commence such action before the return date of the summons the court shall forthwith order cancellation of the lien.

(5) By recording in the clerk's office the original or a certified copy of a judgment or decree of a court of competent jurisdiction showing a final determination of the action.

Section 11. Paragraph (d) of subsection (1) of section 713.23, Florida Statutes, is amended to read:

713.23 Payment bond.—

(1)

(d) In addition, a lienor who has not received payment for furnishing his or her labor, services, or materials must, as a condition precedent to recovery under the bond, serve a written notice of nonpayment on the contractor and a copy of the notice on the surety. The notice must be under oath and served during the progress of the work or thereafter, but may not be served later than 90 days after the final furnishing of labor, services, or materials by the lienor, or, with respect to rental equipment, later than 90 days after the date the rental equipment was on the job site and available for use. A notice of nonpayment that includes sums for retainage must specify the portion of the amount claimed for retainage. The required notice satisfies this condition precedent with respect to the payment described in the notice of nonpayment, including unpaid finance charges due under the lienor's contract, and with respect to any other payments which become due to the lienor after the date of the notice of nonpayment. The time period for serving a notice of nonpayment is shall be measured from the last day of furnishing labor, services, or materials by the lienor and may not be measured by other standards, such as the issuance of a certificate of occupancy or the issuance of a certificate of substantial completion. The failure of a lienor to receive retainage sums not in excess of 10 percent of the value of labor, services, or materials furnished by the lienor is not considered a nonpayment requiring the service of the notice provided under this paragraph. If the payment bond is not recorded before commencement of construction, the time period for the lienor to serve a notice of nonpayment may at the option of the lienor be calculated from the date specified in this section or the date the lienor is served a copy of the bond. However, the limitation period for commencement of an action on the payment bond as established in paragraph (e) may not be expanded. The negligent inclusion or omission of any information in the notice of nonpayment that has not prejudiced the contractor or surety does not constitute a default that operates to defeat an otherwise valid bond claim. A lienor who serves a fraudulent notice of nonpayment forfeits his or her rights under the bond. A notice of nonpayment is fraudulent if the lienor has willfully exaggerated the amount unpaid, willfully included a claim for work not performed or materials not furnished for the subject improvement, or prepared the notice with such willful and gross negligence as to amount to a willful exaggeration. However, a minor mistake or error in a notice of nonpayment, or a good faith dispute as to the amount unpaid, does not constitute a willful exaggeration that operates to defeat an otherwise valid claim against the bond. The service of a fraudulent notice of nonpayment is a complete defense to the lienor's claim against the bond. The notice under this paragraph must include the following information, current as of the date of the notice, and must be in substantially the following form:

NOTICE OF NONPAYMENT

To (name of contractor and address)
(name of surety and address)

The undersigned lienor notifies you that:

  - (e) Any other matter that affects the property transferred to the trust and does not violate public policy or general law imposing a criminal penalty, or result in the property not being treated as community property under the laws of a relevant jurisdiction.
- (2) In the event of the death of a settlor spouse, the surviving spouse may amend a community property trust regarding the disposition of that spouse’s one-half share of the community property, regardless of whether the agreement provides that the community property trust is irrevocable.

(3) A community property trust may be amended or revoked by the settlor spouses unless the agreement itself specifically provides that the community property trust is irrevocable.

(4) Notwithstanding any other provision of this code, the settlor spouses shall be deemed to be the only qualified beneficiaries of a community property trust until the death of one of the settlor spouses, regardless of whether the trust is revocable or irrevocable. After the death of one of the settlor spouses, the surviving spouse shall be deemed to be the only qualified beneficiary as to his or her share of the community property trust.

Section 33. Section 736.1505, Florida Statutes, is created to read:

**736.1505 Classification of property as community property; enforcement; duration; management and control; effect of distributions.**—

- (2) A community property trust is enforceable without consideration.
- (3) All property owned by a community property trust is community property under the laws of the state during the marriage of the settlor spouses.
- (4) The right to manage and control property that is transferred to a community property trust is determined by the terms of the trust agreement.
- (5) When property is distributed from a community property trust, the property shall no longer constitute community property within the meaning of this part, provided that community property as classified by a jurisdiction other than the state retains its character as community property to the extent otherwise provided by ss. 732.216-732.228.

Section 34. Section 736.1506, Florida Statutes, is created to read:

**736.1506 Satisfaction of obligations.**—Except as provided in s. 4, Art. X of the State Constitution:

- (1) An obligation solely incurred by one settlor spouse before or during the marriage may be satisfied from that settlor spouse’s one-half share of a community property trust, unless otherwise provided in the community property trust agreement.
- (2) An obligation incurred by both spouses during the marriage may be satisfied from a community property trust of the settlor spouses.

Section 35. Section 736.1507, Florida Statutes, is created to read:

**736.1507 Death of a spouse.**—Upon the death of a spouse, one-half of the aggregate value of the property held in a community property trust established by the settlor spouses reflects the share of the surviving spouse and is not subject to testamentary disposition by the decedent spouse or distribution under the laws of succession of the state. The other one-half of the value of that property reflects the share of the decedent spouse and is subject to testamentary disposition or distribution under the laws of succession of the state. Unless provided otherwise in the community property trust agreement, the trustee has the power to distribute assets of the trust in divided or undivided interests and to adjust resulting differences in valuation. A distribution in kind may be made on the basis of a non-pro rata division of the aggregate value of the trust assets, on the basis of a pro rata division of each individual asset, or by using both methods. The decedent’s spouse’s one-half share shall not be included in the elective estate.

Section 36. Section 736.1508, Florida Statutes, is created to read:

**736.1508 Dissolution of marriage.**—

- (1) Upon the dissolution of the marriage of the settlor spouses, the community property trust shall terminate and the trustee shall distribute one-half of the trust assets to each spouse in accordance with subsection (3). For purposes of this act, s. 61.075 does not apply to the

disposition of the assets and liabilities held in a community property trust.

(2) The initiation of an action to dissolve the settlor spouses' marriage does not automatically terminate the community property trust unless otherwise agreed to by the settlor spouses in writing or otherwise ordered by the court having jurisdiction over the dissolution proceedings between the settlor spouses. However, if an action to dissolve the settlor spouses' marriage remains pending for 180 days, the trust automatically terminates and the trustee must distribute one-half of the trust assets to each spouse in accordance with subsection (3), unless any of the following apply:

(a) A settlor spouse objects to the termination within 180 days following the filing of the dissolution action. At which time, either party may request that the court having jurisdiction over the dissolution proceedings between the settlor spouses determine if good cause exists to terminate the community property trust during the pendency of the dissolution of marriage action.

(b) The court having jurisdiction over the dissolution proceedings between the settlor spouses enters an order directing otherwise.

(c) The settlor spouses otherwise agree, in writing, while the dissolution of marriage action is pending.

(d) The community property trust agreement provides otherwise.

(3) Unless provided otherwise in the community property trust agreement, the trustee has the power to distribute assets of the trust in divided or undivided interests and to adjust resulting differences in valuation. A distribution in kind may be made on the basis of a non-pro rata division of the aggregate value of the trust assets, on the basis of a pro rata division of each individual asset, or by using both methods. A trustee may not distribute real property or business interests in a manner that would leave the settlor spouses as co-owners of such assets post dissolution of the settlor spouses' marriage or termination of the community property trust, unless otherwise agreed to by the settlor spouses in a separate written agreement executed during the dissolution of marriage action. Notwithstanding any other provision of this section, the community property trust agreement cannot be terminated, and the assets cannot be distributed, in a manner that could cause the trust assets to not be treated as community property.

(4) The court having jurisdiction over the dissolution proceedings between the settlor spouses has personal and subject matter jurisdiction over the settlor spouses and the trustee of the community property trust for the purpose of effectuating the distribution of the community property trust assets consistent with the terms of the community property trust agreement, in a manner ensuring that the trust assets retain their community property character.

Section 37. Section 736.1509, Florida Statutes, is created to read:

736.1509 Right of child to support.—A community property trust does not adversely affect the right of a child of the settlor spouses to support, pursuant to s. 61.30 or the applicable law of another jurisdiction, that either spouse would be required to give under the applicable laws of the settlor spouses' state of domicile.

Section 38. Section 736.151, Florida Statutes, is created to read:

736.151 Homestead property.—

(1) Property that is transferred to or acquired subject to a community property trust may continue to qualify or may initially qualify as the settlor spouses' homestead within the meaning of s. 4(a)(1), Art. X of the State Constitution and for all purposes of general law, provided that the property would qualify as the settlor spouses' homestead if title was held in one or both of the settlor spouses' individual names.

(2) The settlor spouses shall be deemed to have beneficial title in equity to the homestead property held subject to a community property trust for all purposes, including for purposes of s. 196.031.

Section 39. Section 736.1511, Florida Statutes, is created to read:

736.1511 Application of Internal Revenue Code; community property classified by another jurisdiction.—For purposes of the application of s.

1014(b)(6) of the Internal Revenue Code of 1986, 26 U.S.C. s. 1014(b)(6), as of January 1, 2021, a community property trust is considered a trust established under the community property laws of the state. Community property, as classified by a jurisdiction other than this state, which is transferred to a community property trust retains its character as community property while in the trust. If the trust is revoked and property is transferred on revocation of the trust, the community property as classified by a jurisdiction other than the state retains its character as community property to the extent otherwise provided by ss. 732.216-732.228.

Section 40. Section 736.1512, Florida Statutes, is created to read:

736.1512 Unenforceable trusts.—

(1) A community property trust executed during marriage is not enforceable if the spouse against whom enforcement is sought proves that:

(a) The trust was unconscionable when made;

(b) The spouse against whom enforcement is sought did not execute the community property trust agreement voluntarily;

(c) The community property trust agreement was the product of fraud, duress, coercion, or overreaching; or

(d) Before execution of the community property trust agreement, the spouse against whom enforcement is sought:

1. Was not given a fair and reasonable disclosure of the property and financial obligations of the other spouse.

2. Did not voluntarily sign a written waiver expressly waiving right to disclosure of the property and financial obligations of the other spouse beyond the disclosure provided.

3. Did not have notice of the property or financial obligations of the other spouse.

(2) Whether a community property trust is unconscionable shall be determined by a court as a matter of law.

(3) A community property trust may not be deemed unenforceable solely on the fact that the settlor spouses did not have separate legal representation when executing the community property trust agreement.

**Amendment 1 (970074) (with title amendment)**—Delete lines 659-1251 and insert:

Failure to file any such declaration or order with the division within 5 days after issuance voids the declaration or order. The division shall index all such declarations and orders and make them available in*

*searchable format on its website within 3 days of filing. The searchable format must include, but is not limited to, searches by term, referenced statutes, and rules and must include a search category that specifically identifies emergency orders in effect at any given time. A link to the division's index must be placed in a conspicuous location on the Division of Emergency Management's website. This subsection applies retroactively to all executive emergency declarations and orders in effect on July 1, 2021.*

(6)(5) In addition to any other powers conferred upon the Governor by law, she or he may:

(c) Transfer the direction, personnel, or functions of state departments and agencies or units thereof for the purpose of performing or facilitating emergency services. *The transfer of the direction, personnel, or functions of state departments and agencies must be reported monthly on a cumulative basis to the President of the Senate and the Speaker of the House of Representatives.*

252.3611 *Transparency; audits.*—

(1) *Each order, proclamation, or rule issued by the Governor, the division, or any agency must specify the statute or rule being amended or waived, if applicable, and the expiration date for the order, proclamation, or rule.*

(2) *When the duration of an emergency exceeds 90 days:*

(a) *Within 72 hours of executing a contract executed with moneys authorized for expenditure to support the response to the declared state of emergency, the Executive Office of the Governor or the appropriate agency shall submit a copy of such contract to the Legislature. For contracts executed during the first 90 days of the emergency, the Executive Office of the Governor or the appropriate agency shall submit a copy to the Legislature within the first 120 days of the declared emergency.*

(3) *Once an emergency exceeds 1 year, the Auditor General shall conduct a financial audit of all associated expenditures and a compliance audit of all associated contracts entered into during the declared emergency. The Auditor General must update the audit annually until the emergency is declared to be ended.*

(4) *Following the expiration or termination of a state of emergency, the Auditor General shall conduct a financial audit of all associated expenditures and a compliance audit of all associated contracts entered into during the state of emergency.*

Section 10. Subsection (3) of section 252.365, Florida Statutes, is amended to read:

252.365 *Emergency coordination officers; disaster-preparedness plans.*—

(3) *Emergency coordination officers shall ensure ~~These individuals shall be responsible for ensuring~~ that each state agency and facility, such as a prison, office building, or university, has a disaster preparedness plan that is coordinated with the applicable local emergency-management agency and approved by the division.*

(a) The disaster-preparedness plan must outline a comprehensive and effective program to ensure continuity of essential state functions under all circumstances, including, but not limited to, a pandemic or other public health emergency. The plan must identify a baseline of preparedness for a full range of potential emergencies to establish a viable capability to perform essential functions during any emergency or other situation that disrupts normal operations. *This baseline must consider and include preparedness for rapid and large-scale increases in the public's need to access government services through technology or other means during an emergency, including, but not limited to, a public health emergency.*

(b) The plan must include, at a minimum, the following elements: identification of essential functions, programs, and personnel; procedures to implement the plan and personnel notification and accountability; delegations of authority and lines of succession; identification of alternative facilities and related infrastructure, including those for communications; identification and protection of vital records and databases; *provisions regarding the availability of, and distribution plans for, personal protective equipment*; and schedules and procedures for periodic tests, training, and exercises.

(c) The division shall develop and distribute guidelines for developing and implementing the plan. *By December 31, 2022, each agency must update its plan to include provisions related to preparation for pandemics and other public health emergencies consistent with the plan developed pursuant to s. 381.00315. Each agency plan must be updated as needed to remain consistent with the state public health emergency management plan.*

Section 11. Subsections (7) and (8) are added to section 252.37, Florida Statutes, and subsection (2) of that section is amended, contingent upon SB 1892 or similar legislation creating the Emergency Preparedness and Response Fund taking effect, to read:

252.37 Financing.—

(2)(a) It is the legislative intent that the first recourse be made to funds ~~specifically regularly~~ appropriated to state and local agencies for disaster relief or response.

(b) If the Governor finds that the demands placed upon these funds in coping with a particular disaster declared by the Governor as a state of emergency are unreasonably great, she or he may make funds available by transferring and expending moneys ~~appropriated for other purposes, from the Emergency Preparedness and Response Fund.~~

(c) *If additional funds are needed, the Governor may make funds available by transferring and expending moneys out of any unappropriated surplus funds, or from the Budget Stabilization Fund if the transfers and expenditures are directly related to the declared disaster or emergency. Notice of such action, as provided in s. 216.177, must be delivered at least 7 days before the effective date of the action, unless a shorter period is agreed to in writing by the President of the Senate and the Speaker of the House of Representatives. If the President of the Senate and the Speaker of the House of Representatives timely advise in writing that the parties object to the transfer, the Governor must void such action.*

(d) Following the expiration or termination of the state of emergency, the Governor may transfer moneys with a budget amendment, subject to approval by the Legislative Budget Commission, to satisfy the budget authority granted for such emergency. *The transfers and expenditures supporting the amendment must be directly related to the declared disaster or emergency.*

(7) *An agency or political subdivision shall submit in advance a detailed spending plan for any grants, gifts, loans, funds, payments, services, equipment, supplies, or materials in aid of or for the purposes of emergency prevention, recovery, mitigation, preparedness, and management, other than emergency response, received under this section to the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees. This paragraph does not apply to the receipt of any funds from an agency, department, or other affiliated entity of the Federal Government as part of an expedited project worksheet in anticipation of emergency response expenditures. If an emergency situation precludes the timely advanced submission of a detailed spending plan, the plan must be submitted as soon as practicable, but not later than 30 days after initiation of any expenditures, and be resubmitted every 30 days as long as the emergency continues and funds continue to be disbursed.*

(8) *For emergency response activities, including an emergency response that includes emergency protective measures or debris removal, the agency or political subdivision is not required to provide a detailed spending plan in advance of expenditures, but must provide notice to the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees of all expenditures in aggregate categories incurred in the emergency response no later than 30 days after the expenditure is incurred, and a copy of any*

*project worksheet submitted to the Federal Emergency Management Agency must be submitted to the same parties no later than 7 days after it is submitted to the Federal Emergency Management Agency.*

Section 12. Section 252.38, Florida Statutes, is amended to read:

252.38 Emergency management powers of political subdivisions.—Safeguarding the life and property of its citizens is an innate responsibility of the governing body of each political subdivision of the state. *However, political subdivisions are given police powers to preserve, not impair, private rights. Therefore, a political subdivision that deprives any person of a constitutional right, a fundamental liberty, a statutory right, or property to address a purported emergency bears the burden of proving that the exercise of police power is narrowly tailored, serves a compelling governmental interest, and accomplishes the intended goal through the use of the least intrusive means.*

(1) COUNTIES.—

(a) In order to provide effective and orderly governmental control and coordination of emergency operations in emergencies within the scope of ss. 252.31-252.90, each county within this state shall be within the jurisdiction of, and served by, the division. Except as otherwise provided in ss. 252.31-252.90, each local emergency management agency shall have jurisdiction over and serve an entire county. Unless part of an interjurisdictional emergency management agreement entered into pursuant to paragraph (3)(b) which is recognized by the Governor by executive order or rule, each county must establish and maintain such an emergency management agency and shall develop a county emergency management plan and program that is coordinated and consistent with the state comprehensive emergency management plan and program. Counties that are part of an interjurisdictional emergency management agreement entered into pursuant to paragraph (3)(b) which is recognized by the Governor by executive order or rule shall cooperatively develop an emergency management plan and program that is coordinated and consistent with the state comprehensive emergency management plan and program.

(b) Each county emergency management agency created and established pursuant to ss. 252.31-252.90 shall have a director. The director must meet the minimum training and education qualifications established in a job description approved by the county. The director shall be appointed by the board of county commissioners or the chief administrative officer of the county, as described in chapter 125 or the county charter, if applicable, to serve at the pleasure of the appointing authority, in conformance with applicable resolutions, ordinances, and laws. A county constitutional officer, or an employee of a county constitutional officer, may be appointed as director following prior notification to the division. Each board of county commissioners shall promptly inform the division of the appointment of the director and other personnel. Each director has direct responsibility for the organization, administration, and operation of the county emergency management agency. The director shall coordinate emergency management activities, services, and programs within the county and shall serve as liaison to the division and other local emergency management agencies and organizations.

(c) Each county emergency management agency shall perform emergency management functions within the territorial limits of the county within which it is organized and, in addition, shall conduct such activities outside its territorial limits as are required pursuant to ss. 252.31-252.90 and in accordance with state and county emergency management plans and mutual aid agreements. Counties shall serve as liaison for and coordinator of municipalities' requests for state and federal assistance during postdisaster emergency operations.

(d) During a declared state or local emergency and upon the request of the director of a local emergency management agency, the district school board or school boards in the affected area shall participate in emergency management by providing facilities and necessary personnel to staff such facilities. Each school board providing transportation assistance in an emergency evacuation shall coordinate the use of its vehicles and personnel with the local emergency management agency.

(e) County emergency management agencies may charge and collect fees for the review of emergency management plans on behalf of external agencies and institutions. Fees must be reasonable and may not

exceed the cost of providing a review of emergency management plans in accordance with fee schedules established by the division.

(2) MUNICIPALITIES.—Legally constituted municipalities are authorized and encouraged to create municipal emergency management programs. Municipal emergency management programs shall coordinate their activities with those of the county emergency management agency. Municipalities without emergency management programs shall be served by their respective county agencies. If a municipality elects to establish an emergency management program, it must comply with all laws, rules, and requirements applicable to county emergency management agencies. Each municipal emergency management plan must be consistent with and subject to the applicable county emergency management plan. In addition, each municipality must coordinate requests for state or federal emergency response assistance with its county. This requirement does not apply to requests for reimbursement under federal public disaster assistance programs.

(3) EMERGENCY MANAGEMENT POWERS; POLITICAL SUBDIVISIONS.—

(a) In carrying out the provisions of ss. 252.31-252.90, each political subdivision shall have the power and authority:

1. To appropriate and expend funds; make contracts; obtain and distribute equipment, materials, and supplies for emergency management purposes; provide for the health and safety of persons and property, including emergency assistance to the victims of any emergency; and direct and coordinate the development of emergency management plans and programs in accordance with the policies and plans set by the federal and state emergency management agencies.

2. To appoint, employ, remove, or provide, with or without compensation, coordinators, rescue teams, fire and police personnel, and other emergency management workers.

3. To establish, as necessary, a primary and one or more secondary emergency operating centers to provide continuity of government and direction and control of emergency operations.

4. To assign and make available for duty the offices and agencies of the political subdivision, including the employees, property, or equipment thereof relating to firefighting, engineering, rescue, health, medical and related services, police, transportation, construction, and similar items or services for emergency operation purposes, as the primary emergency management forces of the political subdivision for employment within or outside the political limits of the subdivision.

5. To request state assistance or invoke emergency-related mutual-aid assistance by declaring a state of local emergency in the event of an emergency affecting only one political subdivision. The duration of each state of emergency declared locally is limited to 7 days; it may be extended, as necessary, in 7-day increments. Further, the political subdivision has the power and authority to waive the procedures and formalities otherwise required of the political subdivision by law pertaining to:

- a. Performance of public work and taking whatever prudent action is necessary to ensure the health, safety, and welfare of the community.
- b. Entering into contracts.
- c. Incurring obligations.
- d. Employment of permanent and temporary workers.
- e. Utilization of volunteer workers.
- f. Rental of equipment.
- g. Acquisition and distribution, with or without compensation, of supplies, materials, and facilities.
- h. Appropriation and expenditure of public funds.

(b) Upon the request of two or more adjoining counties, or if the Governor finds that two or more adjoining counties would be better served by an interjurisdictional arrangement than by maintaining separate emergency management agencies and services, the Governor

may delineate by executive order or rule an interjurisdictional area adequate to plan for, prevent, mitigate, or respond to emergencies in such area and may direct steps to be taken as necessary, including the creation of an interjurisdictional relationship, a joint emergency plan, a provision for mutual aid, or an area organization for emergency planning and services. A finding of the Governor pursuant to this paragraph shall be based on one or more factors related to the difficulty of maintaining an efficient and effective emergency prevention, mitigation, preparedness, response, and recovery system on a unijurisdictional basis, such as:

1. Small or sparse population.
2. Limitations on public financial resources severe enough to make maintenance of a separate emergency management agency and services unreasonably burdensome.
3. Unusual vulnerability to emergencies as evidenced by a past history of emergencies, topographical features, drainage characteristics, emergency potential, and presence of emergency-prone facilities or operations.
4. The interrelated character of the counties in a multicounty area.
5. Other relevant conditions or circumstances.

Section 13. Subsections (1), (2), and (3) of section 252.385, Florida Statutes, are amended to read:

252.385 Public shelter space.—

(1) It is the intent of the Legislature that this state not have a deficit of safe public hurricane evacuation shelter space in any region of the state ~~by 1998 and thereafter~~.

(2)(a) The division shall administer a program to survey existing schools, universities, community colleges, and other state-owned, municipally owned, and county-owned public buildings and any private facility that the owner, in writing, agrees to provide for use as a public hurricane evacuation shelter to identify those that are appropriately designed and located to serve as such shelters. The owners of the facilities must be given the opportunity to participate in the surveys. The state university boards of trustees, district school boards, community college boards of trustees, and the Department of Education are responsible for coordinating and implementing the survey of public schools, universities, and community colleges with the division or the local emergency management agency.

(b) By January 31 of each even-numbered year, the division shall prepare and submit a statewide emergency shelter plan to the Governor and Cabinet for approval, subject to the requirements for approval in s. 1013.37(2). ~~The emergency shelter plan must project, for each of the next 5 years, the hurricane shelter needs of the state, including periods of time during which a concurrent public health emergency may necessitate more space for each individual to accommodate physical distancing. In addition to information on the general shelter needs throughout this state, the plan must shall identify the general location and square footage of special needs shelters, by regional planning council region, during the next 5 years. The plan must shall also include information on the availability of shelters that accept pets. The Department of Health shall assist the division in determining the estimated need for special needs shelter space and the adequacy of facilities to meet the needs of persons with special needs based on information from the registries of persons with special needs and other information.~~

(3) The division shall annually provide to the President of the Senate, the Speaker of the House of Representatives, and the Governor a list of facilities recommended to be retrofitted using state funds. State funds should be maximized and targeted to regional planning council regions with hurricane evacuation shelter deficits. ~~Retrofitting facilities in regions with public hurricane evacuation shelter deficits shall be given first priority and should be completed by 2008. All recommended facilities should be retrofitted by 2008.~~ The owner or lessee of a public hurricane evacuation shelter that is included on the list of facilities recommended for retrofitting is not required to perform any recommended improvements.

Section 14. Subsection (1) of section 252.44, Florida Statutes, is amended to read:

## 252.44 Emergency mitigation.—

(1) In addition to prevention measures included in the state and local comprehensive emergency management plans, the Governor shall consider on a continuing basis steps that could be taken to mitigate the harmful consequences of emergencies. At the Governor's direction and pursuant to any other authority and competence they have, state agencies, including, but not limited to, those charged with responsibilities in connection with *protecting and maintaining the public health*, flood plain management, stream encroachment and flow regulation, weather modification, fire prevention and control, air quality, public works, land use and land use planning, and construction standards, shall make studies of emergency-mitigation-related matters. The Governor, from time to time, shall make such recommendations to the Legislature, local governments, and other appropriate public and private entities as may facilitate measures for mitigation of the harmful consequences of emergencies.

Section 15. Present subsection (3) of section 252.46, Florida Statutes, is redesignated as subsection (6), a new subsection (3) and subsections (4) and (5) are added to that section, and subsection (2) of that section is amended, to read:

## 252.46 Orders and rules.—

(2) All orders and rules adopted by the division or any political subdivision or other agency authorized by ss. 252.31-252.90 to make orders and rules have full force and effect of law after adoption in accordance with ~~the provisions of~~ chapter 120 in the event of issuance by the division or any state agency or, if ~~adopted promulgated~~ by a political subdivision of the state or agency thereof, when filed in the office of the clerk or recorder of the political subdivision or agency ~~adopting promulgating~~ the same. *Failure of a political subdivision to file any such order or rule with the office of the clerk or recorder within 3 days after issuance voids the order or rule.* All existing laws, ordinances, and rules inconsistent with ~~the provisions of~~ ss. 252.31-252.90, or any order or rule issued under the authority of ss. 252.31-252.90, ~~must shall~~ be suspended during the period of time and to the extent that such conflict exists.

(3) *Emergency ordinances, declarations, and orders adopted by a political subdivision under the authority of ss. 252.31-252.90, including those enacted by a municipality pursuant to s. 166.041(3)(b), must be available on a dedicated webpage accessible through a conspicuous link on the political subdivision's homepage. The dedicated webpage must identify the emergency ordinances, declarations, and orders currently in effect. Each political subdivision adopting emergency ordinances, declarations, or orders must provide the division with the link to the political subdivision's dedicated webpage. The division must include these links in an easily identifiable format on its website.*

(4)(a) *An emergency order issued by a political subdivision automatically expires 10 days after its issuance; however, such an order may be extended before its expiration for 10-day periods, subject to ratification by a majority vote of the governing body of the political subdivision. In the event the governing body of the political subdivision is unable to convene before the expiration of the emergency order due to the impacts of a hurricane or other weather-related natural disaster, the 10-day period is tolled until the governing body is able to convene. However, an emergency order issued under this section may not be in effect for more than 30 days unless the governing body approves an extension of the order. The governing body must ratify the extension of such order before it expires. Once ratified, the emergency order may not be amended or replaced by the chief elected officer or chief administrative officer, as applicable, without the ratification of the political subdivision's governing body. In the event the governing body fails to ratify the extension of the emergency order, the chief elected officer or chief administrative officer, as applicable, may not reissue the order in response to the same emergency.*

Any communication technology used must be sufficient to permit all interested persons to remotely attend the meeting. Any law, charter provision, or ordinance requiring a quorum to be present in person or requiring the governing body of any political subdivision to meet at a specific public place shall be suspended for purposes of such meeting. If the public meeting will be held via telephone, real-time videoconferencing, or similar real-time electronic or video communication technology, the meeting notice must include information necessary for persons interested in attending the meeting to do so, including the places where facilities necessary to allow attendance will be available.*

(5) *An order issued by a political subdivision pursuant to this section which imposes a curfew restricting the travel or movement of persons during designated times must nonetheless allow persons to travel during the curfew to their places of employment to report for work and to return to their residences after their work has concluded.*

(2) DUTIES.—The department shall perform the following functions, unless as otherwise provided, consistent with the development of a state energy policy:

(a) The Division of Emergency Management is responsible for the development of an energy emergency contingency plan to respond to serious shortages of primary and secondary energy sources. Upon a finding by the Governor, implementation of any emergency program shall be upon order of the Governor that a particular kind or type of fuel is, or that the occurrence of an event which is reasonably expected within 30 days will make the fuel, in short supply. The Division of Emergency Management shall then respond by instituting the appropriate measures of the contingency plan to meet the given emergency or energy shortage. The Governor may utilize the provisions of s. 252.36(6) ~~s. 252.36(5)~~ to carry out any emergency actions required by a serious shortage of energy sources.

Section 17. Paragraph (c) of subsection (1) and subsection (2) of section 381.00315, Florida Statutes, are amended to read:

381.00315 Public health advisories; public health emergencies; isolation and quarantines.—The State Health Officer is responsible for declaring public health emergencies, issuing public health advisories, and ordering isolation or quarantines.

(1) As used in this section, the term:

(c) "Public health emergency" means any occurrence, or threat thereof, whether natural or manmade, which results or may result in substantial injury or harm to the public health from infectious disease, chemical agents, nuclear agents, biological toxins, or situations involving mass casualties or natural disasters.

(2)(a) *The department shall prepare and maintain a state public health emergency management plan to serve as a comprehensive guide to public health emergency response in this state. The department shall develop the plan in collaboration with the Division of Emergency Management, other executive agencies with functions relevant to public health emergencies, district medical examiners, and national and state public health experts and ensure that it integrates and coordinates with the public health emergency management plans and programs of the Federal Government. The plan must address each element of public health emergency planning and incorporate public health and epidemiological best practices to ensure that the state is prepared for every foreseeable public health emergency. The plan must include an assess-*

ment of state and local public health infrastructure, including information systems, physical plant, commodities, and human resources, and an analysis of the infrastructure necessary to achieve the level of readiness proposed by the plan for short-term and long-term public emergencies. Beginning July 1, 2022, the department shall submit the plan to the Division of Emergency Management for inclusion in the state comprehensive emergency management plan pursuant to s. 252.35. The department shall review the plan after the declared end of each public health emergency, and, in any event, at least every 5 years, and update its terms as necessary to ensure continuous planning.

(b) Before declaring a public health emergency, the State Health Officer shall, to the extent possible, consult with the Governor and shall notify the Chief of Domestic Security. The declaration of a public health emergency shall continue until the State Health Officer finds that the threat or danger has been dealt with to the extent that the emergency conditions no longer exist and he or she terminates the declaration. However, a declaration of a public health emergency may not continue for longer than 60 days unless the Governor concurs in the renewal of the declaration.

(c) The State Health Officer, upon declaration of a public health emergency, shall establish by order the method and procedure for identifying and reporting cases and deaths involving the infectious disease or other occurrence identified as the basis for the declared public health emergency. The method and procedure must be consistent with any standards developed by the Federal Government specific to the declared emergency or, if federal standards do not exist, must be consistent with public health best practices as identified by the State Health Officer. During the pendency of a public health emergency, the department is the sole entity responsible for the collection and official reporting and publication of cases and deaths. The State Health Officer, by order or emergency rule, may ensure necessary assistance from licensed health care providers in carrying out this function and may request the assistance of district medical examiners in performing this function.

(d) The State Health Officer, upon declaration of a public health emergency, may take actions that are necessary to protect the public health. Such actions include, but are not limited to:

1. Establishing screening protocols consistent with s. 381.00316.

Only those health care practitioners specified in this paragraph who possess an unencumbered inactive license and who request that such license be reactivated are eligible for reactivation. An inactive license that is reactivated under this paragraph shall return to inactive status when the public health emergency ends or before the end of the public health emergency if the State Health Officer determines that the health care practitioner is no longer needed to provide services during the public health emergency. Such licenses may only be reactivated for a period not to exceed 90 days without meeting the requirements of s. 456.036 or chapter 401, as applicable.

5.4. Ordering an individual to be examined, tested, vaccinated, treated, isolated, or quarantined for communicable diseases that have significant morbidity or mortality and present a severe danger to public health. Individuals who are unable or unwilling to be examined, tested, vaccinated, or treated for reasons of health, religion, or conscience may be subjected to isolation or quarantine.

a. Examination, testing, vaccination, or treatment may be performed by any qualified person authorized by the State Health Officer.

b. If the individual poses a danger to the public health, the State Health Officer may subject the individual to isolation or quarantine. If there is no practical method to isolate or quarantine the individual, the State Health Officer may use any means necessary to vaccinate or treat the individual.

c. Any order of the State Health Officer given to effectuate this paragraph is ~~shall be~~ immediately enforceable by a law enforcement officer under s. 381.0012.

(e)(2) Individuals who assist the State Health Officer at his or her request on a volunteer basis during a public health emergency are entitled to the benefits specified in s. 110.504(2), (3), (4), and (5).

Senator Polsky moved the following amendment:

**Amendment 1 (555226) (with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. Section 327.4108, Florida Statutes, is amended to read:

327.4108 Anchoring of vessels in anchoring limitation areas.—

(1)(a) The following densely populated urban areas, which have narrow state waterways, residential docking facilities, and significant recreational boating traffic, are designated as *and shall be considered to be grandfathered-in* anchoring limitation areas:

1. ~~(a)~~ The section of Middle River lying between Northeast 21st Court and the Intracoastal Waterway in Broward County.

2. ~~(b)~~ Sunset Lake in Miami-Dade County.

3. ~~(c)~~ The sections of Biscayne Bay in Miami-Dade County lying between:

a. ~~1.~~ Rivo Alto Island and Di Lido Island.

b. ~~2.~~ San Marino Island and San Marco Island.

c. ~~3.~~ San Marco Island and Biscayne Island.

(b)(2) To promote the public’s use and enjoyment of the designated waterway, except as provided in subsections (4) ~~(3)~~ and (5) ~~(4)~~, a person may not anchor a vessel at any time during the period between one-half hour after sunset and one-half hour before sunrise in an anchoring limitation area *designated under this subsection*.

(2)(a) *Notwithstanding s. 327.60(2)(f), a county, except for a county included in an area of critical state concern, may establish, in accordance with this subsection, an anchoring limitation area adjacent to urban areas that have residential docking facilities and significant recreational boating traffic. The aggregate total of anchoring limitation areas in a county may not exceed 10 percent of the county’s delineated navigable-in-fact waterways. As used in this subsection, the term “navigable-in-fact waterways” means waterways that are navigable in their natural or unimproved condition over which useful commerce or public recreation of a substantial and permanent character is or may be conducted in the customary mode of trade and travel on water. The term does not include lakes or streams that are theoretically navigable; have a potential for navigability; or are temporary, precarious, and unprofitable, but the term does include lakes or streams that have practical usefulness to the public as highways for transportation. Each anchoring limitation area must meet all of the following requirements:*

1. *Be less than 100 acres in size. For purposes of this subsection, the calculated size of the anchoring limitation area does not include any portion of the marked channel of the Florida Intracoastal Waterway contiguous to the anchoring limitation area;*

2. *Not include any mooring field or marina; and*

3. *Be clearly marked with all of the following:*

a. *Signs that provide reasonable notice to boaters identifying the duration of time beyond which anchoring is limited and identifying the county ordinance by which the anchoring limitation area was created.*

b. *Buoys. The county that has created an anchoring limitation area shall install and maintain buoys marking the boundary of the anchoring limitation area.*

The signs and buoys must be permitted and installed in accordance with ss. 327.40 and 327.41 and commission rule.

(b) Except as provided in subsections (4) and (5), a person may not anchor a vessel for more than 45 consecutive days in any 6-month period in an anchoring limitation area established pursuant to this subsection.

(c) A county proposing establishment of an anchoring limitation area in accordance with this subsection shall provide notice to the commission at least 30 days before introducing an ordinance to establish the anchoring limitation area. The commission shall publish notice of the proposed ordinance on its website and distribute such notice through the commission's Boating and Waterways Section e-mail distribution list for ordinances.

(3)(a) Any coastal waterways within the jurisdiction of a county that is included in an area of critical state concern are designated as anchoring limitation areas. Within such areas, a vessel on waters of the state may be anchored in the same location only for a maximum of 90 days. The commission shall adopt rules to implement this subsection.

(b) The anchoring limitations in this subsection do not apply to approved and permitted moorings or mooring fields.

(c) Notwithstanding the commission rules adopted pursuant to this subsection, this section is not effective for Monroe County until the county approves, permits, and opens new moorings for public use, including at least 250 moorings within 1 mile of the Key West Bight City Dock and at least 50 moorings within the Key West Garrison Bight Mooring Field. Until such time, the commission shall designate the area within 1 mile of the Key West Bight City Dock as a priority for the investigation and removal of derelict vessels.

(4)(~~3~~) Notwithstanding subsections (1), ~~subsection (2)~~, and (3), a person may anchor a vessel in an anchoring limitation area:

(a) If the vessel suffers a mechanical failure that poses an unreasonable risk of harm to the vessel or the persons onboard unless the vessel anchors. The vessel may anchor for 3 business days or until the vessel is repaired, whichever occurs first.

(b) If imminent or existing weather conditions in the vicinity of the vessel pose an unreasonable risk of harm to the vessel or the persons onboard unless the vessel anchors. The vessel may anchor until weather conditions no longer pose such risk. During a hurricane or tropical storm, weather conditions are deemed to no longer pose an unreasonable risk of harm when the hurricane or tropical storm warning affecting the area has expired.

(c) During events described in s. 327.48 or other special events, including, but not limited to, public music performances, local government waterfront activities, or fireworks displays. A vessel may anchor for the lesser of the duration of the special event or 3 days.

(5)(~~4~~) This section does not apply to:

(a) Vessels owned or operated by a governmental entity for law enforcement, firefighting, military, or rescue purposes.

(b) Construction or dredging vessels on an active job site.

(c) Vessels actively engaged in commercial fishing.

(d) Vessels engaged in recreational fishing if the persons onboard are actively tending hook and line fishing gear or nets.

(6)(a)(~~5~~)(~~a~~) As used in this subsection, the term "law enforcement officer or agency" means an officer or agency authorized to enforce this section pursuant to s. 327.70.

(b)1. For a vessel in an anchoring limitation area established pursuant to subsection (2), upon an inquiry by a law enforcement officer or agency, a vessel owner or operator must be given an opportunity to provide proof that the vessel has not exceeded the limitations described in subsection (2). Such proof may include any of the following:

a. Documentation showing that the vessel was in another location at least 1 mile away within a period of less than 45 days before the inquiry.

b. Electronic evidence, including, but not limited to, navigational devices or tracking devices that show the vessel was in another location at least 1 mile away within a period of less than 45 days before the inquiry.

2. If a vessel owner or operator fails or refuses to provide proof that the vessel has not exceeded the limitations described in subsection (2), the law enforcement officer or agency may issue a citation for a violation of this section.

(c)(~~b~~) A law enforcement officer or agency may remove a vessel from an anchoring limitation area designated under subsection (1) or established pursuant to subsection (2) and impound the vessel for up to 48 hours, or cause such removal and impoundment, if the vessel operator, after being issued a citation for a violation of this section:

1. Anchors the vessel in violation of this section within 12 hours after being issued the citation; or

2. Refuses to leave the anchoring limitation area after being directed to do so by a law enforcement officer or agency.

(d) A vessel that is the subject of more than three violations within 12 months which result in dispositions other than acquittal or dismissal shall be declared to be a public nuisance and subject to s. 705.103, or for a derelict vessel, subject to s. 823.11.

(e)(~~e~~) A law enforcement officer or agency acting under this subsection to remove or impound a vessel, or to cause such removal or impoundment, shall be held harmless for any damage to the vessel resulting from such removal or impoundment unless the damage results from gross negligence or willful misconduct.

(f)(~~d~~) A contractor performing removal or impoundment services at the direction of a law enforcement officer or agency pursuant to this subsection must:

1. Be licensed in accordance with United States Coast Guard regulations, as applicable.

2. Obtain and carry a current policy issued by a licensed insurance carrier in this state to insure against any accident, loss, injury, property damage, or other casualty caused by or resulting from the contractor's actions.

3. Be properly equipped to perform such services.

(g)(~~e~~) In addition to the civil penalty imposed under s. 327.73(1)(z), the operator of a vessel that is removed and impounded pursuant to paragraph (c) (~~b~~) must pay all removal and storage fees before the vessel is released. A vessel removed pursuant to paragraph (c) (~~b~~) may not be impounded for longer than 48 hours.

(7)(~~6~~) A violation of this section is punishable as provided in s. 327.73(1)(z).

~~(7) This section shall remain in effect notwithstanding the Legislature's adoption of the commission's recommendations for the regulation of mooring vessels outside of public mooring fields pursuant to s. 327.4105.~~

Section 2. For the purpose of incorporating the amendment made by this act to section 327.4108, Florida Statutes, in a reference thereto, paragraph (z) of subsection (1) of section 327.73, Florida Statutes, is reenacted to read:

327.73 Noncriminal infractions.—

2. For a second offense, up to a maximum of \$100.

3. For a third or subsequent offense, up to a maximum of \$250.

The civil penalty for any such infraction is \$50, except as otherwise provided in this section. Any person who fails to appear or otherwise properly respond to a uniform boating citation shall, in addition to the charge relating to the violation of the boating laws of this state, be charged with the offense of failing to respond to such citation and, upon conviction, be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. WHEREAS, despite the issuance of the Emancipation Proclamation, it was not fully enforced in certain regions of the United States for more than 2 years afterward, and

WHEREAS, on or about June 19, 1865, federal authorities arrived in Galveston, Texas, to enforce the Emancipation Proclamation and further inform slaves that the Civil War had ended and that the enslaved were now free, and

WHEREAS, thereafter, former slaves and their descendants continued to commemorate each June 19 to celebrate freedom and the emancipation of all slaves in the United States, and

WHEREAS, many victims of communism were persecuted as political prisoners for speaking out against these regimes, and others were killed in genocidal state-sponsored purges of undesirable groups, and

WHEREAS, in addition to violating basic human rights, communist regimes have suppressed intellectual freedom, cultural life, and self-determination movements in more than 40 nations, and

**House Amendment 1 (101923) (with title amendment)**—Remove everything after the enacting clause and insert:

Section 1. Subsection (17) of section 403.064, Florida Statutes, is renumbered as subsection (18) and amended, and a new subsection (17) is added to that section, to read:

403.064 Reuse of reclaimed water.—

(17) *By November 1, 2021, domestic wastewater utilities that dispose of effluent, reclaimed water, or reuse water by surface water discharge shall submit to the department for review and approval a plan for eliminating nonbeneficial surface water discharge by January 1, 2032, subject to the requirements of this section. The plan must include the average gallons per day of effluent, reclaimed water, or reuse water that will no longer be discharged into surface waters and the date of such elimination, the average gallons per day of surface water discharge which will continue in accordance with the alternatives provided for in subparagraphs (a)2. and 3., and the level of treatment that the effluent, reclaimed water, or reuse water will receive before being discharged into a surface water by each alternative.*

(a) *The department shall approve a plan that includes all of the information required under this subsection as meeting the requirements of this section if one or more of the following conditions are met:*

1. *The plan will result in eliminating the surface water discharge.*
2. *The plan will result in meeting the requirements of s. 403.086(10).*
3. *The plan does not provide for a complete elimination of the surface water discharge but does provide an affirmative demonstration that any of the following conditions apply to the remaining discharge:*
  - a. *The discharge is associated with an indirect potable reuse project;*
  - b. *The discharge is a wet weather discharge that occurs in accordance with an applicable department permit;*
  - c. *The discharge is into a stormwater management system and is subsequently withdrawn by a user for irrigation purposes;*
  - d. *The utility operates domestic wastewater treatment facilities with reuse systems that reuse a minimum of 90 percent of a facility's annual average flow, as determined by the department using monitoring data for the prior 5 consecutive years, for reuse purposes authorized by the department; or*
  - e. *The discharge provides direct ecological or public water supply benefits, such as rehydrating wetlands or implementing the requirements of minimum flows and minimum water levels or recovery or prevention strategies for a waterbody.*

*The plan may include conceptual projects under sub-subparagraphs 3.a. and 3.e.; however, such inclusion does not extend the time within which the plan must be implemented.*

(b) *The department shall approve or deny a plan within 9 months after receiving the plan. A utility may modify the plan by submitting such modification to the department; however, the plan may not be modified such that the requirements of this subsection are not met, and the department may not extend the time within which a plan will be implemented. The approval of the plan or a modification by the department does not constitute final agency action.*

(c) *A utility shall fully implement the approved plan by January 1, 2032.*

(d) *If a plan is not timely submitted by a utility or approved by the department, the utility's domestic wastewater treatment facilities may*

not dispose of effluent, reclaimed water, or reuse water by surface water discharge after January 1, 2028. A violation of this paragraph is subject to administrative and civil penalties pursuant to ss. 403.121, 403.131, and 403.141.

(e) A domestic wastewater utility applying for a permit for a new or expanded surface water discharge shall prepare a plan in accordance with this subsection as part of that permit application. The department may not approve a permit for a new or expanded surface water discharge unless the plan meets one or more of the conditions provided in paragraph (a).

(f) By December 31, 2021, and annually thereafter, the department shall submit a report to the President of the Senate and the Speaker of the House of Representatives which provides the average gallons per day of effluent, reclaimed water, or reuse water that will no longer be discharged into surface waters by the utility and the dates of such elimination; the average gallons per day of surface water discharges that will continue in accordance with the alternatives provided in subparagraphs (a)2. and 3., and the level of treatment that the effluent, reclaimed water, or reuse water will receive before being discharged into a surface water by each alternative and utility; and any modified or new plans submitted by a utility since the last report.

(g) This subsection does not apply to any of the following:

1. A domestic wastewater treatment facility that is located in a fiscally constrained county as described in s. 218.67(1).

2. A domestic wastewater treatment facility that is located in a municipality that is entirely within a rural area of opportunity as designated pursuant to s. 288.0656.

3. A domestic wastewater treatment facility that is located in a municipality that has less than \$10 million in total revenue, as determined by the municipality's most recent annual financial report submitted to the Department of Financial Services in accordance with s. 218.32.

4. A domestic wastewater treatment facility that is operated by an operator of a mobile home park as defined in s. 723.003 and has a permitted capacity of less than 300,000 gallons per day.

(h) This subsection does not prohibit the inclusion of a plan for backup discharges under s. 403.086(8)(a).

(i) This subsection may not be deemed to exempt a utility from requirements that prohibit the causing of or contributing to violations of water quality standards in surface waters, including groundwater discharges that affect water quality in surface waters.

(18)(a)(17) By December 31, 2020, the department shall initiate rule revisions based on the recommendations of the Potable Reuse Commission's 2020 report "Advancing Potable Reuse in Florida: Framework for the Implementation of Potable Reuse in Florida." Rules for potable reuse projects must address contaminants of emerging concern and meet or exceed federal and state drinking water quality standards and other applicable water quality standards. Reclaimed water is deemed a water source for public water supply systems.

(b) The Legislature recognizes that sufficient water supply is imperative to the future of the state and that potable reuse is a source of water which may assist in meeting future demand for water supply.

(c) The department may convene and lead one or more technical advisory groups to coordinate the rulemaking and review of rules for potable reuse as required under this section. The technical advisory group, which shall assist in the development of such rules, must be composed of knowledgeable representatives of a broad group of interested stakeholders, including, but not limited to, representatives from the water management districts, the wastewater utility industry, the water utility industry, the environmental community, the business community, the public health community, the agricultural community, and the consumers.

(d) Potable reuse is an alternative water supply as defined in s. 373.019, and potable reuse projects are eligible for alternative water supply funding. The use of potable reuse water may not be excluded from regional water supply planning under s. 373.709.

(e) The department and the water management districts shall develop and execute, by December 31, 2023, a memorandum of agreement providing for the procedural requirements of a coordinated review of all permits associated with the construction and operation of an indirect potable reuse project. The memorandum of agreement must provide that the coordinated review will occur only if requested by a permittee. The purpose of the coordinated review is to share information, avoid the redundancy of information requested from the permittee, and ensure consistency in the permit for the protection of the public health and the environment.

(f) To encourage investment in the development of potable reuse projects by private entities, a potable reuse project developed as a qualifying project under s. 255.065 is:

1. Beginning January 1, 2026, eligible for expedited permitting under s. 403.973.

2. Consistent with s. 373.707, eligible for priority funding in the same manner as other alternative water supply projects from the Drinking Water State Revolving Fund, under the Water Protection and Sustainability Program, and for water management district cooperative funding.

(g) This subsection is not intended and may not be construed to supersede s. 373.250(3).

Section 2. Section 403.892, Florida Statutes, is created to read:

403.892 Incentives for the use of graywater technologies.—

(1) As used in this section, the term:

(a) "Developer" has the same meaning as in s. 380.031(2).

(b) "Graywater" has the same meaning as in s. 381.0065(2)(e).

(2) To promote the beneficial reuse of water in the state, a county, municipality, or special district shall:

(a) Authorize the use of residential graywater technologies in their respective jurisdictions which meet the requirements of this section, the Florida Building Code, and applicable requirements of the Department of Health and for which a developer or homebuilder has received all applicable regulatory permits or authorizations.

(b) Provide a 25 percent density or intensity bonus to a developer or homebuilder if at least 75 percent of a proposed or existing development will have a graywater system installed or a 35 percent bonus if 100 percent of a proposed or an existing development will have a graywater system installed. The bonus under this paragraph is in addition to any bonus provided by a county, municipality, or special district ordinance in effect on July 1, 2021.

(3) To qualify for the incentives under subsection (2), the developer or homebuilder must certify to the applicable governmental entity as part of its application for development approval or amendment of a development order that all of the following conditions are met:

(a) The proposed or existing development has at least 25 single-family residential homes that are either detached or multifamily dwellings. This paragraph does not apply to multifamily projects over five stories in height.

(b) Each single-family residential home or residence will have its own residential graywater system that is dedicated for its use.

(c) The developer or homebuilder has submitted a manufacturer's warranty or data providing reasonable assurance that the residential graywater system will function as designed and includes an estimate of anticipated potable water savings for each system. A submission of the manufacturer's warranty or data from a building code official, governmental entity, or research institute that has monitored or measured the residential graywater system that is proposed to be installed for such development shall be accepted as reasonable assurance and no further information or assurance is needed.

(d) The required maintenance of the graywater system will be the responsibility of the residential homeowner.

(e) An operation and maintenance manual for the graywater system will be supplied to the initial homeowner of each home. The manual shall provide a method of contacting the installer or manufacturer and shall include directions to the residential homeowner that the manual shall remain with the residence throughout the life cycle of the system.

(4) If the requirements of subsection (3) have been met, the county or municipality must include the incentives provided for in subsection (2) when it approves the development or amendment of a development order. The approval must also provide for the process that the developer or homebuilder will follow to verify that such systems have been purchased. Proof of purchase must be provided within 180 days after the issuance of a certificate of occupancy for single-family residential homes that are either detached or multifamily projects under five stories in height.

(5) The installation of residential graywater systems in a county or municipality in accordance with this section shall qualify as a water conservation measure in a public water utility's water conservation plan under s. 373.227. The efficiency of such measures shall be commensurate with the amount of potable water savings estimated for each system provided by the developer or homebuilder under paragraph (3)(c).

Section 3. To further promote the reuse of reclaimed water for irrigation purposes, the rules that apply when reclaimed water is injected into a receiving groundwater that has 1,000 to 3,000 mg/L total dissolved solids are applicable to reclaimed water aquifer storage and recovery wells injecting into a receiving groundwater of less than 1,000 mg/L total dissolved solids if the applicant demonstrates that it is injecting into a confined aquifer, that there are no potable water supply wells within 3,500 feet of the aquifer storage and recovery wells, that it has implemented institutional controls to prevent the future construction of potable water supply wells within 3,500 feet of the aquifer storage and recovery wells, and that the recovered water is being used for irrigation purposes. The injection of reclaimed water that meets the requirements of this section is not potable reuse. This section may not be construed to exempt the reclaimed water aquifer storage and recovery wells from requirements that prohibit the causing of or contribution to violations of water quality standards in surface waters, including groundwater discharges that flow by interflow and affect water quality in surface waters.

Section 4. The Legislature determines and declares that this act fulfills an important state interest.

Section 5. This act shall take effect upon becoming a law.

And the title is amended as follows:

Remove everything before the enacting clause and insert: A bill to be entitled An act relating to reclaimed water; amending s. 403.064, F.S.; requiring certain domestic wastewater utilities to submit to the Department of Environmental Protection by a specified date a plan for eliminating nonbeneficial surface water discharge within a specified timeframe; providing requirements for the plan; requiring the department to approve plans that meet certain requirements; requiring the department to make a determination regarding a plan within a specified timeframe; requiring the utilities to implement approved plans by specified dates; providing for administrative and civil penalties; requiring certain utilities to submit updated annual plans until certain conditions are met; requiring domestic wastewater utilities applying for permits for new or expanded surface water discharges to prepare a specified plan for eliminating nonbeneficial discharges as part of its permit application; requiring the department to submit an annual report to the Legislature by a specified date; providing applicability; providing construction; authorizing the department to convene and lead one or more technical advisory groups; providing that potable reuse is an alternative water supply and that projects relating to such reuse are eligible for alternative water supply funding; requiring the department and the water management districts to develop and execute, by a specified date, a memorandum of agreement for the coordinated review of specified permits; providing that potable reuse projects are eligible for certain expedited permitting and priority funding; providing construction; creating s. 403.892, F.S.; providing definitions; requiring counties, municipalities, and special districts to authorize graywater technologies under certain circumstances and to provide certain incentives for the implementation of such technologies; providing requirements for the use of graywater technologies; providing that the installation of residential graywater systems meets certain public utility water conservation measure requirements; providing for the ap-

plicability of specified reclaimed water aquifer storage and recovery well requirements; providing a declaration of important state interest; providing an effective date.

## PRAYER

The following prayer was offered by Reverend Dora L. Thomas, Saint Paul’s United Methodist Church, Tallahassee:

Senate President, Senators, honored guests, and all Senate staff, let us breathe deeply together, recognizing the one who created us—the source of all being. This morning, we simply pause in awe of life, humanity, and all creation. Spirit, we ask for your attention and care as we enter the downhill drag of this legislative session. Bless our work done in good faith, done in good spirit, and even done in good humor as we get a little punchy after days of long hours. Continue to inspire good governance of our state through our relationships, compassion, discernment, and votes.

Forgive our indiscretions, those we know and those we don’t. Love us. Heal us. And, make us whole. Holy One, your power is greater than ours, and we trust you to guide our collective work for the good of our neighbor. Grant us your wisdom. Help us to see your vision for our communities, state, nation, and world. Give us ears to listen and hearts to follow. Today, we pray for peace with you, with each other, and for the world. Amen.

(6) A voter registration application, *including an application with a change in name, address, or party affiliation*, may be accepted as valid only after the department has verified the authenticity or nonexistence of the driver license number, the Florida identification card number, or the last four digits of the social security number provided by the applicant. If a completed voter registration application has been received by the book-closing deadline but the driver license number, the Florida identification card number, or the last four digits of the social security number provided by the applicant cannot be verified, the applicant shall be notified that the number cannot be verified and that the applicant must provide evidence to the supervisor sufficient to verify the authenticity of the applicant's driver license number, Florida identification card number, or last four digits of the social security number. If the applicant provides the necessary evidence, the supervisor shall place the applicant's name on the registration rolls as an active voter. If the applicant has not provided the necessary evidence or the number has not otherwise been verified prior to the applicant presenting himself or herself to vote, the applicant shall be provided a provisional ballot. The provisional ballot shall be counted only if the number is verified by the end of the canvassing period or if the applicant presents evidence to the supervisor of elections sufficient to verify the authenticity of the applicant's driver license number, Florida identification card number, or

Section 4. Effective July 1, 2022, paragraph (a) of subsection (5) of section 97.053, Florida Statutes, as amended by section 3 of this act, is amended to read:

2. The applicant's address of legal residence, including a distinguishing apartment, suite, lot, room, or dormitory room number or other identifier, if appropriate. Failure to include a distinguishing apartment, suite, lot, room, or dormitory room or other identifier on a voter registration application does not impact a voter's eligibility to register to vote or cast a ballot, and such an omission may not serve as the basis for a challenge to a voter's eligibility or reason to not count a ballot.
3. The applicant's date of birth.
4. A mark in the checkbox affirming that the applicant is a citizen of the United States.

5.a. The applicant's current and valid Florida driver license number or the identification number from a Florida identification card issued under s. 322.051, or

In case an applicant has not been issued a current and valid Florida driver license, Florida identification card, or social security number, the applicant shall affirm this fact in the manner prescribed in the uniform statewide voter registration application.

6. A mark in the checkbox affirming that the applicant has not been convicted of a felony or that, if convicted, has had his or her voting rights restored.

7. A mark in the checkbox affirming that the applicant has not been adjudicated mentally incapacitated with respect to voting or that, if so adjudicated, has had his or her right to vote restored.

8. The original signature, *an electronic image of a signature transmitted pursuant to s. 97.0525(4)(c)*, or a digital signature transmitted by the Department of Highway Safety and Motor Vehicles of the applicant swearing or affirming under the penalty for false swearing pursuant to s. 104.011 that the information contained in the registration application is true and subscribing to the oath required by s. 3, Art. VI of the State Constitution and s. 97.051.

Section 1. Subsection (4) is added to section 766.303, Florida Statutes, to read:

766.303 Florida Birth-Related Neurological Injury Compensation Plan; exclusiveness of remedy.—

Section 2. Subsection (5) of section 766.305, Florida Statutes, is amended to read:

766.305 Filing of claims and responses; medical disciplinary review.—

(5) Upon receipt of such petition, the Division of Medical Quality Assurance shall review the information therein and determine whether it involved conduct by a physician licensed under chapter 458 or an osteopathic physician licensed under chapter 459 ~~which that~~ is subject to disciplinary action. *If a physician is involved in more than one filed claim, the division also must review the circumstances of all such claims together to determine whether the physician's conduct establishes a pattern of practice subject to disciplinary action. Section 456.073 applies in such cases, in which case the provisions of s. 456.073 shall apply.*

Section 3. Present subsection (3) of section 766.31, Florida Statutes, is redesignated as subsection (4), a new subsection (3) is added to that section, and subsections (1) and (2) are amended, to read:

766.31 Administrative law judge awards for birth-related neurological injuries; notice of award.—

(a) Actual expenses for medically necessary and reasonable medical and hospital, rehabilitative and training, family residential or custodial care, professional residential, and custodial care and service, for medically necessary drugs, special equipment, and facilities, and for related travel. *At a minimum, compensation must be provided for the following actual expenses:*

1. *Diapers and baby formula for the child from the time of birth and pureed baby food or other baby food for the child at the appropriate age or developmental stage.*

2. *A total annual benefit of up to \$10,000 for immediate family members who reside with the infant for psychotherapeutic services obtained from providers licensed under chapter 490 or chapter 491.*

3. *Transportation-related assistance, including, but not limited to, the following:*

b. *For the life of the child, providing parents or legal guardians with a reliable method of transportation for the care of the child or reimbursing the cost of upgrading an existing vehicle to accommodate the child's needs when it becomes medically necessary for wheelchair transportation. The mode of transportation must take into account the special accommodations required for the specific child. The plan may not limit such transportation assistance based on the child's age or weight. The plan must replace any vans purchased by the plan every 7 years or 150,000 miles, whichever comes first.*

4. *Housing assistance of up to \$100,000 for the lifetime of the child, including home construction and modification costs.*

(b) ~~However, the following expenses are not subject to compensation such expenses shall not include:~~

1. Expenses for items or services that the infant has received, or is entitled to receive, under the laws of any state or the Federal Government, except to the extent such exclusion may be prohibited by federal law.

2. Expenses for items or services that the infant has received, or is contractually entitled to receive, from any prepaid health plan, health maintenance organization, or other private insuring entity.

3. Expenses for which the infant has received reimbursement, or for which the infant is entitled to receive reimbursement, under the laws of any state or the Federal Government, except to the extent such exclusion may be prohibited by federal law.

4. Expenses for which the infant has received reimbursement, or for which the infant is contractually entitled to receive reimbursement, pursuant to the provisions of any health or sickness insurance policy or other private insurance program.

(c) Expenses included under this paragraph (a) may not exceed usual and customary ~~shall be limited to reasonable~~ charges prevailing in the same community for similar treatment of injured persons when such treatment is paid for by the injured person.

(d) ~~1.a. (b) 1.~~ Periodic payments of an award to the parents or legal guardians of the infant found to have sustained a birth-related neurological injury, which award may ~~shall~~ not exceed \$100,000. However, at the discretion of the administrative law judge, such award may be made in a lump sum. *Beginning on January 1, 2021, the award may not exceed \$250,000, and each January 1 thereafter the maximum award authorized under this paragraph shall increase by 3 percent.*

b. *Parents or legal guardians who received an award pursuant to this section before January 1, 2021, and whose child currently receives benefits under the plan must receive a retroactive payment in an amount sufficient to bring the total award paid to the parents or legal guardians pursuant to sub-subparagraph a. to \$250,000. This additional payment may be made in a lump sum or in periodic payments as designated by the parents or legal guardians.*

2. *Death benefit for the infant in an amount of \$50,000. Parents or legal guardians who received an award pursuant to this section, and whose child died since the inception of the program, must receive a retroactive payment in an amount sufficient to bring the total award paid to the parents or legal guardians pursuant to this subparagraph to \$50,000. This additional payment may be made in a lump sum or in periodic payments as designated by the parents or legal guardians \$10,000.*

(e) ~~(e)~~ Reasonable expenses incurred in connection with the filing of a claim under ss. 766.301-766.316, including reasonable ~~attorney attorney's~~ fees, which ~~are shall be~~ subject to the approval and award of the administrative law judge. In determining an award for ~~attorney attorney's~~ fees, the administrative law judge shall consider the following factors:

1. The time and labor required, the novelty and difficulty of the questions involved, and the skill requisite to perform the legal services properly.

2. The fee customarily charged in the locality for similar legal services.

3. The time limitations imposed by the claimant or the circumstances.

4. The nature and length of the professional relationship with the claimant.

5. The experience, reputation, and ability of the lawyer or lawyers performing services.

6. The contingency or certainty of a fee.

Should there be a final determination of compensability, and the claimants accept an award under this section, the claimants ~~are shall not be~~ liable for any expenses, including ~~attorney attorney's~~ fees, incurred in connection with the filing of a claim under ss. 766.301-766.316 other than those expenses awarded under this section.

(2) The award shall require the immediate payment of expenses previously incurred and shall require that future expenses be paid as incurred.

(3)(a) *To request reimbursement from the plan for actual expenses, the parents or legal guardians of a child under the plan must submit a letter of medical necessity to the plan from the child's physician, who must be licensed under chapter 458 or chapter 459 or, if the child resides in another state, must be licensed under the laws of that state, or from another licensed treating health care practitioner as defined in s. 456.001 requesting reimbursement of the medically necessary services, drugs, equipment, or treatment. Within 20 days after the receipt of a request for reimbursement of expenses, the plan must reimburse the expenses or notify the parents or legal guardians and the ombudsman appointed pursuant to s. 766.315(4)(i)1. that specific additional information or documentation is needed to evaluate the request or that the request for payment of the expenses is being denied. Before denying the request, the plan must consult with the ombudsman concerning the request and any relevant information concerning the child's unique needs. The plan must provide the ombudsman with a detailed written explanation for the proposed denial. If the plan denies the request because it determines that the services or treatment were not medically necessary, the plan must request the parents or legal guardians to provide a letter of medical necessity from a second licensed physician or health care provider who is not affiliated with or does not have an investment interest, as described in s. 456.053, with the first physician or health care provider who provided the medical necessity letter. If such letter is provided, the plan must reimburse the parents or legal guardians for the actual expenses, including the expenses associated with obtaining the second medical necessity letter from a physician or other health care practitioner. If the parents or legal guardians are unable to provide a second letter, the plan is not required to reimburse the expenses.*

(b) *Parents or legal guardians, or their designee, must submit any additional information or documentation requested by the plan within 35 days after receipt of the notification by the plan that additional information or documentation is needed. Additional information is considered submitted on the date it is mailed or electronically submitted to the plan.*

(c) *A request for reimbursement of expenses must be paid or denied within 90 days after receipt of the request. A denial of reimbursement by the plan must be accompanied by a detailed written explanation of why the request was denied. Failure to pay or deny the request for reimbursement within 120 days after receipt of the request creates an uncontestable obligation to reimburse the expenses.*

Section 4. Section 766.313, Florida Statutes, is amended to read:

766.313 *Limitation on claim.—Any claim for compensation under ss. 766.301-766.316 which ~~that~~ is filed more than 8 5 years after the birth of an infant alleged to have a birth-related neurological injury is ~~shall be~~ barred.*

4. ~~(d)~~ Equivalency of standards;
5. ~~(e)~~ Changes to or inconsistencies with federal or state law; or
6. ~~(f)~~ Adoption of an updated edition of the National Electrical Code if the commission finds that delay of implementing the updated edition causes undue hardship to stakeholders or otherwise threatens the public health, safety, and welfare.

(b) The commission may issue errata to the code pursuant to the rule adoption procedures in chapter 120 to list demonstrated errors in provisions contained within the Florida Building Code. The determination of such errors and the issuance of errata to the code must be approved by a 75 percent supermajority vote of the commission. For purposes of this paragraph, “errata to the code” means a list of errors on current and previous editions of the Florida Building Code.

Section 2. Present subsections (3) through (8) of section 514.0115, Florida Statutes, are redesignated as subsections (4) through (9), respectively, and a new subsection (3) is added to that section, to read:

(1) As used in this section, the term:

(a) “Applicable codes” means the Florida Building Code and any local technical amendments to the Florida Building Code but does not include the applicable minimum fire prevention and firesafety codes adopted pursuant to chapter 633.

(b) “Audit” means the process to confirm that the building code inspection services have been performed by the private provider, including ensuring that the required affidavit for the plan review has been properly completed and ~~submitted with affixed to~~ the permit documents and that the minimum mandatory inspections required under the building code have been performed and properly recorded. The local building official may not replicate the plan review or inspection being performed by the private provider, unless expressly authorized by this section.

(d) “Building code inspection services” means those services described in s. 468.603(5) and (8) involving the review of building plans as well as those services involving the review of site plans and site work engineering plans or their functional equivalent, to determine compliance with applicable codes and those inspections required by law, *conducted either in person or virtually*, of each phase of construction for which permitting by a local enforcement agency is required to determine compliance with applicable codes.

All notices provided for in this section may be transmitted electronically and shall have the same legal effect as if physically posted or mailed.

(j)(4) “Immediate threat to public safety and welfare” means a building code violation that, if allowed to persist, constitutes an immediate hazard that could result in death, serious bodily injury, or significant property damage. This paragraph does not limit the authority of the local building official to issue a Notice of Corrective Action at any time during the construction of a building project or any portion of such project if the official determines that a condition of the building or portion thereof may constitute a hazard when the building is put into use following completion as long as the condition cited is shown to be in violation of the building code or approved plans.

(k)(g) “Local building official” means the individual within the governing jurisdiction responsible for direct regulatory administration or supervision of plans review, enforcement, and inspection of any construction, erection, alteration, demolition, or substantial improvement of, or addition to, any structure for which permitting is required to indicate compliance with applicable codes and includes any duly authorized designee of such person.

(l)(4) “Permit application” means a properly completed and submitted application for the requested building or construction permit, including:

(2)

(b) *If an owner or contractor retains a private provider for purposes of plans review or building inspection services, the local jurisdiction must reduce the permit fee by the amount of cost savings realized by the local enforcement agency for not having to perform such services. Such reduction may be calculated on a flat fee or percentage basis, or any other reasonable means by which a local enforcement agency assesses the cost for its plans review or inspection services. It is the intent of the Legislature that owners and contractors pay reduced fees related to building permitting requirements when hiring a private provider for plans review and building inspections. A local jurisdiction must calculate the cost savings to the local enforcement agency, based on a fee owner or contractor hiring a private provider to perform plans reviews and building inspections in lieu of the local building official, and reduce the permit fees accordingly. The local jurisdiction may not charge fees for building inspections if the fee owner or contractor hires a private provider to perform such services; however, the local jurisdiction may charge a reasonable administrative fee.*

(3) A private provider and any duly authorized representative may only perform building code inspection services that are within the disciplines covered by that person’s licensure or certification under chapter 468, chapter 471, or chapter 481, including single-trade inspections. A private provider may not provide building code inspection services pursuant to this section upon any building designed or constructed by the private provider or the private provider’s firm.

(4) A fee owner or the fee owner’s contractor using a private provider to provide building code inspection services shall notify the local building official *in writing* at the time of permit application, or by 2 p.m. local time, 2 business days before the first scheduled inspection by the local building official or building code enforcement agency *that for a private provider has been contracted to perform the performing* required inspections of construction under this section, including single-trade inspections, on a form to be adopted by the commission. This notice shall include the following information:

(a) The services to be performed by the private provider.

(b) The name, firm, address, telephone number, and ~~facsimile number~~ *e-mail address* of each private provider who is performing or will perform such services, his or her professional license or certification number, qualification statements or resumes, and, if required by the local building official, a certificate of insurance demonstrating that professional liability insurance coverage is in place for the private provider’s firm, the private provider, and any duly authorized representative in the amounts required by this section.

*However, the notice is not required to include such information for private providers who are qualified private providers within the local jurisdiction and have renewed such designation pursuant to this section.*

(c) An acknowledgment from the fee owner in substantially the following form:

I have elected to use one or more private providers to provide building code plans review and/or inspection services on the building or structure that is the subject of the enclosed permit application, as authorized by s. 553.791, Florida Statutes. I understand that the local building official may not review the plans submitted or perform the required building inspections to determine compliance with the applicable codes, except to the extent specified in said law. Instead, plans review and/or required building inspections will be performed by licensed or certified personnel identified in the application. The law requires minimum insurance requirements for such personnel, but I understand that I may require more insurance to protect my interests. By executing this form, I acknowledge that I have made inquiry regarding the competence of the licensed or certified personnel and the level of their insurance and am satisfied that my interests are adequately protected. I agree to indemnify, defend, and hold harmless the local government, the local building official, and their building code enforcement personnel from any and all claims arising from my use of these licensed or certified personnel to perform building code inspection services with respect to the building or structure that is the subject of the enclosed permit application.

If the fee owner or the fee owner's contractor makes any changes to the listed private providers or the services to be provided by those private providers, the fee owner or the fee owner's contractor shall, within 1 business day after any change or *within 2 business days before the next scheduled inspection*, update the notice to reflect such changes. A change of a duly authorized representative named in the permit application does not require a revision of the permit, and the building code enforcement agency shall not charge a fee for making the change. ~~In addition, the fee owner or the fee owner's contractor shall post at the project site, before the commencement of construction and updated within 1 business day after any change, on a form to be adopted by the commission, the name, firm, address, telephone number, and facsimile number of each private provider who is performing or will perform building code inspection services, the type of service being performed, and similar information for the primary contact of the private provider on the project.~~

(6) A private provider performing plans review under this section shall review the plans to determine compliance with the applicable codes. Upon determining that the plans reviewed comply with the applicable codes, the private provider shall prepare an affidavit or affidavits ~~on a form reasonably acceptable to the commission~~ certifying, under oath, that the following is true and correct to the best of the private provider's knowledge and belief:

(a) The plans were reviewed by the affiant, who is duly authorized to perform plans review pursuant to this section and holds the appropriate license or certificate.

(b) The plans comply with the applicable codes.

*Such affidavit may bear a written or electronic signature and may be submitted electronically to the local building official.*

(7)

(b) If the local building official provides a written notice of plan deficiencies to the permit applicant within the prescribed 20-day period, the 20-day period shall be tolled pending resolution of the matter. To resolve the plan deficiencies, the permit applicant may elect to dispute the deficiencies pursuant to subsection (14) ~~(13)~~ or to submit revisions to correct the deficiencies.

(d) If the local building official provides a second written notice of plan deficiencies to the permit applicant within the prescribed time period, the permit applicant may elect to dispute the deficiencies pursuant to subsection (14) ~~(13)~~ or to submit additional revisions to correct the deficiencies. For all revisions submitted after the first revision, the local building official has an additional 5 business days from the date of resubmittal to issue the requested permit or to provide a written notice to the permit applicant stating which of the previously identified plan features remain in noncompliance with the applicable codes, with specific reference to the relevant code chapters and sections.

(8) A private provider performing required inspections under this section shall inspect each phase of construction as required by the applicable codes. *Such inspection may be performed in-person or virtually.* The private provider ~~may have shall be permitted to send~~ a duly authorized representative ~~to the building site to~~ perform the required inspections, provided all required reports are prepared by and bear the *written or electronic* signature of the private provider or the private provider's duly authorized representative. The duly authorized representative must be an employee of the private provider entitled to receive reemployment assistance benefits under chapter 443. The contractor's contractual or legal obligations are not relieved by any action of the private provider.

(9) A private provider performing required inspections under this section shall provide notice to the local building official of the date and approximate time of any such inspection no later than the prior business day by 2 p.m. local time or by any later time permitted by the local building official in that jurisdiction. The local building official may not prohibit the private provider from performing any inspection outside the local building official's normal operating hours, including after hours, weekends, or holidays. The local building official may visit the building site as often as necessary to verify that the private provider is performing all required inspections. A deficiency notice must be posted ~~at the job site~~ by the private provider, the duly authorized representative of the private provider, or the building department whenever a noncomplying item related to the building code or the permitted documents is found. *Such notice may be physically posted at the job site or electronically posted.* After corrections are made, the item must be re-inspected by the private provider or representative before being concealed. Reinspection or reaudit fees shall not be charged by the local jurisdiction as a result of the local jurisdiction's audit inspection occurring before the performance of the private provider's inspection or for any other administrative matter not involving the detection of a violation of the building code or a permit requirement.

(10) *If equipment replacements and repairs must be performed in an emergency situation, subject to the emergency permitting provisions of the Florida Building Code, a private provider may perform emergency inspection services without first notifying the local building official pursuant to subsection (9). A private provider must conduct the inspection within 3 business days after being contacted to conduct an emergency inspection and must submit the inspection report to the local building official within 1 day after the inspection is completed.*

~~(11)(10)~~ Upon completing the required inspections at each applicable phase of construction, the private provider shall record such inspections on a form acceptable to the local building official. The form must bear the *written or electronic signature of* ~~be signed by~~ the provider or the provider's duly authorized representative. These inspection records shall reflect those inspections required by the applicable codes of each phase of construction for which permitting by a local enforcement agency is required. The private provider, *upon completion of the required inspection before leaving the project site*, shall post each completed inspection record, indicating pass or fail, ~~at the site~~ and provide the record to the local building official within 2 business days. *Such inspection record may be electronically posted by the private provider or the private provider may post such inspection record physically at the project site. The private provider may electronically transmit the record to the local building official.* The local building official may waive the requirement to provide a record of each inspection within 2 business days if the record is *electronically posted* or posted at the project site and all such inspection records are submitted with the certificate of compliance. *Unless the records have been electronically posted*, records of all required and completed inspections shall be maintained at the building site at all times and made available for review by the local building official. The private provider shall report to the local enforcement agency any condition that poses an immediate threat to public safety and welfare.

~~(12)(11)~~ Upon completion of all required inspections, the private provider shall prepare a certificate of compliance, on a form acceptable to the local building official, summarizing the inspections performed and including a written representation, under oath, that the stated inspections have been performed and that, to the best of the private provider's knowledge and belief, the building construction inspected complies with the approved plans and applicable codes. The statement required of the private provider shall be substantially in the following form and shall be signed and sealed by a private provider as established

in subsection (1) *or may be electronically transmitted to the local building official:*

To the best of my knowledge and belief, the building components and site improvements outlined herein and inspected under my authority have been completed in conformance with the approved plans and the applicable codes.

(13)(12) No more than 2 business days after receipt of a request for a certificate of occupancy or certificate of completion and the applicant's presentation of a certificate of compliance and approval of all other government approvals required by law, the local building official shall issue the certificate of occupancy or certificate of completion or provide a notice to the applicant identifying the specific deficiencies, as well as the specific code chapters and sections. If the local building official does not provide notice of the deficiencies within the prescribed 2-day period, the request for a certificate of occupancy or certificate of completion shall be deemed granted and the certificate of occupancy or certificate of completion shall be issued by the local building official on the next business day. To resolve any identified deficiencies, the applicant may elect to dispute the deficiencies pursuant to subsection (14) (13) or to submit a corrected request for a certificate of occupancy or certificate of completion.

(15)(14) For the purposes of this section, any notice to be provided by the local building official shall be deemed to be provided to the person or entity when successfully transmitted to the *e-mail address facsimile number* listed for that person or entity in the permit application or revised permit application, or, if no *e-mail address facsimile number* is stated, when actually received by that person or entity.

(16)(a)(15)(a) A local enforcement agency, local building official, or local government may not adopt or enforce any laws, rules, procedures, policies, qualifications, or standards more stringent than those prescribed by this section.

(b) A local enforcement agency, local building official, or local government may establish, for private providers and duly authorized representatives working within that jurisdiction, a system of registration to verify compliance with the licensure requirements of paragraph (1)(n) (1)(j) and the insurance requirements of subsection (17) (16).

(c) This section does not limit the authority of the local building official to issue a stop-work order for a building project or any portion of the project, as provided by law, if the official determines that a condition on the building site constitutes an immediate threat to public safety and welfare.

(21) *Notwithstanding any other law, a county, a municipality, a school district, or an independent special district may use a private provider to provide building code inspection services for a public works project, an improvement, a building, or any other structure that is owned by the county, municipality, school district, or independent special district.*

Section 6. Paragraph (a) of subsection (7) of section 553.80, Florida Statutes, is amended to read:

553.80 Enforcement.—

(7)(a) The governing bodies of local governments may provide a schedule of reasonable fees, as authorized by s. 125.56(2) or s. 166.222 and this section, for enforcing this part. These fees, and any fines or investment earnings related to the fees, shall be used solely for carrying out the local government's responsibilities in enforcing the Florida Building Code. When providing a schedule of reasonable fees, the total estimated annual revenue derived from fees, and the fines and investment earnings related to the fees, may not exceed the total estimated annual costs of allowable activities. Any unexpended balances shall be carried forward to future years for allowable activities or shall be refunded at the discretion of the local government. A local government may not carry forward an amount exceeding the average of its operating budget for enforcing the Florida Building Code for the previous 4 fiscal years. For purposes of this subsection, the term "operating budget" does not include reserve amounts. Any amount exceeding this limit must be used as authorized in subparagraph 2. However, a local government which established, as of January 1, 2019, a Building Inspections Fund Advisory Board consisting of five members from the construction

stakeholder community and carries an unexpended balance in excess of the average of its operating budget for the previous 4 fiscal years may continue to carry such excess funds forward upon the recommendation of the advisory board. The basis for a fee structure for allowable activities shall relate to the level of service provided by the local government and shall include consideration for refunding fees due to reduced services based on services provided as prescribed by s. 553.791, but not provided by the local government. Fees charged shall be consistently applied.

1. As used in this subsection, the phrase "enforcing the Florida Building Code" includes the direct costs and reasonable indirect costs associated with review of building plans, building inspections, re-inspections, and building permit processing; building code enforcement; and fire inspections associated with new construction. The phrase may also include training costs associated with the enforcement of the Florida Building Code and enforcement action pertaining to unlicensed contractor activity to the extent not funded by other user fees.

2. A local government must use any excess funds that it is prohibited from carrying forward to rebate and reduce fees, *or to pay for the construction of a building or structure that houses a local government's building code enforcement agency or the training programs for building officials, inspectors, or plans examiners associated with the enforcement of the Florida Building Code. Excess funds used to construct such a building or structure must be designated for such purpose by the local government and may not be carried forward for more than 4 consecutive years.*

3. The following activities may not be funded with fees adopted for enforcing the Florida Building Code:

- Planning and zoning or other general government activities.
- Inspections of public buildings for a reduced fee or no fee.
- Public information requests, community functions, boards, and any program not directly related to enforcement of the Florida Building Code.
- Enforcement and implementation of any other local ordinance, excluding validly adopted local amendments to the Florida Building Code and excluding any local ordinance directly related to enforcing the Florida Building Code as defined in subparagraph 1.

4. A local government shall use recognized management, accounting, and oversight practices to ensure that fees, fines, and investment earnings generated under this subsection are maintained and allocated or used solely for the purposes described in subparagraph 1.

5. The local enforcement agency, independent district, or special district may not require at any time, including at the time of application for a permit, the payment of any additional fees, charges, or expenses associated with:

- Providing proof of licensure pursuant to chapter 489;
- Recording or filing a license issued pursuant to this chapter;
- Providing, recording, or filing evidence of workers' compensation insurance coverage as required by chapter 440; or
- Charging surcharges or other similar fees not directly related to enforcing the Florida Building Code.

Section 7. Paragraph (a) of subsection (8) and subsection (14) of section 553.842, Florida Statutes, are amended to read:

553.842 Product evaluation and approval.—

(8) The commission may adopt rules to approve the following types of entities that produce information on which product approvals are based. All of the following entities, including engineers and architects, must comply with a nationally recognized standard demonstrating independence or no conflict of interest:

(a) Evaluation entities approved *under pursuant to* this paragraph *or that meet the criteria for approval adopted by the commission by rule.* The commission shall specifically approve the National Evaluation

Service, the International Association of Plumbing and Mechanical Officials Evaluation Service, the International Code Council Evaluation Services, Underwriters Laboratories, LLC, Intertek Testing Services NA, Inc., and the Miami-Dade County Building Code Compliance Office Product Control Division. Architects and engineers licensed in this state are also approved to conduct product evaluations as provided in subsection (5).

(14) The commission shall by rule establish criteria for revocation of product approvals as well as ~~suspension~~ ~~revocation~~ of approvals of product evaluation entities, including those approved in accordance with paragraph (8)(a), and suspension or revocation of approvals of testing laboratories, quality assurance entities, certification agencies, and validation entities. *Suspension and revocation is governed by s. 120.60 and the uniform rules of procedure.*

Section 8. Paragraph (bb) of subsection (1) of section 125.01, Florida Statutes, is amended to read:

125.01 Powers and duties.—

(1) The legislative and governing body of a county shall have the power to carry on county government. To the extent not inconsistent with general or special law, this power includes, but is not restricted to, the power to:

(bb) Enforce the Florida Building Code, as provided in s. 553.80; and adopt and enforce local technical amendments to the Florida Building Code as provided in s. 553.73(4), ~~pursuant to s. 553.73(4)(b) and (c).~~

Section 9. Subsection (1) of section 125.56, Florida Statutes, is amended to read:

125.56 Enforcement and amendment of the Florida Building Code and the Florida Fire Prevention Code; inspection fees; inspectors; etc.—

(1) The board of county commissioners of each of the several counties of the state may enforce the Florida Building Code and the Florida Fire Prevention Code, as provided in ss. 553.80, 633.206, and 633.208; and, at its discretion, adopt local technical amendments to the Florida Building Code as provided in s. 553.73(4), ~~pursuant to s. 553.73(4)(b) and (c)~~ and local technical amendments to the Florida Fire Prevention Code as provided in, ~~pursuant to~~ s. 633.202; to provide for the safe construction, erection, alteration, repair, securing, and demolition of any building within its territory outside the corporate limits of any municipality. Upon a determination to consider amending the Florida Building Code or the Florida Fire Prevention Code by a majority of the members of the board of county commissioners of such county, the board shall call a public hearing and comply with the public notice requirements of s. 125.66(2). The board shall hear all interested parties at the public hearing and may then amend the building code or the fire code consistent with the terms and purposes of this act. Upon adoption, an amendment to the code shall be in full force and effect throughout the unincorporated area of such county until otherwise notified by the Florida Building Commission ~~under~~ ~~pursuant to~~ s. 553.73 or the State Fire Marshal ~~under~~ ~~pursuant to~~ s. 633.202. ~~This subsection does not~~ ~~Nothing herein contained shall be construed to~~ prevent the board of county commissioners from repealing such amendment to the building code or the fire code at any regular meeting of such board.

Section 10. Effective December 1, 2021, subsection (8) is added to section 381.0065, Florida Statutes, to read:

381.0065 Onsite sewage treatment and disposal systems; regulation.—

(8) PRIVATE PROVIDER INSPECTION SERVICES.—

(a) *Notwithstanding any other law, ordinance, or policy, the fee owner of an onsite sewage treatment and disposal system, or the fee owner's contractor upon written authorization from the fee owner, may select a private provider to provide inspection services for onsite sewage treatment and disposal systems and may pay the private provider directly for such services if such services are the subject of a written contract between the private provider, or the private provider's firm, and the fee owner or the fee owner's contractor, upon written authorization of the fee owner.*

(b) *The department may not charge inspection fees for any inspection performed by a private provider hired by the fee owner or fee owner's contractor.*

(c) *In addition to authorized and certified inspectors, onsite sewage treatment and disposal system inspection services may be performed by a private provider or a duly authorized representative of a private provider within the disciplines covered under such person's licensure or if the person is certified under s. 381.0101, is a master septic contractor licensed under chapter 489, is a professional engineer who has passed all three parts of the OSTDS Accelerated Certification Training, or is a person working as staff under the supervision of a master septic tank contractor or a licensed professional engineer and has passed all three parts of the OSTDS Accelerated Certification Training.*

(d)1. *A fee owner or the fee owner's contractor using a private provider for onsite sewage treatment and disposal system inspection services must provide notice to the department at the time of permit application, or by 2 p.m. local time, 2 business days before the first scheduled inspection by the department. The notice must include the following information:*

a. *The name, firm, address, telephone number, and e-mail address of each private provider who is performing or will perform such services, the private provider's professional license or certification number, and qualification statements or resumes for each private provider; and*

b. *An acknowledgment from the fee owner in substantially the following form:*

*I have elected to use one or more private providers to provide onsite sewage treatment and disposal system inspection services that are the subject of the enclosed permit application. I understand that the department may not perform the required onsite sewage treatment and disposal system inspections to determine compliance with the applicable codes, except to the extent authorized by law. Instead, inspections will be performed by the licensed or certified personnel identified in the application. By executing this form, I acknowledge that I have made inquiry regarding the competence of the licensed or certified personnel and am satisfied that my interests are adequately protected. I agree to indemnify, defend, and hold harmless the department from any and all claims arising from my use of these licensed or certified personnel to perform onsite sewage treatment and disposal system inspections with respect to the onsite sewage treatment and disposal system that are the subject of the enclosed permit application. Additionally, I understand that in the event that the onsite sewage treatment and disposal system does not comply with the applicable rules and laws, I will be responsible for remediating the system in accordance with existing law.*

2. *If the fee owner or the fee owner's contractor makes any changes to the listed private providers or the services to be provided by the private providers, the fee owner or the fee owner's contractor must update the notice in writing to reflect the change within 1 business day after the change. A change of a duly authorized representative named in the permit application does not require a revision of the permit, and the department may not charge a fee for making such change.*

(e) *The department may audit the performance of onsite sewage treatment and disposal system inspection services by private providers. However, the same private provider may not be audited more than four times in a month unless the department determines that an onsite sewage treatment and disposal system inspected by the private provider should not have passed inspection. Work on a building, a structure, or an onsite sewage treatment and disposal system may proceed after inspection and approval by a private provider if the fee owner or fee owner's contractor has given notice of the inspection pursuant to subsection (4) and, subsequent to such inspection and approval, may not be delayed for completion of an inspection audit by the department unless the department immediately notifies the fee owner or fee owner's contractor that the department is proceeding with enforcement activity against the private provider.*

Section 11. *The Department of Health shall initiate rulemaking to implement the amendments made by this act to s. 381.0065, Florida Statutes, by August 1, 2021.*

—a companion measure, was substituted for **CS for CS for SB 954** and read the second time by title.

Senator Bean moved the following amendment which was adopted:

**Amendment 1 (767926)**—Delete lines 62-219 and insert:

5. *The personal representative shall be entitled to a summary of ordinary and extraordinary services rendered for the fees agreed upon at the conclusion of the representation. The summary shall be provided by counsel and shall consist of the total hours devoted to the representation or a detailed summary of the services performed during the representation.*

(c) *The attorney shall obtain the personal representative's timely signature acknowledging the disclosures.*

(d) *If the attorney does not make the disclosures required by this section, the attorney may not be paid for legal services without prior approval of the fees or the written consent of all interested parties.*

(3) *Subject to subsection (2), compensation for ordinary services of attorneys in a formal estate administration is presumed to be reasonable if based on the compensable value of the estate, which is the inventory value of the probate estate assets and the income earned by the estate during the administration as provided in the following schedule:*

(a) One thousand five hundred dollars for estates having a value of \$40,000 or less.

(b) An additional \$750 for estates having a value of more than \$40,000 and not exceeding \$70,000.

(c) An additional \$750 for estates having a value of more than \$70,000 and not exceeding \$100,000.

(d) For estates having a value in excess of \$100,000, at the rate of 3 percent on the next \$900,000.

(e) At the rate of 2.5 percent for all above \$1 million and not exceeding \$3 million.

(f) At the rate of 2 percent for all above \$3 million and not exceeding \$5 million.

(g) At the rate of 1.5 percent for all above \$5 million and not exceeding \$10 million.

(h) At the rate of 1 percent for all above \$10 million.

(4) *Subject to subsection (2), in addition to fees for ordinary services, the attorney for the personal representative shall be allowed further reasonable compensation for any extraordinary service. What is an extraordinary service may vary depending on many factors, including the size and complexity of the estate. Extraordinary services may include, but are not limited to:*

(a) Involvement in a will contest, will construction, a proceeding for determination of beneficiaries, a contested claim, elective share proceeding, apportionment of estate taxes, or any adversarial proceeding or litigation by or against the estate.

(b) Representation of the personal representative in audit or any proceeding for adjustment, determination, or collection of any taxes.

(c) Tax advice on postmortem tax planning, including, but not limited to, disclaimer, renunciation of fiduciary commission, alternate valuation date, allocation of administrative expenses between tax returns, the QTIP or reverse QTIP election, allocation of GST exemption, qualification for Internal Revenue Code ss. 6166 and 303 privileges, deduction of last illness expenses, fiscal year planning, distribution planning, asset basis considerations, handling income or deductions in respect of a decedent, valuation discounts, special use and other valuation, handling employee benefit or retirement proceeds, prompt assessment request, or request for release of personal liability for payment of tax.

(d) Review of estate tax return and preparation or review of other tax returns required to be filed by the personal representative.

(e) Preparation of the estate's federal estate tax return. If this return is prepared by the attorney, a fee of one-half of 1 percent up to a value of \$10 million and one-fourth of 1 percent on the value in excess of \$10 million of the gross estate as finally determined for federal estate

tax purposes, is presumed to be reasonable compensation for the attorney for this service. These fees shall include services for routine audit of the return, not beyond the examining agent level, if required.

(f) Purchase, sale, lease, or encumbrance of real property by the personal representative or involvement in zoning, land use, environmental, or other similar matters.

(g) Legal advice regarding carrying on of the decedent's business or conducting other commercial activity by the personal representative.

(h) Legal advice regarding claims for damage to the environment or related procedures.

(i) Legal advice regarding homestead status of real property or proceedings involving that status and services related to protected homestead.

(j) Involvement in fiduciary, employee, or attorney compensation disputes.

(k) Proceedings involving ancillary administration of assets not subject to administration in this state.

(5) Upon petition of any interested person, the court may increase or decrease the compensation for ordinary services of the attorney or award compensation for extraordinary services if the facts and circumstances of the particular administration warrant. In determining reasonable compensation, the court shall consider all of the following factors, giving weight to each as it determines to be appropriate:

(a) The promptness, efficiency, and skill with which the administration was handled by the attorney.

(b) The responsibilities assumed by and the potential liabilities of the attorney.

(c) The nature and value of the assets that are affected by the decedent's death.

(d) The benefits or detriments resulting to the estate or interested persons from the attorney's services.

(e) The complexity or simplicity of the administration and the novelty of issues presented.

(f) The attorney's participation in tax planning for the estate and the estate's beneficiaries and tax return preparation, review, or approval.

(g) The nature of the probate, nonprobate, and exempt assets, the expenses of administration, the liabilities of the decedent, and the compensation paid to other professionals and fiduciaries.

(h) Any delay in payment of the compensation after the services were furnished.

(i) *Any agreement relating to the attorney's compensation and whether written disclosures were made to the personal representative in a timely manner under the circumstances pursuant to subsection (2).*

(j) Any other relevant factors.

(6) If a separate written agreement regarding compensation exists between the attorney and the decedent, the attorney shall furnish a copy to the personal representative prior to commencement of employment, and, if employed, shall promptly file and serve a copy on all interested persons. ~~Neither~~ A separate agreement ~~or~~ ~~nor~~ a provision in the will suggesting or directing that the personal representative retain a specific attorney ~~does not will~~ obligate the personal representative to employ the attorney or obligate the attorney to accept the representation, but if the attorney who is a party to the agreement or who drafted the will is employed, the compensation paid shall not exceed the compensation provided in the agreement or in the will.

Section 2. Present paragraph (i) of subsection (6) of section 736.1007, Florida Statutes, is redesignated as paragraph (j), a new paragraph (i) is added to that subsection, and subsections (1), (2), (3), and (5) of that section are amended, to read:

736.1007 Trustee's attorney fees.—

(1)(a) *Except as provided in paragraph (d), if the trustee of a revocable trust retains an attorney to render legal services in connection with the initial administration of the trust, the attorney is entitled to reasonable compensation for those legal services, payable from the assets of the trust, subject to s. 736.0802(10), without court order. The trustee and the attorney may agree to compensation that is determined in a manner or amount other than the manner or amount provided in this section. The agreement is not binding on a person who bears the impact of the compensation unless that person is a party to or otherwise consents to be bound by the agreement. The agreement may provide that the trustee is not individually liable for the attorney fees and costs.*

(b) *An attorney representing a trustee in the initial administration of the trust who intends to charge a fee based upon the schedule set forth in subsection (2) shall make the following disclosures in writing to the trustee:*

1. *There is not a mandatory statutory attorney fee for trust administration.*

2. *The attorney fee is not required to be based on the size of the trust, and the presumed reasonable fee provided in subsection (2) may not be appropriate in all trust administrations.*

3. *The fee is subject to negotiation between the trustee and the attorney.*

4. *The selection of the attorney is made at the discretion of the trustee, who is not required to select the attorney who prepared the trust.*

5. *The trustee shall be entitled to a summary of ordinary and extraordinary services rendered for the fees agreed upon at the conclusion of the representation. The summary shall be provided by counsel and shall consist of the total hours devoted to the representation or a detailed summary of the services performed during the representation.*
