PRAYER

The following prayer was offered by Bishop Tyrone D. Smith, Life Changing Faith Church, Quincy:

Father, in Jesus' name, we pray now unto you the only omnipotent, omniscient, and omnipresent God of all creation. We come before the throne of grace and mercy inviting you unto the affairs for which we are granted dominion over. Our requests are preceded by our repentance. Father, forgive us for our allowances of unrighteous acts. We confess that we have rewarded laziness and called it welfare. We have allowed the willful murder of the unborn and called it pro-choice. We have allowed the demoralization of various sects of society and called it independence. Father, we ask your forgiveness today.

We welcome your wise counsel as we stand before the many decisions and the uncertainty of times which we face. We acknowledge that our knowledge is limited, and we are assured that it will lead to error and produce distress. Yet your wisdom, knowledge, and understanding come with the assurance that will rebuke evils throughout our lands and reward right living. As this session begins, remind us by your holy spirit of our commitment and oath to uphold the creeds and decrees rendered by those having hearts to serve humanity for the greater good. Let us be reminded while in elected positions that promotion does not come from the north, south, east, or west; not from power PACs, special interest groups, or hedge fund holders; not from the downtrodden, the left out, or

from the looked over; but promotion and all spiritual blessings come from you. In this truth, we request that your presence will dwell among every serving member of the Senate throughout this session. Create in us clean hearts and renew right spirits. Let our hearts be filled with the concerns that prosper the lives of the citizens and communities. Propel us into affluent futures and create legacies that future generations will give you glory and praise for.

Lastly, dear Lord, we declare a blessing on the homes and families of those who stand amidst the solemn sound of my voice. May they be safe, healed, renewed, and prosperous as the result of the sacrifices being made by those who serve in every committee: from Appropriations to Transportation; from Judiciary to Commerce and Tourism; every cabinet member, executive aide, and all that contribute to this process of government. To the end of which we will be ever careful to give you all the honor, all the glory, and all the praise for the many blessings you have bestowed upon our earnest deeds. It is in the precious and powerful name of Jesus Christ, we pray. Amen.

PLEDGE

Senator Broxson led the Senate in the Pledge of Allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Felipe Gascon of Miami, sponsored by Senator Taddeo, as the doctor of the day. Dr. Gascon specializes in internal medicine.

—was read the third time by title.

Senator Albritton moved the following amendment which was adopted by two-thirds vote:

Amendment 1 (757712) (with title amendment)—Delete lines 81-299 and insert:

(5) “Communications services provider” means an entity providing communications services as defined in s. 202.11(1).

(6) “Pole” means a pole used for electric distribution service, streetlights, communications services, local exchange services, or cable television services which is owned in whole or in part by a pole owner. The term does not include a pole used solely to support wireless communications service facilities or a pole with no electrical facilities attached.

(7) “Pole attachment” means any attachment by a public utility, local exchange carrier communications services provider, broadband provider, or cable television operator to a pole, duct, conduit, or right-of-way owned or controlled by a pole owner.

(8) “Pole owner” means a local exchange carrier, a public utility, a communications services provider, or a cable television operator that owns a pole.

(9) “Redundant pole” means a pole owned or controlled by a pole owner which is:

(a) Near or adjacent to a new pole that is intended to replace the old pole from which some or all of the pole attachments have not been removed and transferred to the new pole;

(b) Left standing after the pole owner has relocated its facilities to underground but on which pole attachments of other attaching entities remain; or

(c) Left standing after a pole owner's attachments have been removed from that route or location to accommodate a new route or design for the delivery of service.

Section 3. Subsections (8) and (9) are added to section 366.04, Florida Statutes, to read:

366.04 Jurisdiction of commission.—

(8)(a) The commission shall regulate and enforce rates, charges, terms, and conditions of pole attachments, including the types of attachments regulated under 47 U.S.C. s. 224(a)(4), attachments to streetlight fixtures, attachments to poles owned by a public utility, or attachments to poles owned by a communications services provider, to ensure that such rates, charges, terms, and conditions are just and reasonable. The commission's authority under this subsection includes, but is not limited to, the state regulatory authority referenced in 47 U.S.C. s. 224(c).

(b) In the development of rules pursuant to paragraph (g), the commission shall consider the interests of the subscribers and users of the services offered through such pole attachments, as well as the interests of the consumers of any pole owner providing such attachments.

(c) It is the intent of the Legislature to encourage parties to enter into voluntary pole attachment agreements, and this subsection may not be construed to prevent parties from voluntarily entering into pole attachment agreements without commission approval.

(d) A party's right to nondiscriminatory access to a pole under this subsection is identical to the rights afforded under 47 U.S.C. s. 224(f)(1). A pole owner may deny access to its poles on a nondiscriminatory basis when there is insufficient capacity, for reasons of safety and reliability, and when required by generally applicable engineering purposes. A pole owner's evaluation of capacity, safety, reliability, and engineering requirements must consider relevant construction and reliability standards approved by the commission.

(e) The commission shall hear and resolve complaints concerning rates, charges, terms, conditions, voluntary agreements, or any denial of access relative to pole attachments. Federal Communications Commission precedent is not binding upon the commission in the exercise of its authority under this subsection. When taking action upon such complaints, the commission shall establish just and reasonable cost-based rates, terms, and conditions for pole attachments and shall apply the decisions and orders of the Federal Communications Commission and any appellate court decisions reviewing an order of the Federal Communications Commission regarding pole attachment rates, terms, or conditions in determining just and reasonable pole attachment rates, terms, and conditions unless a pole owner or attaching entity establishes by competent substantial evidence pursuant to proceedings conducted pursuant to ss. 120.569 and 120.57 that an alternative cost-based pole attachment rate is just and reasonable and in the public interest.

(f) In the administration and implementation of this subsection, the commission shall authorize any petitioning pole owner or attaching entity to participate as an intervenor with full party rights under chapter 120 in the first four formal administrative proceedings conducted to determine pole attachment rates under this section. These initial four proceedings are intended to provide commission precedent on the establishment of pole attachment rates by the commission and help guide negotiations toward voluntary pole attachment agreements. After the fourth such formal administrative proceeding is concluded by final order, parties to subsequent pole attachment rate proceedings are limited to the specific pole owner and pole attaching entities involved in and directly affected by the specific pole attachment rate.

(g) The commission shall propose procedural rules to administer and implement this subsection. The rules must be proposed for adoption no later than January 1, 2022, and, upon adoption of such rules, shall provide its certification to the Federal Communications Commission pursuant to 47 U.S.C. s. 224(c)(2).

(9)(a) The commission shall regulate the safety, vegetation management, repair, replacement, maintenance, relocation, emergency response, and storm restoration requirements for poles of communication services providers. This subsection does not apply to a communications services provider that owns no poles.

(b) The commission shall adopt rules to administer and implement this subsection. The rules must be proposed for adoption no later than April 1, 2022, and must address at least the following:

1. Mandatory pole inspections, including repair or replacement; vegetation management requirements for poles owned by providers of communications services; and

2. Monetary penalties to be imposed upon any communications services provider that fails to comply with any such rule of the commission. Monetary penalties imposed by the commission must be consistent with s. 366.095.

(c) The commission may access the books and records of communications services providers to the limited extent necessary to perform its functions and to exercise its authority under subsection (8), this subsection, and s. 366.97(4). Upon request by a communications services provider, any records that are received by the commission under this

paragraph which are proprietary confidential business information under s. 364.183 or s. 366.093 shall retain their status as confidential or exempt from disclosure under s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

Section 4. Section 366.97, Florida Statutes, is created to read:

366.97 Redundant poles; transfer of ownership.—

(1) Pole owners shall provide at least 180 calendar days' electronic or written advance notice to affected attaching entities of major hardening projects the purpose of which is to replace poles to ensure the poles meet extreme wind loading requirements. The advance hardening project notice must include:

(a) The scope of the major hardening project, to the extent determined, the locations of the affected poles, the expected start date, and the expected completion date of the major hardening project; and

(b) The date, time, and location of a field meeting for the pole owner and attaching entities to review and discuss the planned major hardening project details, including the types of replacement poles to be used. The field meeting must occur no sooner than 15 calendar days after the date of the notice and no later than 60 calendar days after the notice and, at a minimum, must include sufficient information to enable the attaching entity to locate the affected poles and identify the owner of any facilities attached to the poles.

(2)(a) An attaching entity must remove its pole attachments from a redundant pole within 180 calendar days after receipt of an electronic or a written notice from the pole owner requesting such removal. A pole owner may use a joint use notification software program to accomplish such written or electronic removal notice.

(b) If an attaching entity fails to remove a pole attachment pursuant to paragraph (a), except to the extent excused by an event of force majeure or other good cause as agreed to by the parties or as determined by the commission or its designee within 30 calendar days after the 180 calendar-day period under paragraph (a), the pole owner or its agent may transfer or relocate the pole attachment to the new pole at the non-compliant attaching entity's expense. This subsection does not apply to an electric utility's pole attachments. An attaching entity shall submit payment to the pole owner within 60 days after receipt of the pole owner's invoice for transfer or relocation of the pole attachments. A pole owner may seek to enforce its right to payment under this paragraph in circuit court and, if it prevails, is entitled to prejudgment interest at the prevailing statutory rate and reasonable attorney fees and court costs. Upon receipt by the pole owner of written notice, the attaching entity that fails to comply with this subsection shall indemnify, defend, and hold harmless the pole owner and its directors, officers, agents, and employees from and against all liability, except to the extent of any finding of negligence or willful misconduct, including attorney fees and litigation costs, arising in connection with the transfer of the pole attachment from a redundant pole to a new pole by the pole owner.

(c) If a pole attachment is abandoned by an attaching entity that fails to remove or transfer its attachments in accordance with this section, the pole owner or its agent may remove the pole attachment at the noncompliant attaching entity's expense and may sell or dispose of the pole attachment, except to the extent the attaching entity's non-compliance is excused by an event of force majeure or other good cause as determined by the commission. An attaching entity shall submit payment to the pole owner within 60 days after receipt of the pole owner's invoice. A pole owner may seek to enforce its right to payment under this paragraph in circuit court and, if it prevails, is entitled to prejudgment interest at the prevailing statutory rate and reasonable attorney fees and court costs. Upon receipt by the pole owner of written notice, the non-compliant attaching entity shall indemnify, defend, and hold harmless the pole owner and its directors, officers, agents, and employees from and against all liability, except to the extent of any finding of negligence or willful misconduct, including attorney fees and litigation costs, arising in connection with the removal, transfer, sale, or disposal of the pole attachments from a redundant pole by the pole owner.

(3) Upon petition by a pole owner or an attaching entity, the commission may issue orders enforcing this section which do not expressly relate to circuit court jurisdiction.

(4) This section may not be construed to do any of the following:

(a) Prevent a party at any time from entering into a voluntary agreement authorizing a pole owner to remove an attaching entity's pole attachment. It is the intent of the Legislature to encourage parties to enter into such voluntary agreements without commission approval.

(b) Impair the contract rights of a party to a valid pole attachment agreement in existence before the effective date of this act.

And the title is amended as follows:

Delete lines 17-62 and insert: to establish cost-based rates, charges, terms, and conditions for pole attachments and apply certain decisions and orders of the Federal Communications Commission; requiring the commission to authorize certain parties to participate as an intervenor in a specified number of administrative proceedings; requiring the commission to adopt rules by a specified date and provide certification to the Federal Communications Commission upon such adoption; requiring the commission to regulate the safety, vegetation management, repair, replacement, maintenance, relocation, emergency response, and storm restoration requirements for poles of communications services providers; providing an exception; requiring the commission to adopt rules, including monetary penalties, by a specified date; authorizing the commission to access the books and records of communications services providers for specified purposes; providing that such information that contains proprietary confidential business information retains its confidential or exempt status when held by the commission; creating s. 366.97, F.S.; requiring pole owners to give advance notice to affected attaching entities of hardening projects; requiring attaching entities to remove pole attachments from redundant poles within a specified timeframe after receipt of electronic or written notice from the pole owner; authorizing a pole owner or its agent to transfer or relocate pole attachments of an attaching entity at the entity's expense under certain circumstances; providing an exception; requiring attaching entities to submit payment within a specified timeframe; authorizing pole owners to seek enforcement of such payment; requiring that the pole owner and its directors, officers, agents, and employees be held harmless under certain circumstances for such actions; authorizing a pole owner to remove and sell or dispose of certain abandoned pole attachments; authorizing the commission to issue orders for the removal or transfer of pole attachments by noncompliant attaching entities upon petition by a pole owner; providing construction; providing a directive to the Division of Law

Section 2. Paragraph (d) is added to subsection (1) of section 553.79, Florida Statutes, to read:

553.79 Permits; applications; issuance; inspections.—

(1)

(d) *A local government may not require a contract between a builder and an owner for the issuance of a building permit or as a requirement for the submission of a building permit application.*

Section 3. Present subsections (10) through (19) of section 553.791, Florida Statutes, are redesignated as subsections (11) through (20), respectively, a new subsection (10) and subsection (21) are added to that section, and subsection (1), paragraph (b) of subsection (2), subsections (3), (4), and (6), paragraphs (b) and (d) of subsection (7), subsections (8) and (9), and present subsections (10), (11), (12), (14), and (15) are amended, to read:

553.791 Alternative plans review and inspection.—

(1) As used in this section, the term:

(a) “Applicable codes” means the Florida Building Code and any local technical amendments to the Florida Building Code but does not include the applicable minimum fire prevention and firesafety codes adopted pursuant to chapter 633.

(b) “Audit” means the process to confirm that the building code inspection services have been performed by the private provider, including ensuring that the required affidavit for the plan review has been properly completed and *submitted with affixed to* the permit documents and that the minimum mandatory inspections required under the building code have been performed and properly recorded. The local building official may not replicate the plan review or inspection being performed by the private provider, unless expressly authorized by this section.

(c) “Building” means any construction, erection, alteration, demolition, or improvement of, or addition to, any structure or site work for which permitting by a local enforcement agency is required.

(d) “Building code inspection services” means those services described in s. 468.603(5) and (8) involving the review of building plans as well as those services involving the review of site plans and site work engineering plans or their functional equivalent, to determine compliance with applicable codes and those inspections required by law, *conducted either in person or virtually*, of each phase of construction for which permitting by a local enforcement agency is required to determine compliance with applicable codes.

(e) “*Deliver*” or “*delivery*” means any method of delivery used in conventional business or commercial practice, including delivery by electronic transmissions.

(f) “Duly authorized representative” means an agent of the private provider identified in the permit application who reviews plans or performs inspections as provided by this section and who is licensed as an engineer under chapter 471 or as an architect under chapter 481 or who holds a standard certificate under part XII of chapter 468.

(g) “*Electronically posted*” means providing notices of decisions, results, or records, including inspection records, through the use of a website or other form of electronic communication used to transmit or display information.

(h) “*Electronic signature*” means any letters, characters, or symbols manifested by electronic or similar means which are executed or adopted by a party with an intent to authenticate a writing or record.

(i) “*Electronic transmission*” or “*submitted electronically*” means any form or process of communication not directly involving the physical transfer of paper or another tangible medium which is suitable for the

retention, retrieval, and reproduction of information by the recipient and is retrievable in paper form by the receipt through an automated process. All notices provided for in this section may be transmitted electronically and shall have the same legal effect as if physically posted or mailed.

(j)⊕ “Immediate threat to public safety and welfare” means a building code violation that, if allowed to persist, constitutes an immediate hazard that could result in death, serious bodily injury, or significant property damage. This paragraph does not limit the authority of the local building official to issue a Notice of Corrective Action at any time during the construction of a building project or any portion of such project if the official determines that a condition of the building or portion thereof may constitute a hazard when the building is put into use following completion as long as the condition cited is shown to be in violation of the building code or approved plans.

(k)⊕ “Local building official” means the individual within the governing jurisdiction responsible for direct regulatory administration or supervision of plans review, enforcement, and inspection of any construction, erection, alteration, demolition, or substantial improvement of, or addition to, any structure for which permitting is required to indicate compliance with applicable codes and includes any duly authorized designee of such person.

(l)⊕ “Permit application” means a properly completed and submitted application for the requested building or construction permit, including:

1. The plans reviewed by the private provider.
2. The affidavit from the private provider required under subsection (6).
3. Any applicable fees.
4. Any documents required by the local building official to determine that the fee owner has secured all other government approvals required by law.

(m)⊕ “Plans” means building plans, site engineering plans, or site plans, or their functional equivalent, submitted by a fee owner or fee owner’s contractor to a private provider or duly authorized representative for review.

(n)⊕ “Private provider” means a person licensed as a building code administrator under part XII of chapter 468, as an engineer under chapter 471, or as an architect under chapter 481. For purposes of performing inspections under this section for additions and alterations that are limited to 1,000 square feet or less to residential buildings, the term “private provider” also includes a person who holds a standard certificate under part XII of chapter 468.

(o)⊕ “Request for certificate of occupancy or certificate of completion” means a properly completed and executed application for:

1. A certificate of occupancy or certificate of completion.
2. A certificate of compliance from the private provider required under subsection (12) ~~(11)~~.
3. Any applicable fees.
4. Any documents required by the local building official to determine that the fee owner has secured all other government approvals required by law.

(p) “*Single-trade inspection*” means any inspection focused on a single construction trade, such as plumbing, mechanical, or electrical. The term includes, but is not limited to, inspections of door or window replacements; fences and block walls more than 6 feet high from the top of the wall to the bottom of the footing; stucco or plastering; reroofing with no structural alteration; HVAC replacements; ductwork or fan replacements; alteration or installation of wiring, lighting, and service panels; water heater changeouts; sink replacements; and repiping.

(q)⊕ “Site work” means the portion of a construction project that is not part of the building structure, including, but not limited to, grading, excavation, landscape irrigation, and installation of driveways.

(r)(m) “Stop-work order” means the issuance of any written statement, written directive, or written order which states the reason for the order and the conditions under which the cited work will be permitted to resume.

(2)

(b) *If an owner or contractor retains a private provider for purposes of plans review or building inspection services, the local jurisdiction must reduce the permit fee by the amount of cost savings realized by the local enforcement agency for not having to perform such services. Such reduction may be calculated on a flat fee or percentage basis, or any other reasonable means by which a local enforcement agency assesses the cost for its plans review or inspection services. It is the intent of the Legislature that owners and contractors pay reduced fees related to building permitting requirements when hiring a private provider for plans review and building inspections. A local jurisdiction must calculate the cost savings to the local enforcement agency, based on a fee owner or contractor hiring a private provider to perform plans reviews and building inspections in lieu of the local building official, and reduce the permit fees accordingly.* The local jurisdiction may not charge fees for building inspections if the fee owner or contractor hires a private provider to perform such services; however, the local jurisdiction may charge a reasonable administrative fee.

(3) A private provider and any duly authorized representative may only perform building code inspection services that are within the disciplines covered by that person’s licensure or certification under chapter 468, chapter 471, or chapter 481, *including single-trade inspections*. A private provider may not provide building code inspection services pursuant to this section upon any building designed or constructed by the private provider or the private provider’s firm.

(4) A fee owner or the fee owner’s contractor using a private provider to provide building code inspection services shall notify the local building official *in writing* at the time of permit application, or by 2 p.m. local time, 2 business days before the first scheduled inspection by the local building official or building code enforcement agency *that for a private provider has been contracted to perform the performing* required inspections of construction under this section, *including single-trade inspections*, on a form to be adopted by the commission. This notice shall include the following information:

(a) The services to be performed by the private provider.

(b) The name, firm, address, telephone number, and *e-mail address* ~~facsimile number~~ of each private provider who is performing or will perform such services, his or her professional license or certification number, qualification statements or resumes, and, if required by the local building official, a certificate of insurance demonstrating that professional liability insurance coverage is in place for the private provider’s firm, the private provider, and any duly authorized representative in the amounts required by this section.

Be It Resolved by the Legislature of the State of Florida:

That the following amendment to Section 4 of Article VII and the creation of Section 42 of Article XII of the State Constitution are agreed to and shall be submitted to the electors of this state for approval or rejection at the next general election or at an earlier special election specifically authorized by law for that purpose:

ARTICLE VII

FINANCE AND TAXATION

SECTION 4. Taxation; assessments.—By general law regulations shall be prescribed which shall secure a just valuation of all property for ad valorem taxation, provided:

(b) As provided by general law and subject to conditions, limitations, and reasonable definitions specified therein, land used for conservation purposes shall be classified by general law and assessed solely on the basis of character or use.

(c) Pursuant to general law tangible personal property held for sale as stock in trade and livestock may be valued for taxation at a specified percentage of its value, may be classified for tax purposes, or may be exempted from taxation.

(d) All persons entitled to a homestead exemption under Section 6 of this Article shall have their homestead assessed at just value as of January 1 of the year following the effective date of this amendment. This assessment shall change only as provided in this subsection.

(1) Assessments subject to this subsection shall be changed annually on January 1st of each year; but those changes in assessments shall not exceed the lower of the following:

- a. Three percent (3%) of the assessment for the prior year.
- b. The percent change in the Consumer Price Index for all urban consumers, U.S. City Average, all items 1967=100, or successor reports for the preceding calendar year as initially reported by the United States Department of Labor, Bureau of Labor Statistics.

(3) After any change of ownership, as provided by general law, homestead property shall be assessed at just value as of January 1 of the following year, unless the provisions of paragraph (8) apply. Thereafter, the homestead shall be assessed as provided in this subsection.

(4) New homestead property shall be assessed at just value as of January 1st of the year following the establishment of the homestead, unless the provisions of paragraph (8) apply. That assessment shall only change as provided in this subsection.

(5) Changes, additions, reductions, or improvements to homestead property shall be assessed as provided for by general law; provided, however, after the adjustment for any change, addition, reduction, or improvement, the property shall be assessed as provided in this subsection.

(6) In the event of a termination of homestead status, the property shall be assessed as provided by general law.

(7) The provisions of this amendment are severable. If any of the provisions of this amendment shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any remaining provisions of this amendment.

Thereafter, the homestead shall be assessed as provided in this subsection.

2. If the just value of the new homestead is less than the just value of the prior homestead as of January 1 of the year in which the prior homestead was abandoned, the assessed value of the new homestead shall be equal to the just value of the new homestead divided by the just value of the prior homestead and multiplied by the assessed value of the prior homestead. However, if the difference between the just value of the new homestead and the assessed value of the new homestead calculated pursuant to this sub-subparagraph is greater than \$500,000, the assessed value of the new homestead shall be increased so that the difference between the just value and the assessed value equals \$500,000. Thereafter, the homestead shall be assessed as provided in this subsection.

Such character or use assessment shall apply only to the jurisdiction adopting the ordinance. The requirements for eligible properties must be specified by general law.

(f) A county may, in the manner prescribed by general law, provide for a reduction in the assessed value of homestead property to the extent of any increase in the assessed value of that property which results from the construction or reconstruction of the property for the purpose of providing living quarters for one or more natural or adoptive grandparents or parents of the owner of the property or of the owner’s spouse if at least one of the grandparents or parents for whom the living quarters are provided is 62 years of age or older. Such a reduction may not exceed the lesser of the following:

(1) Assessments subject to this subsection shall be changed annually on the date of assessment provided by law; but those changes in

assessments shall not exceed ten percent (10%) of the assessment for the prior year.

(2) No assessment shall exceed just value.

(3) After a change of ownership or control, as defined by general law, including any change of ownership of a legal entity that owns the property, such property shall be assessed at just value as of the next assessment date. Thereafter, such property shall be assessed as provided in this subsection.

Thereafter, such property shall be assessed as provided in this subsection.

(5) Changes, additions, reductions, or improvements to such property shall be assessed as provided for by general law; however, after the adjustment for any change, addition, reduction, or improvement, the property shall be assessed as provided in this subsection.

A physician supervising a physician assistant pursuant to this section may not be required to review and cosign charts or medical records prepared by such physician assistant.

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(a) The boards shall adopt, by rule, the general principles that supervising physicians must use in developing the scope of practice of a physician assistant under direct supervision and under indirect supervision. These principles shall recognize the diversity of both specialty and practice settings in which physician assistants are used.

(b) This chapter does not prevent third-party payors from reimbursing employers of physician assistants for covered services rendered by licensed physician assistants.

(c) Licensed physician assistants may not be denied clinical hospital privileges, except for cause, so long as the supervising physician is a staff member in good standing.

(d) A supervisory physician may delegate to a licensed physician assistant, pursuant to a written protocol, the authority to act according to s. 154.04(1)(c). Such delegated authority is limited to the supervising physician's practice in connection with a county health department as defined and established pursuant to chapter 154. The boards shall adopt rules governing the supervision of physician assistants by physicians in county health departments.

(e) A supervising physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervising physician's practice unless such medication is listed on the formulary created pursuant to paragraph (f). A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that he or she is a physician assistant ~~and inform the patient that the patient has the right to see the physician before a prescription is prescribed or dispensed by the physician assistant.~~

2. The supervising physician must notify the department of his or her intent to delegate, on a department-approved form, before delegating such authority and of any change in prescriptive privileges of the physician assistant. The physician assistant is not required to independently register pursuant to s. 465.0276.~~

5. 6. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record.

(f)1. The council shall establish a formulary of medicinal drugs that a fully licensed physician assistant having prescribing authority under this section or s. 459.022 may not prescribe. The formulary must include general anesthetics and radiographic contrast materials and must limit the prescription of Schedule II controlled substances as listed in s. 893.03 to a 7-day supply. 3. Only the council shall add to, delete from, or modify the formulary. Any person who requests an addition, a deletion, or a modification of a medicinal drug listed on such formulary has the burden of proof to show cause why such addition, deletion, or modification should be made.

4. The boards shall adopt the formulary required by this paragraph, and each addition, deletion, or modification to the formulary, by rule. Notwithstanding any provision of chapter 120 to the contrary, the formulary rule shall be effective 60 days after the date it is filed with the Secretary of State. Upon adoption of the formulary, the department shall mail a copy of such formulary to each fully licensed physician assistant having prescribing authority under this section or s. 459.022, and to each pharmacy licensed by the state. The boards shall establish, by rule, a fee not to exceed \$200 to fund the provisions of this paragraph and paragraph (e).

(g) A supervisory physician may delegate to a licensed physician assistant the authority to, and the licensed physician assistant acting under the direction of the supervisory physician may, order any medication for administration to the supervisory physician's patient in a facility licensed under chapter 395 or part II of chapter 400, notwithstanding any provisions in chapter 465 or chapter 893 which may prohibit this delegation.

(h) A licensed physician assistant may perform services delegated by the supervising physician in the physician assistant's practice in accordance with his or her education and training unless expressly prohibited under this chapter, chapter 459, or rules adopted under this chapter or chapter 459.

(i) Except for a physician certification under s. 381.986, a physician assistant may authenticate any document with his or her signature, certification, stamp, verification, affidavit, or endorsement if such document may be so authenticated by the signature, certification, stamp, verification, affidavit, or endorsement of a physician, except those required for s. 381.986. 6. Orders for physical therapy, occupational therapy, speech-language therapy, home health services, or durable medical equipment.

(j) A physician assistant may supervise medical assistants as defined in this chapter.

(k) This chapter authorizes third-party payors to reimburse employers of physician assistants for covered services rendered by licensed physician assistants. Payment for services within the physician assistant's scope of practice must be made when ordered or performed by a physician assistant if the same service would have been covered if ordered or performed by a physician. Physician assistants are authorized to bill for and receive direct payment for the services they deliver.

~~(5) PERFORMANCE BY TRAINEES.—Notwithstanding any other law, a trainee may perform medical services when such services are rendered within the scope of an approved program.~~

~~(6) PROGRAM APPROVAL.—~~

(a) The boards shall approve programs, based on recommendations by the council, for the education and training of physician assistants which meet standards established by rule of the boards. The council may recommend only those physician assistant programs that hold full accreditation or provisional accreditation from the Accreditation Review Commission on Education for the Physician Assistant or its successor entity or, before 2001, from the Committee on Allied Health Education and Accreditation or the Commission on Accreditation of Allied Health Programs or its successor organization. ~~Any educational institution offering a physician assistant program approved by the boards pursuant to this paragraph may also offer the physician assistant program authorized in paragraph (c) for unlicensed physicians.~~

(b) ~~Notwithstanding any other law, a trainee may perform medical services when such services are rendered within the scope of an approved program. The boards shall adopt and publish standards to ensure that such programs operate in a manner that does not endanger the health or welfare of the patients who receive services within the scope of the programs. The boards shall review the quality of the curricula, faculties, and facilities of such programs and take whatever other action is necessary to determine that the purposes of this section are being met.~~

~~(c) Any community college with the approval of the State Board of Education may conduct a physician assistant program which shall apply for national accreditation through the American Medical Association's Committee on Allied Health, Education, and Accreditation, or its successor organization, and which may admit unlicensed physicians, as authorized in subsection (7), who are graduates of foreign medical schools listed with the World Health Organization. The unlicensed physician must have been a resident of this state for a minimum of 12 months immediately prior to admission to the program. An evaluation of knowledge base by examination shall be required to grant advanced academic credit and to fulfill the necessary requirements to graduate. A minimum of one 16-week semester of supervised clinical and didactic education, which may be completed simultaneously, shall be required before graduation from the program. All other provisions of this section shall remain in effect.~~

~~(6)(7) PHYSICIAN ASSISTANT LICENSURE.—~~

3. Has obtained a passing score as satisfactorily passed a proficiency examination by an acceptable score established by the National Commission on Certification of Physician Assistants or its equivalent or successor organization and has been nationally certified. If an applicant does not hold a current certificate issued by the National Commission on Certification of Physician Assistants or its equivalent or successor organization and has not actively practiced as a physician assistant within the immediately preceding 4 years, the applicant must retake and successfully complete the entry-level examination of the National Commission on Certification of Physician Assistants or its equivalent or successor organization to be eligible for licensure.

The temporary license shall expire 30 days after receipt of scores of the proficiency examination administered by the National Commission on Certification of Physician Assistants. Between meetings of the council, the department may grant a temporary license to practice based on the completion of all temporary licensure requirements. All such administratively issued licenses shall be reviewed and acted on at the next regular meeting of the council. The recent graduate may be licensed before employment but must comply with paragraph (4). An applicant who has passed the proficiency examination may be granted permanent licensure. An applicant may not be granted more than two temporary licenses and may not be licensed as a physician assistant until he or she passes the examination administered by the National Commission on Certification of Physician Assistants. As prescribed by board rule, the council may require an applicant who does not pass the licensing examination after five or more attempts to complete additional remedial education or training. The council shall prescribe the additional requirements in a manner that permits the applicant to complete the requirements and be reexamined within 2 years after the date the applicant petitions the council to retake the examination a sixth or subsequent time.

6. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record.

(f) A supervisory physician may delegate to a licensed physician assistant the authority to, and the licensed physician assistant acting under the direction of the supervisory physician may, order any medication for administration to the supervisory physician's patient in a facility licensed under chapter 395 or part II of chapter 400, notwithstanding any provisions in chapter 465 or chapter 893 which may prohibit this delegation.

(g) A licensed physician assistant may perform services delegated by the supervising physician in the physician assistant's practice in accordance with his or her education and training unless expressly prohibited under this chapter, chapter 458, or rules adopted under this chapter or chapter 458.

(h) *Except for a physician certification under s. 381.986, a physician assistant may authenticate any document with his or her signature, certification, stamp, verification, affidavit, or endorsement if such document may be so authenticated by the signature, certification, stamp, verification, affidavit, or endorsement of a physician, except those required for s. 381.986. Such documents include, but are not limited to, any of the following:*

2. *Do-not-resuscitate orders or physician orders for the administration of life-sustaining treatment.*
3. *Death certificates.*

5. *Medical examinations for workers' compensation claims, except medical examinations required for the evaluation and assignment of the claimant's date of maximum medical improvement as defined in s. 440.02 and for the impairment rating, if any, under s. 440.15.*

6. *Orders for physical therapy, occupational therapy, speech-language therapy, home health services, or durable medical equipment.*

(i) *A physician assistant may supervise medical assistants as defined in chapter 458.*

(j) *This chapter authorizes third-party payors to reimburse employers of physician assistants for covered services rendered by licensed physician assistants. Payment for services within the physician assistant's scope of practice must be made when ordered or performed by a physician assistant if the same service would have been covered if ordered or performed by a physician. Physician assistants are authorized to bill for and receive direct payment for the services they deliver.*

(5) ~~PERFORMANCE BY TRAINEES.~~ ~~Notwithstanding any other law, a trainee may perform medical services when such services are rendered within the scope of an approved program.~~

(6) PROGRAM APPROVAL.—

(a) The boards shall approve programs, based on recommendations by the council, for the education and training of physician assistants which meet standards established by rule of the boards. The council may recommend only those physician assistant programs that hold full accreditation or provisional accreditation from the Accreditation Review Commission on Education for the Physician Assistant or its successor entity or, before 2001, from the Committee on Allied Health Education and Accreditation or the Commission on Accreditation of Allied Health Programs or its successor organization.

(b) ~~Notwithstanding any other law, a trainee may perform medical services when such services are rendered within the scope of an approved program. The boards shall adopt and publish standards to ensure that such programs operate in a manner that does not endanger the health or welfare of the patients who receive services within the scope of the programs. The boards shall review the quality of the curricula, faculties, and facilities of such programs and take whatever other action is necessary to determine that the purposes of this section are being met.~~

3. ~~Has obtained a passing score as~~ ~~satisfactorily passed a proficiency examination by an acceptable score~~ established by the National Commission on Certification of Physician Assistants ~~or its equivalent or successor organization and has been nationally certified.~~ If an applicant does not hold a current certificate issued by the National Commission on Certification of Physician Assistants ~~or its equivalent or successor organization~~ and has not actively practiced as a physician assistant within the immediately preceding 4 years, the applicant must retake and successfully complete the entry-level examination of the National Commission on Certification of Physician Assistants ~~or its equivalent or successor organization~~ to be eligible for licensure.

All such administratively issued licenses shall be reviewed and acted on at the next regular meeting of the council. The recent graduate may be licensed ~~before prior to employment, but must comply with paragraph (d).~~ An applicant who has passed the proficiency examination may be granted permanent licensure. An applicant failing the proficiency examination is no longer temporarily licensed, but may reapply for a 1-year extension of temporary licensure. An applicant may not be granted more than two temporary licenses and may not be licensed as a physician assistant until she or he passes the examination administered by the National Commission on Certification of Physician Assistants. As prescribed by board rule, the council may require an applicant who does not pass the licensing examination after five or more attempts to complete additional remedial education or training. The council shall prescribe the additional requirements in a manner that permits the applicant to complete the requirements and be reexamined within 2 years after the date the applicant petitions the council to retake the examination a sixth or subsequent time.

~~(12)(13)~~ RULES.—The boards shall adopt rules to implement this section, including rules detailing the contents of the application for licensure and notification pursuant to subsection (6) ~~(7)~~ and rules to ensure both the continued competency of physician assistants and the proper utilization of them by physicians or groups of physicians.

382.008 Death, fetal death, and nonviable birth registration.—

(2)(a) The funeral director who first assumes custody of a dead body or fetus shall file the certificate of death or fetal death. The person who files the certificate shall obtain personal data from a legally authorized person as described in s. 497.005 or the best qualified person or source available. The medical certification of cause of death shall be furnished to the funeral director, either in person or via certified mail or electronic transfer, by the physician, *physician assistant*, advanced practice registered nurse registered under s. 464.0123, or medical examiner responsible for furnishing such information. For fetal deaths, the physician, *physician assistant*, advanced practice registered nurse registered under s. 464.0123, midwife, or hospital administrator shall provide any medical or health information to the funeral director within 72 hours after expulsion or extraction.

(3) Within 72 hours after receipt of a death or fetal death certificate from the funeral director, the medical certification of cause of death shall be completed and made available to the funeral director by the decedent's primary or attending practitioner or, if s. 382.011 applies, the district medical examiner of the county in which the death occurred or the body was found. The primary or attending practitioner or the medical examiner shall certify over his or her signature the cause of death to the best of his or her knowledge and belief. As used in this section, the term "primary or attending practitioner" means a physician, *physician assistant*, or advanced practice registered nurse registered under s. 464.0123 who treated the decedent through examination, medical advice, or medication during the 12 months preceding the date of death.

(a) The department may grant the funeral director an extension of time upon a good and sufficient showing of any of the following conditions:

1. An autopsy is pending.
2. Toxicology, laboratory, or other diagnostic reports have not been completed.
3. The identity of the decedent is unknown and further investigation or identification is required.

(b) If the decedent's primary or attending practitioner or the district medical examiner of the county in which the death occurred or the body was found indicates that he or she will sign and complete the medical certification of cause of death but will not be available until after the 5-day registration deadline, the local registrar may grant an extension of 5 days. If a further extension is required, the funeral director must provide written justification to the registrar.

(5) A permanent certificate of death or fetal death, containing the cause of death and any other information that was previously unavailable, shall be registered as a replacement for the temporary certificate. The permanent certificate may also include corrected information if the items being corrected are noted on the back of the certificate and dated and signed by the funeral director, physician, *physician assistant*, advanced practice registered nurse registered under s. 464.0123, or district medical examiner of the county in which the death occurred or the body was found, as appropriate.

Section 4. Paragraph (a) of subsection (2) of section 394.463, Florida Statutes, is amended to read:

394.463 Involuntary examination.—

(2) INVOLUNTARY EXAMINATION.—

(a) An involuntary examination may be initiated by any one of the following means:

1. A circuit or county court may enter an *ex parte* order stating that a person appears to meet the criteria for involuntary examination and specifying the findings on which that conclusion is based. The *ex parte* order for involuntary examination must be based on written or oral sworn testimony that includes specific facts that support the findings. If other less restrictive means are not available, such as voluntary appearance for outpatient evaluation, a law enforcement officer, or other designated agent of the court, shall take the person into custody and deliver him or her to an appropriate, or the nearest, facility within the designated receiving system pursuant to s. 394.462 for involuntary examination. The order of the court shall be made a part of the patient's clinical record. A fee may not be charged for the filing of an order under this subsection. A facility accepting the patient based on this order must send a copy of the order to the department within 5 working days. The order may be submitted electronically through existing data systems, if available. The order shall be valid only until the person is delivered to the facility or for the period specified in the order itself, whichever comes first. If a time limit is not specified in the order, the order is valid for 7 days after the date that the order was signed.

2. A law enforcement officer shall take a person who appears to meet the criteria for involuntary examination into custody and deliver the person or have him or her delivered to an appropriate, or the nearest, facility within the designated receiving system pursuant to s. 394.462 for examination. The officer shall execute a written report detailing the circumstances under which the person was taken into custody, which must be made a part of the patient's clinical record. Any facility accepting the patient based on this report must send a copy of the report to the department within 5 working days.

3. A physician, a *physician assistant*, a clinical psychologist, a psychiatric nurse, an advanced practice registered nurse registered under s. 464.0123, a mental health counselor, a marriage and family therapist, or a clinical social worker may execute a certificate stating that he or she has examined a person within the preceding 48 hours and finds that the person appears to meet the criteria for involuntary examination and stating the observations upon which that conclusion is based. If other less restrictive means, such as voluntary appearance for outpatient evaluation, are not available, a law enforcement officer shall take into custody the person named in the certificate and deliver him or her to the appropriate, or nearest, facility within the designated receiving system pursuant to s. 394.462 for involuntary examination. The law enforcement officer shall execute a written report detailing the circumstances under which the person was taken into custody. The report and certificate shall be made a part of the patient's clinical record. Any facility accepting the patient based on this certificate must send a copy of the certificate to the department within 5 working days. The document may be submitted electronically through existing data systems, if applicable.

When sending the order, report, or certificate to the department, a facility shall, at a minimum, provide information about which action was taken regarding the patient under paragraph (g), which information shall also be made a part of the patient's clinical record.

Section 5. Paragraphs (a) and (c) of subsection (3) of section 401.45, Florida Statutes, are amended to read:

401.45 Denial of emergency treatment; civil liability.—

(3)(a) Resuscitation may be withheld or withdrawn from a patient by an emergency medical technician or paramedic if evidence of an order not to resuscitate by the patient's physician or *physician assistant* is presented to the emergency medical technician or paramedic. An order not to resuscitate, to be valid, must be on the form adopted by rule of the department. The form must be signed by the patient's physician or *physician assistant* and by the patient or, if the patient is incapacitated, the patient's health care surrogate or proxy as provided in chapter 765, court-appointed guardian as provided in chapter 744, or attorney in fact under a durable power of attorney as provided in chapter 709. The court-appointed guardian or attorney in fact must have been delegated authority to make health care decisions on behalf of the patient.

(c) The department, in consultation with the Department of Elderly Affairs and the Agency for Health Care Administration, shall develop a standardized do-not-resuscitate identification system with devices that signify, when carried or worn, that the possessor is a patient for whom a physician or *physician assistant* has issued an order not to administer cardiopulmonary resuscitation. The department may charge a reasonable fee to cover the cost of producing and distributing such identification devices. Use of such devices shall be voluntary.

CS for HB 133—A bill to be entitled An act relating to surrendered newborn infants; amending s. 383.50, F.S.; revising and providing definitions; authorizing certain hospitals, emergency medical services stations, and fire stations to use newborn infant safety devices to accept surrendered newborn infants under certain circumstances; requiring such hospitals, emergency medical services stations, or fire stations to physically check and test the devices at specified intervals; conforming provisions to changes made by the act; providing additional locations to which the prohibition on the initiation of criminal investigations based solely on the surrendering of a newborn infant applies; requiring the Department of Health to review and approve newborn infant safety devices; authorizing the department to adopt rules; amending s. 63.0423, F.S.; conforming a cross-reference; making conforming and technical changes; providing an effective date.

—a companion measure, was substituted for **CS for SB 122** and read the second time by title.

Pursuant to Rule 7.1, there being no objection, consideration of the following late-filed amendment was allowed:

Senator Baxley moved the following amendment which was adopted:

Amendment 1 (816820) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Subsection (1) of section 383.50, Florida Statutes, is amended to read:

383.50 Treatment of surrendered newborn infant.—

(1) As used in this section, the term “newborn infant” means a child who a licensed physician reasonably believes is approximately 30 7 days old or younger at the time the child is left at a hospital, an emergency medical services station, or a fire station.

Section 2. Section 63.0423, Florida Statutes, is amended to read:

63.0423 Procedures with respect to surrendered newborn infants.—

(1) Upon entry of final judgment terminating parental rights, a licensed child-placing agency that takes physical custody of a newborn ~~an~~ infant surrendered at a hospital, an emergency medical services station, or a fire station pursuant to s. 383.50 assumes responsibility for the medical and other costs associated with the emergency services and care of the surrendered newborn infant from the time the licensed child-placing agency takes physical custody of the surrendered newborn infant.

(2) The licensed child-placing agency shall immediately seek an order from the circuit court for emergency custody of the surrendered newborn infant. The emergency custody order shall remain in effect until the court orders preliminary approval of placement of the surrendered newborn infant in the prospective home, at which time the prospective adoptive parents become guardians pending termination of parental rights and finalization of adoption or until the court orders otherwise. The guardianship of the prospective adoptive parents shall remain subject to the right of the licensed child-placing agency to remove the surrendered newborn infant from the placement during the pendency of the proceedings if such removal is deemed by the licensed child-placing agency to be in the best interests of the child. The licensed child-placing agency may immediately seek to place the surrendered newborn infant in a prospective adoptive home.

(3) The licensed child-placing agency that takes physical custody of the surrendered newborn infant shall, within 24 hours thereafter, request assistance from law enforcement officials to investigate and determine, through the Missing Children Information Clearinghouse, the National Center for Missing and Exploited Children, and any other national and state resources, whether the surrendered newborn infant is a missing child.

(4) The parent who surrenders the newborn infant in accordance with s. 383.50 is presumed to have consented to termination of parental rights, and express consent is not required. Except when there is actual or suspected child abuse or neglect, the licensed child-placing agency shall not attempt to pursue, search for, or notify that parent as provided in s. 63.088 and chapter 49. For purposes of s. 383.50 and this section, a surrendered newborn ~~an~~ infant who tests positive for illegal drugs, narcotic prescription drugs, alcohol, or other substances, but shows no other signs of child abuse or neglect, shall be placed in the custody of a licensed child-placing agency. Such a placement does not eliminate the reporting requirement under s. 383.50(7). When the department is contacted regarding a newborn ~~an~~ infant properly surrendered under this section and s. 383.50, the department shall provide instruction to contact a licensed child-placing agency and may not take custody of the newborn infant unless reasonable efforts to contact a licensed child-placing agency to accept the newborn infant have not been successful.

(5) A petition for termination of parental rights under this section may not be filed until 30 days after the date the newborn infant was surrendered in accordance with s. 383.50. A petition for termination of parental rights may not be granted until a parent has failed to reclaim or claim the surrendered newborn infant within the time period specified in s. 383.50.

(6) A claim of parental rights of the surrendered newborn infant must be made to the entity having legal custody of the surrendered newborn infant or to the circuit court before which proceedings involving the surrendered newborn infant are pending. A claim of parental rights of the surrendered newborn infant may not be made after the judgment to terminate parental rights is entered, except as otherwise provided by subsection (9).

(7) If a claim of parental rights of a surrendered newborn infant is made before the judgment to terminate parental rights is entered, the circuit court may hold the action for termination of parental rights in abeyance for a period of time not to exceed 60 days.

(a) The court may order scientific testing to determine maternity or paternity at the expense of the parent claiming parental rights.

(b) The court shall appoint a guardian ad litem for the surrendered newborn infant and order whatever investigation, home evaluation, and psychological evaluation are necessary to determine what is in the best interests of the surrendered newborn infant.

(c) The court may not terminate parental rights solely on the basis that the parent left the newborn infant at a hospital, an emergency medical services station, or a fire station in accordance with s. 383.50.

(d) The court shall enter a judgment with written findings of fact and conclusions of law.

(8) Within 7 business days after recording the judgment, the clerk of the court shall mail a copy of the judgment to the department, the petitioner, and any person whose consent was required, if known. The clerk shall execute a certificate of each mailing.

(9)(a) A judgment terminating parental rights of a surrendered newborn infant pending adoption is voidable, and any later judgment of adoption of that child ~~minor~~ is voidable, if, upon the motion of a parent, the court finds that a person knowingly gave false information that prevented the parent from timely making known his or her desire to assume parental responsibilities toward the child ~~minor~~ or from exercising his or her parental rights. A motion under this subsection must be filed with the court originally entering the judgment. The motion must be filed within a reasonable time but not later than 1 year after the entry of the judgment terminating parental rights.

(b) No later than 30 days after the filing of a motion under this subsection, the court shall conduct a preliminary hearing to determine what contact, if any, will be ~~allowed~~ ~~permitted~~ between a parent and the child pending resolution of the motion. Such contact may be allowed only if it is requested by a parent who has appeared at the hearing and the court determines that it is in the best interests of the child. If the court orders contact between a parent and the child, the order must be issued in writing as expeditiously as possible and must state with specificity any provisions regarding contact with persons other than those with whom the child resides.

(c) The court may not order scientific testing to determine the paternity or maternity of the *child minor* until such time as the court determines that a previously entered judgment terminating the parental rights of that parent is voidable pursuant to paragraph (a), unless all parties agree that such testing is in the best interests of the child. Upon the filing of test results establishing that person's maternity or paternity of the surrendered *newborn* infant, the court may order visitation only if it appears to be in the best interests of the child.

(d) Within 45 days after the preliminary hearing, the court shall conduct a final hearing on the motion to set aside the judgment and shall enter its written order as expeditiously as possible thereafter.

(10) Except to the extent expressly provided in this section, proceedings initiated by a licensed child-placing agency for the termination of parental rights and subsequent adoption of a newborn *infant* left at a hospital, an emergency medical services station, or a fire station in accordance with s. 383.50 shall be conducted pursuant to this chapter.

Section 3. This act shall take effect July 1, 2021.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to surrendered newborn infants; amending s. 383.50, F.S.; revising the definition of the term "newborn infant"; amending s. 63.0423, F.S.; making conforming and technical changes; providing an effective date.

Delete line 2 and insert: An act relating to growth management; amending s. 163.3167, F.S.; authorizing landowners with development orders existing before the incorporation of a municipality to elect to abandon such orders and develop the vested density and intensity contained therein under specified conditions;

Pursuant to Rule 7.1, there being no objection, consideration of the following late-filed amendment was allowed:

Senator Hutson moved the following amendment which was adopted:

Amendment 2 (899226) (with title amendment)—Before line 10 insert:

Section 1. Paragraph (g) of subsection (7) of section 163.01, Florida Statutes, is amended to read:

163.01 Florida Interlocal Cooperation Act of 1969.—

(7)

(g)1. Notwithstanding any other provisions of this section, any separate legal entity created under this section, the membership of which is limited to municipalities and counties of the state, and which may include a special district in addition to a municipality or county or both, may acquire, own, construct, improve, operate, and manage public facilities, or finance facilities on behalf of any person, relating to a governmental function or purpose, including, but not limited to, wastewater facilities, water or alternative water supply facilities, and water reuse facilities, which may serve populations within or outside of the members of the entity. Notwithstanding s. 367.171(7), any separate legal entity created under this paragraph is not subject to Public Service Commission jurisdiction. The separate legal entity may not provide utility services within the service area of an existing utility system unless it has received the consent of the utility.

2. For purposes of this paragraph, the term:

a. “Host government” means the governing body of the county, if the largest number of equivalent residential connections currently served by a system of the utility is located in the unincorporated area, or the governing body of a municipality, if the largest number of equivalent residential connections currently served by a system of the utility is located within that municipality’s boundaries.

b. “Separate legal entity” means any entity created by interlocal agreement the membership of which is limited to two or more special districts, municipalities, or counties of the state, but which entity is legally separate and apart from any of its member governments.

c. “System” means a water or wastewater facility or group of such facilities owned by one entity or affiliate entities.

d. “Utility” means a water or wastewater utility and includes every person, separate legal entity, lessee, trustee, or receiver owning, operating, managing, or controlling a system, or proposing construction of a system, who is providing, or proposes to provide, water or wastewater service to the public for compensation.

3. A separate legal entity that seeks to acquire any utility shall notify the host government in writing by certified mail about the contemplated acquisition not less than 30 days before any proposed transfer of ownership, use, or possession of any utility assets by such separate legal entity. The potential acquisition notice shall be provided to the legislative head of the governing body of the host government and to its chief administrative officer and shall provide the name and address of a contact person for the separate legal entity and information identified in s. 367.071(4)(a) concerning the contemplated acquisition.

4.a. Within 30 days following receipt of the notice, the host government may adopt a resolution to become a member of the separate legal entity, adopt a resolution to approve the utility acquisition, or adopt a resolution to prohibit the utility acquisition by the separate legal entity if the host government determines that the proposed acquisition is not in the public interest. A resolution adopted by the host government which prohibits the acquisition may include conditions that would make the proposal acceptable to the host government.

b. If a host government adopts a membership resolution, the separate legal entity shall accept the host government as a member on the same basis as its existing members before any transfer of ownership, use, or possession of the utility or the utility facilities. If a host government adopts a resolution to approve the utility acquisition, the separate legal entity may complete the acquisition. If a host government adopts a prohibition resolution, the separate legal entity may not acquire the utility within that host government’s territory without the specific consent of the host government by future resolution. If a host government does not adopt a prohibition resolution or an approval resolution, the separate legal entity may proceed to acquire the utility after the 30-day notice period without further notice.

5. After the acquisition or construction of any utility systems by a separate legal entity created under this paragraph, revenues or any other income may not be transferred or paid to a member of a separate legal entity, or to any other special district, county, or municipality, from user fees or other charges or revenues generated from customers that are not physically located within the jurisdictional or service delivery boundaries of the member, special district, county, or municipality receiving the transfer or payment. Any transfer or payment to a member, special district, or other local government must be solely from user fees or other charges or revenues generated from customers that are physically located within the jurisdictional or service delivery boundaries of the member, special district, or local government receiving the transfer of payment.

6. This section is an alternative provision otherwise provided by law as authorized in s. 4, Art. VIII of the State Constitution for any transfer of power as a result of an acquisition of a utility by a separate legal entity from a municipality, county, or special district.

7. The entity may finance or refinance the acquisition, construction, expansion, and improvement of such facilities relating to a governmental function or purpose through the issuance of its bonds, notes, or other obligations under this section or as otherwise authorized by law. The entity has all the powers provided by the interlocal agreement under which it is created or which are necessary to finance, own, operate, or manage the public facility, including, without limitation, the power to establish rates, charges, and fees for products or services provided by it, the power to levy special assessments, the power to sell or finance all or a portion of such facility, and the power to contract with a public or private entity to manage and operate such facilities or to provide or receive facilities, services, or products. Except as may be limited by the interlocal agreement under which the entity is created, all of the privileges, benefits, powers, and terms of s. 125.01, relating to counties, and s. 166.021, relating to municipalities, are fully applicable to the entity. However, neither the entity nor any of its members on behalf of the entity may exercise the power of eminent domain over the facilities or property of any existing water or wastewater plant utility system, nor may the entity acquire title to any water or wastewater plant utility facilities, other facilities, or property which was acquired by the use of eminent domain after the effective date of this act, *unless 10 or more years have elapsed since the date of the acquisition by eminent domain*. Bonds, notes, and other obligations issued by the entity are issued on behalf of the public agencies that are members of the entity.

8. Any entity created under this section may also issue bond anticipation notes in connection with the authorization, issuance, and sale of bonds. The bonds may be issued as serial bonds or as term bonds or both. Any entity may issue capital appreciation bonds or variable rate bonds. Any bonds, notes, or other obligations must be authorized by resolution of the governing body of the entity and bear the date or dates; mature at the time or times, not exceeding 40 years from their respective dates; bear interest at the rate or rates; be payable at the time or times; be in the denomination; be in the form; carry the registration privileges; be executed in the manner; be payable from the sources and in the medium or payment and at the place; and be subject to the terms of redemption, including redemption prior to maturity, as the resolution may provide. If any officer whose signature, or a facsimile of whose signature, appears on any bonds, notes, or other obligations ceases to be an officer before the delivery of the bonds, notes, or other obligations, the signature or facsimile is valid and sufficient for all purposes as if he or she had remained in office until the delivery. The bonds, notes, or other obligations may be sold at public or private sale for such price as the governing body of the entity shall determine. Pending preparation of the definitive bonds, the entity may issue interim certificates, which

shall be exchanged for the definitive bonds. The bonds may be secured by a form of credit enhancement, if any, as the entity deems appropriate. The bonds may be secured by an indenture of trust or trust agreement. In addition, the governing body of the legal entity may delegate, to an officer, official, or agent of the legal entity as the governing body of the legal entity may select, the power to determine the time; manner of sale, public or private; maturities; rate of interest, which may be fixed or may vary at the time and in accordance with a specified formula or method of determination; and other terms and conditions as may be deemed appropriate by the officer, official, or agent so designated by the governing body of the legal entity. However, the amount and maturity of the bonds, notes, or other obligations and the interest rate of the bonds, notes, or other obligations must be within the limits prescribed by the governing body of the legal entity and its resolution delegating to an officer, official, or agent the power to authorize the issuance and sale of the bonds, notes, or other obligations.

9. Bonds, notes, or other obligations issued under this paragraph may be validated as provided in chapter 75. The complaint in any action to validate the bonds, notes, or other obligations must be filed only in the Circuit Court for Leon County. The notice required to be published by s. 75.06 must be published in Leon County and in each county that is a member of the entity issuing the bonds, notes, or other obligations, or in which a member of the entity is located, and the complaint and order of the circuit court must be served only on the State Attorney of the Second Judicial Circuit and on the state attorney of each circuit in each county that is a member of the entity issuing the bonds, notes, or other obligations or in which a member of the entity is located. Section 75.04(2) does not apply to a complaint for validation brought by the legal entity.

10. The accomplishment of the authorized purposes of a legal entity created under this paragraph is in all respects for the benefit of the people of the state, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions. Since the legal entity will perform essential governmental functions for the public health, safety, and welfare in accomplishing its purposes, the legal entity is not required to pay any taxes or assessments of any kind whatsoever upon any property acquired or used by it for such purposes or upon any revenues at any time received by it, whether the property is within or outside the jurisdiction of members of the entity. The exemption provided in this paragraph applies regardless of whether the separate legal entity enters into agreements with private firms or entities to manage, operate, or improve the utilities owned by the separate legal entity. The bonds, notes, and other obligations of an entity, their transfer, and the income therefrom, including any profits made on the sale thereof, are at all times free from taxation of any kind by the state or by any political subdivision or other agency or instrumentality thereof. The exemption granted in this subparagraph is not applicable to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations.

And the title is amended as follows:

Between lines 2 and 3 insert: amending s. 163.01, F.S.; providing an exception to a prohibition against legal entities and their members exercising the power of eminent domain over or acquiring title to certain facilities or property;

On motion by Senator Perry, by two-thirds vote, **HB 487**, as amended, was read the third time by title, passed, and certified to the House. The vote on passage was:

Fee waivers granted pursuant to this subsection may not exceed 1,000 students systemwide each academic year.

(a) A state university shall waive the tuition and fees for one online course for a student who is a resident for tuition purposes under s. 1009.21, has not previously earned a bachelor’s degree, and is enrolled in

an online baccalaureate degree program, provided the student meets one of the following eligibility requirements:

However, the state university may refer any signed declaration suspected of containing fraudulent representations to law enforcement.

(d) Each state university annually shall report to the Board of Governors the number and value of all fee waivers granted under this subsection during the previous 12-month period.

(e) Beginning with students who initially enroll for the 2022-2023 academic year or thereafter, a state university shall, within the non-resident student enrollment systemwide, prioritize the enrollment of a student who is granted a fee waiver under this subsection over an out-of-state student who is not eligible for an out-of-state fee waiver if the students have substantially similar academic and other credentials used in determining admission to the state university.

PRAYER

The following prayer was offered by Rabbi Moshe Matz, Agudath Israel of Florida, Aventura:

It is an honor to be asked to begin this session in this awesome chamber with a prayer. I stood at this podium just about a year ago to say a prayer as the COVID pandemic had just begun to impact the world. Here we are, a year later, the world a very different place. Today, we are still hearing distressing reports of the impact of the virus around the world, but the greatest struggle of our time is to see our country and its people fearful, distrustful, and divided.

It behooves us now, more than ever, to turn our eyes and hearts to G-d for direction and protection. The Almighty is beseeching us to embrace our common humanity, to give priority to a meaningful and purposeful life—a life that embraces the good of the other over our own rights. We put our love of G-d and country where its citizens are above our own basic needs. This is a great country, without a doubt, a blessed land. We should once again embrace the call of President Kennedy and not ask what my country can do for me but what I may do for my country.

Let us never lose sight of the Almighty Creator, let us always seek to do his actual will and follow his precepts. We must always speak truth, encourage responsibility, and respect each other so that we may con-

tinue to earn as many blessings for generations to come. We pray for G-d's protection and support. We ask that G-d keep our law enforcement professionals and our armed forces safe and guarded and the people of this chamber and all elected officials in the State of Florida safe, protected, and healthy.

In the Jewish prayer services that we conduct three times a day, we conclude our words with the following verse, "He who makes peace on his heights, may he make peace upon us and upon all of Israel." Now let us respond, "Amen."

PLEDGE

Senator Burgess led the Senate in the Pledge of Allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Stephen C. Viel of New Smyrna Beach, sponsored by Senator Wright, as the doctor of the day. Dr. Viel specializes in emergency medicine.

Section 26. For the purpose of incorporating the amendment made by this act to section 943.0435, Florida Statutes, in a reference thereto, subsection (4) of section 948.06, Florida Statutes, is reenacted to read:

948.06 Violation of probation or community control; revocation; modification; continuance; failure to pay restitution or cost of supervision.—

(4) Notwithstanding any other provision of this section, a felony probationer or an offender in community control who is arrested for violating his or her probation or community control in a material respect may be taken before the court in the county or circuit in which the probationer or offender was arrested. That court shall advise him or her of the charge of a violation and, if such charge is admitted, shall cause him or her to be brought before the court that granted the probation or community control. If the violation is not admitted by the probationer or offender, the court may commit him or her or release him or her with or without bail to await further hearing. However, if the probationer or offender is under supervision for any criminal offense proscribed in chapter 794, s. 800.04(4), (5), (6), s. 827.071, or s. 847.0145, or is a registered sexual predator or a registered sexual offender, or is under supervision for a criminal offense for which he or she would meet the registration criteria in s. 775.21, s. 943.0435, or s. 944.607 but for the effective date of those sections, the court must make a finding that the probationer or offender is not a danger to the public prior to release with or without bail. In determining the danger posed by the offender's or probationer's release, the court may consider the nature and circumstances of the violation and any new offenses charged; the offender's or probationer's past and present conduct, including convictions of crimes; any record of arrests without conviction for crimes involving violence or sexual crimes; any other evidence of allegations of unlawful sexual conduct or the use of violence by the offender or probationer; the offender's or probationer's family ties, length of residence in the community, employment history, and mental condition; his or her history and conduct during the probation or community control supervision

from which the violation arises and any other previous supervisions, including disciplinary records of previous incarcerations; the likelihood that the offender or probationer will engage again in a criminal course of conduct; the weight of the evidence against the offender or probationer; and any other facts the court considers relevant. The court, as soon as is practicable, shall give the probationer or offender an opportunity to be fully heard on his or her behalf in person or by counsel. After the hearing, the court shall make findings of fact and forward the findings to the court that granted the probation or community control and to the probationer or offender or his or her attorney. The findings of fact by the hearing court are binding on the court that granted the probation or community control. Upon the probationer or offender being brought before it, the court that granted the probation or community control may revoke, modify, or continue the probation or community control or may place the probationer into community control as provided in this section. However, the probationer or offender shall not be released and shall not be admitted to bail, but shall be brought before the court that granted the probation or community control if any violation of felony probation or community control other than a failure to pay costs or fines or make restitution payments is alleged to have been committed by:

(a) A violent felony offender of special concern, as defined in this section;

(b) A person who is on felony probation or community control for any offense committed on or after the effective date of this act and who is arrested for a qualifying offense as defined in this section; or

(2) If the probationer or offender is required to register as a sexual predator under s. 775.21 or as a sexual offender under s. 943.0435 or s. 944.607 for unlawful sexual activity involving a victim 15 years of age or younger and the probationer or offender is 18 years of age or older and has violated the conditions of his or her probation or community control, but the court does not revoke the probation or community control, the court shall nevertheless modify the probation or community control to include electronic monitoring for any probationer or offender not then subject to electronic monitoring.

fender treatment is needed and recommends treatment, the probationer or community controllee must successfully complete and pay for the treatment. Such treatment must be obtained from a qualified practitioner as defined in s. 948.001. Treatment may not be administered by a qualified practitioner who has been convicted or adjudicated delinquent of committing, or attempting, soliciting, or conspiring to commit, any offense that is listed in s. 943.0435(1)(h)1.a.(I).

Section 29. For the purpose of incorporating the amendment made by this act to section 943.0435, Florida Statutes, in a reference thereto, paragraph (b) of subsection (6) of section 985.04, Florida Statutes, is reenacted to read:

A sexual offender who fails to comply with the requirements of s. 943.0435 is subject to the penalties provided in s. 943.0435(9).

(10)

(c) An arrest on charges of failure to register when the offender has been provided and advised of his or her statutory obligations to register under s. 943.0435(2), the service of an information or a complaint for a violation of this section, or an arraignment on charges for a violation of this section constitutes actual notice of the duty to register. A sexual offender's failure to immediately register as required by this section following such arrest, service, or arraignment constitutes grounds for a subsequent charge of failure to register. A sexual offender charged with the crime of failure to register who asserts, or intends to assert, a lack of notice of the duty to register as a defense to a charge of failure to register shall immediately register as required by this section. A sexual offender who is charged with a subsequent failure to register may not assert the defense of a lack of notice of the duty to register.

PRAYER

The following prayer was offered by Very Reverend John B. Cayer, Co-Cathedral of St. Thomas More, Tallahassee:

God ever faithful, you are the beginning and end of all good things. It is to you that we, once again, turn and ask with all sincerity to help us, as we strive to lead our great State of Florida and complete the task ahead. You have given us tremendous abilities to lead and govern, but we turn to you now as we begin, once again, another session. Our discerning eyes look diligently to the work before us, but we also know your eyes see clearly what must be done in this diverse State of Florida.

These collective elected public servants and members of this Legislature stand before you and one another in the hopes that what they do together matters and that great things are possible. Their love for this great state shines through their fervent dedication. We ask that you search their hearts and minds. Allow them to see the dignity of their office and inspire in them the pursuit of greatness. We are mindful of so many of them who gather locally and those who join us from their home districts. Watch over them, especially those who are away from their loved ones. Give them eyes to see and ears to hear. Grant them dis-

cerning minds and hearts while also the energy enough to do all that is asked of them. As we soon see our legislative days come to a close, let not their hearts or hands grow weary nor their feet stumble in these remaining legislative days.

With all our asking, we also thank you. Thank you for the faithfulness of the many who daily dedicate their lives for a better tomorrow and a better Florida—faithful citizens that love even beyond the boundaries of their respective districts.

As we begin this session, continuing to work on things that matter, with high hopes of doing great things for this beautiful state of ours, may we also conclude it with knowing we were faithful and respectful of one another. We pray to you who are Lord and God, forever and ever. Amen.

PLEDGE

Senator Cruz led the Senate in the Pledge of Allegiance to the flag of the United States of America.

The business may have additional remote employees that do not work at the residential dwelling.*

(b) *Parking related to the business activities of the home-based business complies with local zoning requirements and the need for parking generated by the business may not be greater in volume than would normally be expected at a similar residence where no business is conducted. Local governments may regulate the use of vehicles or trailers operated or parked at the business or on a street right-of-way, provided that such regulations are not more stringent than those for a residence where no business is conducted. Vehicles and trailers used in connection with the business must be parked in legal parking spaces that are not located within the right-of-way, on or over a sidewalk, or on any unimproved surfaces at the residence. Local governments may regulate the parking or storage of heavy equipment at the business which is visible from the street or neighboring property. For purposes of this paragraph, the term “heavy equipment” means commercial, industrial, or agricultural vehicles, equipment, or machinery.*

(c) *As viewed from the street, the use of the residential property is consistent with the uses of the residential areas that surround the property. The home-based business may not conduct retail transactions at a structure other than the residential dwelling; however, incidental business uses and activities may be conducted at the residential property.*

(d) *The activities of the home-based business are secondary to the property’s use as a residential dwelling.*

(e) *The business activities comply with any relevant local or state regulations with respect to signage and equipment or processes that create noise, vibration, heat, smoke, dust, glare, fumes, or noxious odors. (f) *All business activities comply with any relevant local, state, and federal regulations with respect to the use, storage, or disposal of any corrosive, combustible, or other hazardous or flammable materials or liquids. Any local regulations on a business with respect to the use, storage, or disposal of any corrosive, combustible, or other hazardous or flammable materials or liquids may not be more stringent than those that apply to a residence where no business is conducted.*

(2) *A home-based business that operates from a residential property as provided in subsection (1):*

(3) *Local governments may not enact or enforce any ordinance, regulation, or policy or take any action to license or otherwise regulate a home-based business in violation of this section.*

(4) *Any adversely affected current or prospective home-based business owner may challenge any local government action in violation of this section. The prevailing party in a challenge may recover reasonable attorney fees and costs incurred in challenging or defending the action, including reasonable appellate attorney fees and costs.*

Section 3. This act shall take effect July 1, 2021.

And the title is amended as follows:

Pursuant to Rule 7.1, there being no objection, consideration of the following late-filed amendment was allowed:

Senator Perry moved the following substitute amendment which was adopted:

Substitute Amendment 2 (355386) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 559.955, Florida Statutes, is created to read:

559.955 Home-based businesses; legislative findings and intent; preemption.—

(1) It is the intent of the Legislature to encourage small and home-based business enterprises. To that end, the Legislature finds that:

(a) Small and home-based businesses are a critical part of the economy of this state and provide unique and valuable benefits to the communities in which they are located.

(b) Residential property is often the most valuable asset owned by a potential small business entrepreneur.

(c) Residential property can be put to beneficial use by potential small business entrepreneurs in ways that are consistent with residential use.

(2)(a) For purposes of this section, a business is considered a home-based business if:

1. The business is subordinate to the use of the dwelling unit for residential purposes. External modifications made to a residential dwelling to accommodate a home-based business must conform to the residential character and architectural aesthetics of the neighborhood; and

2. The business activities comply with any local or state regulations with respect to signage and equipment or processes that create noise, vibration, heat, smoke, dust, glare, fumes, or noxious odors.

(b) A home-based business must meet all of the following requirements:

1. The employees of the business who work at the residential dwelling must also reside in the residential dwelling, except that up to a total of two employees or independent contractors who do not reside at the residential dwelling may work at the business.

2. Traffic and the need for parking generated by the business may not be greater in volume than would normally be expected at a similar residence where no business is conducted. Local governments may regulate the use of vehicles or trailers operated or parked at the business or on a street right-of-way, provided that such regulations are not more stringent than those for a residence where no business is conducted. Vehicles and trailers used in connection with the business must be parked in legal parking spaces that are not located within the right-of-way, on or over a sidewalk, or on any unimproved surfaces at the residence. Local governments may regulate the parking or storage of heavy equipment at the business which is visible from the street or neighboring property. For purposes of this subparagraph, the term “heavy equipment” means commercial, industrial, or agricultural vehicles, equipment, or machinery. The term includes, but is not limited to, semi-trailers, tractors, construction equipment, earth-moving equipment, cement mixers, and any other similar equipment or machinery classified as commercial by the manufacturer.

3. Business activities related to hours of operation and business activities conducted outside of the primary residential structure, including exterior signage displays or exterior storage, must comply with all local

regulations. However, a local government may not impose any restriction on hours of operation between 9 a.m. and 6 p.m.

4. The activities of the business must be secondary to the property’s use as a residential dwelling.

5. All business activities must comply with any local, state, and federal regulations with respect to the use, storage, or disposal of any corrosive, combustible, or other hazardous or flammable materials or liquids. (a) Provide a clear and conspicuous link on the controller's Internet home page, titled "Do Not Sell My Personal Information," to a web page that enables a consumer to opt out of the sale of the consumer's personal information. A business may not require a consumer to create an account in order to direct the business not to sell the consumer's information.

(b) Ensure that all individuals responsible for handling consumer inquiries about the controller's privacy practices or the controller's compliance with this section are informed of all requirements of this section and how to direct consumers to exercise their rights.

(f) Comply with a legal obligation.

(7) Consumers have the right to submit a verified request that personal information that has been collected from the consumer be deleted. Consumers have the right to submit a verified request for correction of their personal information held by a controller if that information is inaccurate, taking into account the nature of the personal information and the purpose for processing the consumer's personal information.

(8) This section may not be construed to require a controller to comply by reidentifying or otherwise linking information that is not maintained in a manner that would be considered personal information; retaining any personal information about a consumer if, in the ordinary course of business, that information would not be retained; maintaining information in identifiable, linkable, or associable form; or collecting, obtaining, retaining, or accessing any data or technology in order to be capable of linking or associating a verifiable consumer request with personal information.

(11)(a) A controller that receives a verified request:

The time period required for a controller to comply with a verified request as provided in paragraph (d) commences beginning from the time the processor notifies the controller of the verified request. A processor shall provide reasonable assistance to a controller with which it has a contractual relationship with respect to the controller's response to a verifiable consumer request, including, but not limited to, by providing to the controller the consumer's personal information in the processor's possession which the processor obtained as a result of providing services to the controller.

A controller may extend such period by up to 45 days if the controller, in good faith, determines that such an extension is reasonably necessary. A controller that extends the period shall notify the consumer of the necessity of an extension.

(e) A consumer's rights under this subsection do not apply to pseudonymous information in cases where the controller is able to demonstrate that all information necessary to identify the consumer is kept separate at all times and is subject to effective technical and organizational controls that prevent the controller from accessing or combining such information.

(12) A controller shall comply with a consumer's previous expressed decision to opt out of the sale of his or her personal information without requiring the consumer to take any additional action if the controller is able to identify the consumer through a login protocol or any other process the controller uses to identify consumers and the consumer has previously exercised his or her right to opt out of the sale of his or her personal information.

(13) A controller shall make available, in a manner reasonably accessible to consumers whose personal information the controller collects through its website or online service, a notice that does all of the following:

(a) Identifies the categories of personal information that the controller collects through its website or online service about consumers who use or visit the website or online service and the categories of third parties to whom the controller may disclose such personal information.

(b) Provides a description of the process, if applicable, for a consumer who uses or visits the website or online service to review and request changes to any of his or her personal information that is collected from the consumer through the website or online service.

(c) Describes the process by which the controller notifies consumers who use or visit the website or online service of material changes to the notice.

(d) Discloses whether a third party may collect personal information about a consumer's online activities over time and across different websites or online services when the consumer uses the controller's website or online service.

(e) States the effective date of the notice.

(14) If a request from a consumer is manifestly unfounded or excessive, in particular because of the request's repetitive character, a controller may either charge a reasonable fee, taking into account the administrative costs of providing the information or communication or taking the action requested, or refuse to act on the request and notify the consumer of the reason for refusing the request. The controller bears the burden of demonstrating that any verified consumer request is manifestly unfounded or excessive.

(15) A controller that discloses personal information to a processor is not liable under this act if the processor receiving the personal information uses it in violation of the restrictions set forth in the act, provided that, at the time of disclosing the personal information, the controller does not have actual knowledge or reason to believe that the processor intends to commit such a violation. A processor is likewise not liable under this act for the obligations of a controller for which it processes personal information as set forth in this act.

(16) A controller or processor that discloses personal information to a third-party controller or processor in compliance with the requirements of this act is not in violation of this chapter if the third-party controller or processor that receives and processes such personal information is in violation of this act, provided that, at the time of disclosing the personal information, the disclosing controller or processor did not have actual knowledge that the recipient intended to commit a violation. A third-party controller or processor that violates this act, or violates the terms of a contractual agreement with a controller or processor which results in a violation of this act, is deemed to have violated the requirements of this act and is subject to the enforcement actions otherwise provided against a controller pursuant to s. 501.177. A third-party controller or processor receiving personal information from a controller or processor in compliance with the requirements of this act is not in violation of this act for noncompliance of the controller or processor from which it receives such personal data.

(17) The rights afforded to consumers and the obligations imposed on a controller in this act may not adversely affect the rights and freedoms of other consumers. Notwithstanding subsection (6), a verified request for specific items of personal information, to delete a consumer's personal information, or to correct inaccurate personal information does not extend to personal information about the consumer which belongs to, or which the controller maintains on behalf of, another natural person.

Section 6. Section 501.176, Florida Statutes, is created to read:

501.176 Applicability; exclusions.—

Perform internal operations that are reasonably aligned with the expectations of the consumer or reasonably anticipated based on the consumer's existing relationship with the controller or are otherwise compatible with processing data in furtherance of the provision of a product or service specifically requested by a consumer or a parent of a child, or the performance of a contract to which the consumer is a party;
 5. Provide a product or service specifically requested by a consumer or a parent of a child; perform a contract to which the consumer or parent is a party, including fulfilling the terms of a written warranty; or take steps at the request of the consumer before entering into a contract;

 7. Prevent, detect, protect against, or respond to security incidents, identity theft, fraud, harassment, malicious or deceptive activities, or any illegal activity, and prosecute those responsible for that activity;
 8. Preserve the integrity or security of information technology systems;

9. Investigate, report, or prosecute those responsible for any illegal, malicious, harmful, deceptive, or otherwise harmful activities;

10. Engage in public or peer-reviewed scientific or statistical research in the public interest that adheres to all other applicable ethics and privacy laws and, if applicable, is approved, monitored, and governed by an institutional review board, or similar independent oversight entity that determines if the information is likely to provide substantial benefits that do not exclusively accrue to the controller, if the expected benefits of the research outweigh the privacy risks, and if the controller has implemented reasonable safeguards to mitigate privacy risks associated with research, including any risks associated with reidentification; or

11. Assist another controller, processor, or third party with any of the obligations under this subsection.

(2) This act does not apply to any of the following:

(q) Vehicle information or ownership information retained or shared between a new motor vehicle dealer, distributor, or the vehicle's manufacturer if the vehicle or ownership information is shared for the purpose of effectuating, or in anticipation of effectuating, a vehicle repair covered by a vehicle warranty or a recall conducted pursuant to 49 U.S.C. s. 30118-30120, provided that the new motor vehicle dealer, distributor, or vehicle manufacturer with which that vehicle information or ownership information is shared does not sell, share, or use that information for any other purpose. As used in this paragraph, the term "vehicle information" means the vehicle identification number, make, model, year, and odometer reading, and the term "ownership information" means the name or names of the registered owner or owners and the contact information for the owner or owners.

501.177 *Enforcement; Attorney General; preemption.*—

The Attorney General may consider the number of violations, the substantial likelihood of injury to the public, or the safety of persons or property when determining whether to grant 30 days to cure an alleged violation. If the controller cures the alleged violation to the satisfaction of the Attorney General and provides proof of such cure to the Attorney General, the

Attorney General may either extend the cure period or issue a letter of guidance to the controller which indicates that the controller will not be offered a 30-day cure period for any future violations. If the controller fails to cure the violation within 30 days, the Attorney General may bring an action against the controller for the alleged violation.

(3) The trial court, upon a showing that any controller, processor, or other person or entity is in violation of this act, may take any of the following actions:

(5) Any reference to federal law or statute in this act shall be deemed to include any accompanying rules or regulations or exemptions thereto. Further, this enactment is declaratory of existing law.

(6) Consumers have the right to submit a verified request that personal information that has been collected from the consumer be deleted. Consumers have the right to submit a verified request for correction of their personal information held by a controller if that information is inaccurate, taking into account the nature of the personal information and the purpose for processing the consumer's personal information.

(7) A controller, or a processor acting pursuant to its contract with the controller or another processor, is not required to comply with a consumer's verified request to delete the consumer's personal information if it is necessary for the controller or processor to maintain the consumer's personal information in order to do any of the following:

(8) This section may not be construed to require a controller to comply by reidentifying or otherwise linking information that is not maintained in a manner that would be considered personal information; retaining any personal information about a consumer if, in the ordinary course of business, that information would not be retained; maintaining information in identifiable, linkable, or associable form; or collecting, obtaining, retaining, or accessing any data or technology in order to be capable of linking or associating a verifiable consumer request with personal information.

(9) A consumer may authorize another person to opt out of the sale of the consumer's personal information. A controller shall comply with an opt-out request received from a person authorized by the consumer to act on the consumer's behalf, including a request received through a user-enabled global privacy control, such as a browser plug-in or privacy setting, device setting, or other mechanism, which communicates or signals the consumer's choice to opt out, and may not require a consumer to make a verified request to opt out of the sale of his or her information.

(10) Each controller shall establish a designated request address through which a consumer may submit a request to exercise his or her rights under this act.

(11)(a) A controller that receives a verified request:

A processor shall provide reasonable assistance to a controller with which it has a contractual relationship with respect to the controller's response to a verifiable consumer request, including, but not limited to, by providing to the controller the consumer's personal information in the processor's possession which the processor obtained as a result of providing services to the controller.

(c) At the direction of the controller, a processor shall correct inaccurate personal information or delete personal information, or enable the controller to do the same.

(d) A controller shall comply with a verified request submitted by a consumer to access, correct, or delete personal information within 45 days after the date the request is submitted. A controller may extend such period by up to 45 days if the controller, in good faith, determines that such an extension is reasonably necessary. A controller that extends the period shall notify the consumer of the necessity of an extension.

(e) A consumer's rights under this subsection do not apply to pseudonymous information in cases where the controller is able to demonstrate that all information necessary to identify the consumer is kept separate at all times and is subject to effective technical and organizational controls that prevent the controller from accessing or combining such information.

(12) A controller shall comply with a consumer's previous expressed decision to opt out of the sale of his or her personal information without requiring the consumer to take any additional action if the controller is able to identify the consumer through a login protocol or any other process the controller uses to identify consumers and the consumer has previously exercised his or her right to opt out of the sale of his or her personal information.

(13) A controller shall make available, in a manner reasonably accessible to consumers whose personal information the controller collects through its website or online service, a notice that does all of the following:

(a) Identifies the categories of personal information that the controller collects through its website or online service about consumers who use or visit the website or online service and the categories of third parties to whom the controller may disclose such personal information.

(b) Provides a description of the process, if applicable, for a consumer who uses or visits the website or online service to review and request changes to any of his or her personal information that is collected from the consumer through the website or online service.

(c) Describes the process by which the controller notifies consumers who use or visit the website or online service of material changes to the notice.

(d) Discloses whether a third party may collect personal information about a consumer's online activities over time and across different websites or online services when the consumer uses the controller's website or online service.

(e) States the effective date of the notice.

(14) If a request from a consumer is manifestly unfounded or excessive, in particular because of the request's repetitive character, a controller may either charge a reasonable fee, taking into account the administrative costs of providing the information or communication or taking the action requested, or refuse to act on the request and notify the consumer of the reason for refusing the request. The controller bears the burden of demonstrating that any verified consumer request is manifestly unfounded or excessive.

(15) A controller that discloses personal information to a processor is not liable under this act if the processor receiving the personal in-

formation uses it in violation of the restrictions set forth in the act, provided that, at the time of disclosing the personal information, the controller does not have actual knowledge or reason to believe that the processor intends to commit such a violation. A processor is likewise not liable under this act for the obligations of a controller for which it processes personal information as set forth in this act.

(16) A controller or processor that discloses personal information to a third-party controller or processor in compliance with the requirements of this act is not in violation of this chapter if the third-party controller or processor that receives and processes such personal information is in violation of this act, provided that, at the time of disclosing the personal information, the disclosing controller or processor did not have actual knowledge that the recipient intended to commit a violation. A third-party controller or processor that violates this act, or violates the terms of a contractual agreement with a controller or processor which results in a violation of this act, is deemed to have violated the requirements of this act and is subject to the enforcement actions otherwise provided against a controller pursuant to s. 501.177. A third-party controller or processor receiving personal information from a controller or processor in compliance with the requirements of this act is not in violation of this act for noncompliance of the controller or processor from which it receives such personal data.

(17) The rights afforded to consumers and the obligations imposed on a controller in this act may not adversely affect the rights and freedoms of other consumers. Notwithstanding subsection (7), a verified request for specific items of

—a companion measure, was substituted for **SB 7064** and read the second time by title.

Senator Bradley moved the following amendment which was adopted:

Amendment 1 (436096) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Subsection (6) is added to section 501.177, Florida Statutes, as created by HB 969, 2021 Regular Session, to read:

501.177 Enforcement; Attorney General; preemption.—

(6)(a) All information received by the department pursuant to a notification of a violation under this act, or received by the department pursuant to an investigation by the department or a law enforcement agency of a violation of this act, is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution until such time as

the investigation is completed or ceases to be active. This exemption shall be construed in conformity with s. 119.071(2)(c).

(b) During an active investigation, information made confidential and exempt pursuant to paragraph (a) may be disclosed by the department:

1. In the furtherance of official duties and responsibilities;

2. For print, publication, or broadcast if the department determines that such release would assist in notifying the public or locating or identifying a person the department believes to be a victim of improper use or disposal of customer records, except that information made confidential and exempt by paragraph (c) may not be released pursuant to this subparagraph; or

3. To another governmental entity in the furtherance of its official duties and responsibilities.

(c) Upon completion of an investigation or once an investigation ceases to be active, all of the following information received by the department remains confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

1. All information to which another public records exemption applies.

2. Personal information.

3. A computer forensic report.

4. Information that would otherwise reveal weaknesses in a controller's, processor's, or person's data security.

5. Information that would disclose a controller's, processor's, or person's proprietary information.

(d) For purposes of this subsection, the term “proprietary information”:

1. Means information that:

a. Is owned or controlled by the controller, processor, or person.

b. Is intended to be private and is treated by the controller, processor, or person as private because disclosure would harm the controller, processor, or person or its business operations.

c. Has not been disclosed except as required by law or a private agreement that provides that the information will not be released to the public.

d. Is not publicly available or otherwise readily ascertainable through proper means from another source in the same configuration as received by the department.

2. Includes:

a. Trade secrets as defined in s. 688.002.

b. Competitive interests, the disclosure of which would impair the competitive business of the controller, processor, or person who is the subject of the information.

(e) This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2028, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. The Legislature finds that it is a public necessity that all information received by the Department of Legal Affairs pursuant to a notification of a violation of this act, or received by the department pursuant to an investigation by the department or a law enforcement agency of a violation of this act, be made confidential and exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution for the following reasons:

(1) A notification of a violation of this act may result in an investigation of such violation. The premature release of such information could frustrate or thwart the investigation and impair the ability of the

department to effectively and efficiently administer its duties pursuant to s. 501.177, Florida Statutes. In addition, release of such information before completion of an active investigation could jeopardize the ongoing investigation.

(2) The Legislature finds that it is a public necessity to continue to protect from public disclosure all information to which another public records exemption applies once an investigation is completed or ceases to be active. Release of such information by the department would undo the specific statutory exemption protecting that information.

(3) An investigation of a violation of this act is likely to result in the gathering of sensitive personal information, including social security numbers, identification numbers, and personal financial information. Such information could be used for the purpose of identity theft. In addition, release of such information could subject possible victims of data privacy violations to further harm.

(4) Notices received by the department and information received during an investigation of a violation of this act are likely to contain proprietary information, including trade secrets, about the security of the system. The release of the proprietary information could result in the identification of the system's vulnerabilities, which could ultimately lead to the improper access of personal information. In addition, a trade secret derives independent, economic value, actual or potential, from being generally unknown to, and not readily ascertainable by, other persons who might obtain economic value from its disclosure or use. Allowing public access to proprietary information, including a trade secret, through a public records request could destroy the value of the proprietary information and cause a financial loss to the controller, processor, or person submitting the information. Release of such information could weaken the position of the entity supplying the proprietary information in the marketplace.

Section 3. This act shall take effect on the same date that HB 969 or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes a law.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to public records; amending s. 501.177, F.S.; providing an exemption from public records requirements for information relating to investigations by the Department of Legal Affairs and law enforcement agencies of certain data privacy violations; providing that certain information may be disclosed by the department during active investigations for specified purposes; defining the term "proprietary information"; providing for future legislative review and repeal of the exemption; providing a statement of public necessity; providing a contingent effective date.

Pursuant to Rule 4.19, CS for CS for HB 971, as amended, was placed on the calendar of Bills on Third Reading.

CS for HB 1055—A bill to be entitled An act relating to public records; creating s. 688.01, F.S.; providing definitions; providing an exemption from public records requirements for a trade secret held by an agency; providing notice requirements; providing an exception to the exemption; providing that an agency employee is not liable for the release of certain records; providing for future legislative review and repeal of the exemption; amending ss. 688.001 and 688.006, F.S.; conforming cross-references; providing a statement of public necessity; providing an effective date.

—was read the second time by title.

Senator Baxley offered the following amendment which was moved by Senator Boyd and adopted:

Amendment 1 (418456) (with title amendment)—Delete everything after the enacting clause and insert:

119.0715 Trade secrets held by an agency.—

(1) "Trade secret" has the same meaning as in s. 688.002.

(2) **PUBLIC RECORD EXEMPTION.**—A trade secret held by an agency is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(3) **AGENCY ACCESS.**—An agency may disclose a trade secret to an officer or employee of another agency or governmental entity whose use of the trade secret is within the scope of his or her lawful duties and responsibilities.

(4) **LIABILITY.**—An agency employee who, while acting in good faith and in the performance of his or her duties, releases a record containing a trade secret pursuant to this chapter is not liable, civilly or criminally, for such release.

(5) **OPEN GOVERNMENT SUNSET REVIEW.**—This section is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2026, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. The Legislature finds that it is a public necessity that trade secrets held by an agency be made confidential and exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution. The Legislature recognizes that an agency may create trade secret information in furtherance of the agency's duties and responsibilities and that disclosure of such information would be detrimental to the effective and efficient operation of the agency. If such trade secret information were made available to the public, the agency could suffer great economic harm. In addition, the Legislature recognizes that in many instances, individuals and businesses provide trade secret information for regulatory or other purposes to an agency and that disclosure of such information to competitors of those businesses would be detrimental to the businesses. Without the public record exemption, those entities would hesitate to cooperate with an agency, which would impair the effective and efficient administration of governmental functions. As such, the Legislature's intent is to protect trade secret information of a confidential nature that includes a formula, pattern, compilation, program, device, method, technique, or process used that derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use. Therefore, the Legislature finds that the need to protect trade secrets is sufficiently compelling to override this state's public policy of open government and that the protection of such information cannot be accomplished without this exemption.

Section 3. This act shall take effect upon becoming a law.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to public records; creating s. 119.0715, F.S.; providing an exemption from public records requirements for a trade secret held by an agency; providing that an agency employee is not liable for the release of certain records; providing for future legislative review and repeal of the exemption; providing a statement of public necessity; providing an effective date.

Failure by a licensee to meet the required percentage of food and nonalcoholic beverage gross revenues during the covered operating period shall result in revocation of the license or denial of the pending license application. A licensee whose license is revoked or an applicant whose pending application is denied, or any person required to qualify on the special license application, is ineligible to have any interest in a subsequent application for such a license for a period of 120 days after the date of the final denial or revocation;

5. e. The sponsor shall ensure that the charter is innovative and consistent with the state education goals established by s. 1000.03(5).

(III) The department shall compile an annual report, by ~~sponsor district~~, and post the report on its website by ~~January 15 November 1~~ of each year.

2. Immunity for the sponsor of a charter school under subparagraph 1. applies only with respect to acts or omissions not under the sponsor's direct authority as described in this section.

3. This paragraph does not waive a sponsor's ~~district school board's~~ sovereign immunity.

4. A Florida College System institution may work with the school district or school districts in its designated service area to develop charter schools that offer secondary education. These charter schools must include an option for students to receive an associate degree upon high school graduation. If a Florida College System institution operates an approved teacher preparation program under s. 1004.04 or s. 1004.85, the institution may operate ~~no more than one charter schools~~ school that ~~serve~~ serves students in kindergarten through grade 12 in any school district within the service area of the institution. ~~In kindergarten through grade 8, the charter school shall implement innovative blended learning instructional models in which, for a given course, a student learns in part through online delivery of content and instruction with some element of student control over time, place, path, or pace and in part at a supervised brick and mortar location away from home. 5. *For purposes of assisting the development of a charter school*, a school district may enter into nonexclusive interlocal agreements with federal and state agencies, counties, municipalities, and other governmental entities that operate within the geographical borders of the school district to act on behalf of such governmental entities in the inspection, issuance, and other necessary activities for all necessary permits, licenses, and other permissions that a charter school needs in order for development, construction, or operation. A charter school may use, but may not be required to use, a school district for these services. The interlocal agreement must include, but need not be limited to, the identification of fees that charter schools will be charged for such services. The fees must consist of the governmental entity's fees plus a fee for the school district to recover no more than actual costs for providing such services. These services and fees are not included within the services to be provided pursuant to subsection (20). *Notwithstanding any other provision of law, an interlocal agreement between a school district and a federal or state agency, county, municipality, or other governmental entity that prohibits or limits the creation of a charter school within the geographical borders of the school district is void and unenforceable.*

6. *The board of trustees of a sponsoring state university or Florida College System institution under paragraph (a) is the local educational agency for all charter schools it sponsors for purposes of receiving federal funds and accepts full responsibility for all local educational agency requirements and the schools for which it will perform local educational agency responsibilities. A student enrolled in a charter school that is sponsored by a state university or Florida College System institution may not be included in the calculation of the school district's grade under s. 1008.34(5) for the school district in which he or she resides.*

(c) *Sponsor accountability.—*

a. *The sponsor's strategic vision for charter school authorizing and the sponsor's progress toward that vision.*

b. *The alignment of the sponsor's policies and practices to best practices for charter school authorizing.*

c. *The academic and financial performance of all operating charter schools overseen by the sponsor.*

d. *The status of charter schools authorized by the sponsor, including approved, operating, and closed schools.*

2. *The department shall compile the results, by sponsor, and include the results in the report required under sub-sub-subparagraph (b) 1.k.(III).*

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. ~~A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, A sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time determined by the applicant. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.~~

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application of a high-performing charter school does not materially comply with the requirements in paragraph (a) or, for a high-performing charter school system, the application does not materially comply with s. 1002.332(2)(b);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. ~~Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted.~~ A charter school may defer the opening of the school's operations for up to 3 years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(d)1. The sponsor shall act upon the decision of the State Board of Education within 30 calendar days after it is received. The State Board of Education's decision is a final action subject to judicial review in the district court of appeal. *A prevailing party may file an action with the Division of Administrative Hearings to recover reasonable attorney fees and costs incurred during the denial of the application and any appeals.*

2. *A school district that fails to implement the decision affirmed by a district court of appeal shall reduce the administrative fees withheld pursuant to subsection (20) to 1 percent for all charter schools operating in the school district. Such school districts shall file a monthly report detailing the reduction in the amount of administrative fees withheld. Upon execution of the charter, the sponsor may resume withholding the full amount of administrative fees but may not recover any fees that would have otherwise accrued during the period of noncompliance. Any charter school that had administrative fees withheld in violation of this paragraph may recover attorney fees and costs to enforce the requirements of this paragraph.*

(7) CHARTER.—The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor and the governing board of the charter school shall use the standard charter contract pursuant to subsection (21), which shall incorporate the approved application and any addenda approved with the application. Any term or condition of a proposed charter contract that differs from the standard charter contract adopted by rule of the State Board of Education shall be presumed a limitation on charter school flexibility. The sponsor may not impose unreasonable rules or regulations that violate the intent of giving charter schools greater flexibility to meet educational goals. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. The initial term of a charter shall be for 5 years, excluding 2 planning years. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the ~~sponsor district school board~~. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the ~~sponsor district school board~~. The administrative law judge has final order authority to rule on issues of equitable treatment of the charter school as a public school, whether proposed provisions of the charter violate the intended flexibility granted charter schools by statute, or any other matter regarding this section, except a dispute regarding charter school application denial, a charter termination, or a charter nonrenewal. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals, to be paid by the party whom the administrative law judge rules against.

(d) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both parties to the agreement. *Changes to curriculum that are consistent with state standards shall be deemed approved unless the sponsor and the Department of Education determines in writing that the curriculum is inconsistent with state standards.* Modification during any term may include, but is not limited to, consolidation of multiple charters into a single charter if the charters are operated under the same governing board, regardless of the renewal cycle. A charter school that is not subject to a school improvement plan and that closes as part of a consolidation shall be reported by the ~~sponsor school district~~ as a consolidation.

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(c) A charter may be terminated immediately if the sponsor sets forth in writing the particular facts and circumstances ~~demonstrating~~ ~~indicating~~ that an immediate and serious danger to the health, safety, or welfare of the charter school's students exists, *that the immediate and serious danger is likely to continue, and that an immediate termination of the charter is necessary.* The sponsor's determination is subject to the procedures set forth in paragraph (b), except that the hearing may take place after the charter has been terminated. The sponsor shall notify in writing the charter school's governing board, the charter school principal, and the department *of the facts and circumstances supporting the immediate termination if a charter is terminated immediately.* The sponsor shall clearly identify the specific issues that resulted in the immediate termination and provide evidence of prior notification of issues resulting in the immediate termination, *if applicable when appropriate.* Upon receiving written notice from the sponsor, the charter school's governing board has 10 calendar days to request a hearing. A requested hearing must be expedited and the final order must be issued

within 60 days after the date of request. *The administrative law judge shall award reasonable attorney fees and costs to the prevailing party of any injunction, administrative proceeding, or appeal.* The sponsor may seek an injunction in the circuit court in which the charter school is located to enjoin continued operation of the charter school if ~~shall assume operation of the charter school throughout the pendency of the hearing under paragraph (b) unless the continued operation of the charter school would materially threaten the health, safety, or welfare of the students. (d) When a charter is not renewed or is terminated, the school shall be dissolved under the provisions of law under which the school was organized, and any unencumbered public funds, except for capital outlay funds and federal charter school program grant funds, from the charter school shall revert to the sponsor. Any unencumbered public funds from the charter school, ~~district school board~~ property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the charter school, in the possession of any person, entity, or holding company, other than the charter school, shall be held in trust upon the ~~sponsor's district school board's~~ request, until any appeal status is resolved.

(e) If a charter is not renewed or is terminated, the charter school is responsible for all debts of the charter school. The ~~sponsor district~~ may not assume the debt from any contract made between the governing body of the school and a third party, except for a debt that is previously detailed and agreed upon in writing by both the ~~sponsor district~~ and the governing body of the school and that may not reasonably be assumed to have been satisfied by the ~~sponsor district~~.

(9) CHARTER SCHOOL REQUIREMENTS.—

(g)1. In order to provide financial information that is comparable to that reported for other public schools, charter schools are to maintain all financial records that constitute their accounting system:

a. In accordance with the accounts and codes prescribed in the most recent issuance of the publication titled "Financial and Program Cost Accounting and Reporting for Florida Schools"; or

A high-performing charter school pursuant to s. 1002.331 may provide a quarterly financial statement in the same format and requirements as the uniform monthly financial statement summary sheet. The sponsor shall review each monthly or quarterly financial statement to identify the existence of any conditions identified in s. 1002.345(1)(a).

The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 4.

e. A charter school implementing a corrective action that does not improve to a "C" or higher after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve to a "C" or higher if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 3.

3. A charter school's charter contract is automatically terminated if the school earns two consecutive grades of "F" after all school grade appeals are final unless:

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department's official release of school grades. The state board may

waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby ~~district~~ public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-sub-paragraph.

In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the *sponsor* ~~district school board~~. A charter lab school is eligible for a charter for a term of up to 15 years. The proposed charter contract shall be provided to the charter school at least 7 calendar days before the date of the meeting at which the charter is scheduled to be voted upon by the sponsor. The Department of Education shall provide mediation services for any dispute regarding this section subsequent to the approval of a charter application and for any dispute relating to the approved charter, except a dispute regarding a charter school application denial. *If either the charter school or the sponsor indicates in writing that the party does not desire to settle any dispute arising under this section through mediation procedures offered by the Department of Education, a charter school may immediately appeal any formal or informal decision by the sponsor to an administrative law judge appointed by the Division of Administrative Hearings.* If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may also be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on issues of equitable treatment of the charter school as a public school, whether proposed provisions of the charter violate the intended flexibility granted charter schools by statute, or any other matter regarding this section, except a dispute regarding charter school application denial, a charter termination, or a charter nonrenewal. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals, to be paid by the party whom the administrative law judge rules against.

(d) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both parties to the agreement. *Changes to curriculum which are consistent with state standards shall be deemed approved unless the sponsor and the Department of Education determine in writing that the curriculum is inconsistent with state standards.* Modification during any term may include, but is not limited to, consolidation of multiple charters into a single charter if the charters are operated under the same governing board, regardless of the renewal cycle. A charter school that is not subject to a school improvement plan and that closes as part of a consolidation shall be reported by the sponsor ~~school district~~ as a consolidation.

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(c) A charter may be terminated immediately if the sponsor sets forth in writing the particular facts and circumstances *demonstrating indicating* that an immediate and serious danger to the health, safety, or welfare of the charter school's students exists, *that the immediate and serious danger is likely to continue, and that an immediate termination of the charter is necessary.* The sponsor's determination is subject to the procedures set forth in paragraph (b), except that the hearing may take place after the charter has been terminated. The sponsor shall notify in writing the charter school's governing board, the charter school principal, and the department *of the facts and circumstances supporting the immediate termination if a charter is terminated immediately.* The sponsor shall clearly identify the specific issues that resulted in the immediate termination and provide evidence of prior notification of issues resulting in the immediate termination, *if applicable when appropriate.* Upon receiving written notice from the sponsor, the charter school's governing board has 10 calendar days to request a hearing. A requested hearing must be expedited and the final order must be issued within 60 days after the date of request. *The administrative law judge shall award reasonable attorney fees and costs to the prevailing party of any injunction, administrative proceeding, or appeal.* The sponsor may seek an injunction in the circuit court in which the charter school is located to enjoin continued operation of the charter school if ~~shall assume operation of the charter school throughout the pendency of the hearing under paragraph (b) unless the continued operation of the charter school would materially threaten the health, safety, or welfare of the students. Failure by the sponsor to assume and continue operation of the charter school shall result in the awarding of reasonable costs and attorney's fees to the charter school if the charter school prevails on appeal.~~

(d) When a charter is not renewed or is terminated, the school shall be dissolved under the provisions of law under which the school was organized, and any unencumbered public funds, except for capital outlay funds and federal charter school program grant funds, from the charter school shall revert to the sponsor. Capital outlay funds provided pursuant to s. 1013.62 and federal charter school program grant funds

that are unencumbered shall revert to the department to be redistributed among eligible charter schools. In the event a charter school is dissolved or is otherwise terminated, all *sponsor district school board* property and improvements, furnishings, and equipment purchased with public funds shall automatically revert to full ownership by the *sponsor district school board*, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the charter school, *district school board* property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the charter school, in the possession of any person, entity, or holding company, other than the charter school, shall be held in trust upon the *sponsor's district school board's* request, until any appeal status is resolved.

(e) If a charter is not renewed or is terminated, the charter school is responsible for all debts of the charter school. The *sponsor district* may not assume the debt from any contract made between the governing body of the school and a third party, except for a debt that is previously detailed and agreed upon in writing by both the *sponsor district* and the governing body of the school and that may not reasonably be assumed to have been satisfied by the *sponsor district*.

(9) CHARTER SCHOOL REQUIREMENTS.—

(g)1. In order to provide financial information that is comparable to that reported for other public schools, charter schools are to maintain all financial records that constitute their accounting system:

a. In accordance with the accounts and codes prescribed in the most recent issuance of the publication titled "Financial and Program Cost Accounting and Reporting for Florida Schools"; or

b. At the discretion of the charter school's governing board, a charter school may elect to follow generally accepted accounting standards for not-for-profit organizations, but must reformat this information for reporting according to this paragraph.

2. Charter schools shall provide annual financial report and program cost report information in the state-required formats for inclusion in *sponsor district* reporting in compliance with s. 1011.60(1). Charter schools that are operated by a municipality or are a component unit of a parent nonprofit organization may use the accounting system of the municipality or the parent but must reformat this information for reporting according to this paragraph.

3. A charter school shall, upon approval of the charter contract, provide the sponsor with a concise, uniform, monthly financial statement summary sheet that contains a balance sheet and a statement of revenue, expenditures, and changes in fund balance. The balance sheet and the statement of revenue, expenditures, and changes in fund balance shall be in the governmental funds format prescribed by the Governmental Accounting Standards Board. A high-performing charter school pursuant to s. 1002.331 may provide a quarterly financial statement in the same format and requirements as the uniform monthly financial statement summary sheet. The sponsor shall review each monthly or quarterly financial statement to identify the existence of any conditions identified in s. 1002.345(1)(a).

4. A charter school shall maintain and provide financial information as required in this paragraph. The financial statement required in subparagraph 3. must be in a form prescribed by the Department of Education.

The director and a representative of the governing board of a charter school that has earned a grade of "D" or "F" pursuant to s. 1008.34 shall appear before the sponsor to present information concerning each contract component having noted deficiencies. The director and a representative of the governing board shall submit to the sponsor for approval a school improvement plan to raise student performance. Upon approval by the sponsor, the charter school shall begin implementation of the school improvement plan. The department shall offer technical assistance and training to the charter school and its governing board and establish guidelines for developing, submitting, and approving such plans.

2.a. If a charter school earns three consecutive grades below a "C," the charter school governing board shall choose one of the following corrective actions:

(II) Contract with an outside entity that has a demonstrated record of effectiveness to operate the school;

(III) Reorganize the school under a new director or principal who is authorized to hire new staff; or

(IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action in the school year following receipt of a third consecutive grade below a "C."

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is subject to subparagraph 3.

d. A charter school is no longer required to implement a corrective action if it improves to a "C" or higher. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 3.

e. A charter school implementing a corrective action that does not improve to a "C" or higher after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve to a "C" or higher if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 3.

3. A charter school's charter contract is automatically terminated if the school earns two consecutive grades of "F" after all school grade appeals are final unless:

a. The charter school is established to turn around the performance of a district public school pursuant to s. 1008.33(4)(b)2. Such charter schools shall be governed by s. 1008.33;

b. The charter school serves a student population the majority of which resides in a school zone served by a district public school subject to s. 1008.33(4) and the charter school earns at least a grade of "D" in its third year of operation. The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department's official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby district public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

The sponsor shall notify the charter school's governing board, the charter school principal, and the department in writing when a charter contract is terminated under this subparagraph. A charter terminated under this subparagraph must follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o).

4. The director and a representative of the governing board of a graded charter school that has implemented a school improvement plan under this paragraph shall appear before the sponsor at least once a year to present information regarding the progress of intervention and support strategies implemented by the school pursuant to the school improvement plan and corrective actions, if applicable. Total funding for each charter school shall be recalculated during the year to reflect the revised calculations under the Florida Education Finance Program by the state and the actual weighted full-time equivalent students reported by the charter school

during the full-time equivalent student survey periods designated by the Commissioner of Education. For charter schools operated by a not-for-profit or municipal entity, any unrestricted current and capital assets identified in the charter school's annual financial audit may be used for other charter schools operated by the not-for-profit or municipal entity within the school district. student membership of the charter school as submitted in the approved application. If less than 75 percent of the projected enrollment is entered into the sponsor's student information system by the first day of the current month, the sponsor shall base payments on the actual number of student enrollment entered into the sponsor's student information system. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the charter school for the remainder of the fiscal year. The payments shall be issued no later than 10 working days after the ~~sponsor district school board~~ receives a distribution of state or federal funds or the date the payment is due pursuant to this subsection. If a warrant for payment is not issued within 10 working days after receipt of funding by the ~~sponsor district school board~~, the ~~sponsor school district~~ shall pay to the charter school, in addition to the amount of the scheduled disbursement, interest at a rate of 1 percent per month calculated on a daily basis on the unpaid balance from the expiration of the 10 working days until such time as the warrant is issued. 4. A sponsor shall provide to the department by September 15 of each year the total amount of funding withheld from charter schools pursuant to this subsection for the prior fiscal year. The department must include the information in the report required under sub-subparagraph (5)(b)1.k.(III).

(b) If goods and services are made available to the charter school through the contract with the ~~sponsor school district~~, they shall be provided to the charter school at a rate no greater than the ~~sponsor's district's~~ actual cost unless mutually agreed upon by the charter school and the sponsor in a contract negotiated separately from the charter. When mediation has failed to resolve disputes over contracted services or contractual matters not included in the charter, an appeal may be made to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute. - (i) *Information pertaining to recent and upcoming court hearings, including, but not limited to, the date, subject matter, and county of court jurisdiction of the most recent and next scheduled court hearing.*
- (j) *Any other information the department, the department's authorized agents, or providers contracting with the department, including community-based care lead agencies deem relevant.*
- (3) *The department, the department's authorized agents, or providers contracting with the department, including community-based care lead agencies, must ensure that the face sheet for each case is updated at least once per month. This requirement includes ensuring that the department, its authorized agents, or providers contracting with the department gather any relevant information from any subcontracted providers who provide services for the case record information required to be included under this section.*
- (4) *The case record face sheet must be in a uniform and standardized format for use statewide and must be developed, either by the department*

or a third party, using real-time data from the state child welfare information system. The department may develop a specific case record face sheet or may contract with a third party to use existing software that, at a minimum, meets the requirements of subsection (2). The case record face sheet developed or contracted for use under this section must be electronic and have the capability to be printed. The community-based care lead agencies shall use this uniform and standardized case record face sheet to comply with this section.

(5) *The department shall adopt rules to implement this section.*

Section 2. Section 39.01375, Florida Statutes, is created to read:

39.01375 Best interest determination for placement.—The department, community-based care lead agency, or court shall consider all of the following factors when determining whether a proposed placement under this chapter is in the child's best interest:

- (1) *The child's age.*
- (2) *The physical, mental, and emotional health benefits to the child by remaining in his or her current placement or moving to the proposed placement.*
- (3) *The stability and longevity of the child's current placement.*
- (4) *The established bonded relationship between the child and the current or proposed caregiver.*
- (5) *The reasonable preference of the child, if the child is of a sufficient age and capacity to express a preference.*
- (6) *The recommendation of the child's current caregiver, if applicable.*
- (7) *The recommendation of the child's guardian ad litem, if one has been appointed.*
- (8) *The child's previous and current relationship with a sibling and if the change of legal or physical custody or placement will separate or reunite siblings, evaluated in accordance with s. 39.4024.*
- (9) *The likelihood of the child attaining permanency in the current or proposed placement.*

(10) *The likelihood the child will be required to change schools or child care placement, the impact of such change on the child, and the parties' recommendations as to the timing of the change, including an education transition plan required under s. 39.4023.*

(11) *The child's receipt of medical, behavioral health, dental, or other treatment services in the current placement; the availability of such services and the degree to which they meet the child's needs; and whether the child will be able to continue to receive services from the same providers and the relative importance of such continuity of care.*

(12) *The allegations of any abuse, abandonment, or neglect, including sexual abuse and human trafficking history, which caused the child to be placed in out-of-home care and any history of additional allegations of abuse, abandonment, or neglect.*

(13) *The likely impact on activities that are important to the child and the ability of the child to continue such activities in the proposed placement.*

(14) *The likely impact on the child's access to education, Medicaid, and independent living benefits if moved to the proposed placement.*

(15) *Any other relevant factor.*

Section 3. Subsection (3) of section 39.401, Florida Statutes, is amended to read:

39.401 Taking a child alleged to be dependent into custody; law enforcement officers and authorized agents of the department.—

(3) *If the child is taken into custody by, or is delivered to, an authorized agent of the department, the agent shall review the facts supporting the removal with an attorney representing the department.*

The purpose of the review is to determine whether there is probable cause for the filing of a shelter petition.

(a) If the facts are not sufficient, the child shall immediately be returned to the custody of the parent or legal custodian.

(b) If the facts are sufficient and the child has not been returned to the custody of the parent or legal custodian, the department shall file the petition and schedule a hearing, and the attorney representing the department shall request that a shelter hearing be held within 24 hours after the removal of the child.

(c) While awaiting the shelter hearing, the authorized agent of the department may place the child in *out-of-home care, and placement shall be determined based on priority of placements as provided in s. 39.4021 and what is in the child's best interest based on the criteria and factors set out in s. 39.01375* ~~licensed shelter care or may release the child to a parent or legal custodian or responsible adult relative or the adoptive parent of the child's sibling who shall be given priority consideration over a licensed placement, or a responsible adult approved by the department if this is in the best interests of the child.~~

(d) Placement of a child which is not in a licensed shelter must be preceded by a criminal history records check as required under s. 39.0138.

(e) In addition, the department may authorize placement of a housekeeper/homemaker in the home of a child alleged to be dependent until the parent or legal custodian assumes care of the child.

Section 4. Paragraph (h) of subsection (8) of section 39.402, Florida Statutes, is amended to read:

39.402 Placement in a shelter.—

(8)

(h) The order for placement of a child in shelter care must identify the parties present at the hearing and must contain written findings:

1. That placement in shelter care is necessary based on the criteria in subsections (1) and (2).

2. That placement in shelter care is in the best interest of the child.

3. That continuation of the child in the home is contrary to the welfare of the child because the home situation presents a substantial and immediate danger to the child's physical, mental, or emotional health or safety which cannot be mitigated by the provision of preventive services.

4. That based upon the allegations of the petition for placement in shelter care, there is probable cause to believe that the child is dependent or that the court needs additional time, which may not exceed 72 hours, in which to obtain and review documents pertaining to the family in order to appropriately determine the risk to the child.

5. That the department has made reasonable efforts to prevent or eliminate the need for removal of the child from the home. A finding of reasonable effort by the department to prevent or eliminate the need for removal may be made and the department is deemed to have made reasonable efforts to prevent or eliminate the need for removal if:

a. The first contact of the department with the family occurs during an emergency;

b. The appraisal of the home situation by the department indicates that the home situation presents a substantial and immediate danger to the child's physical, mental, or emotional health or safety which cannot be mitigated by the provision of preventive services;

c. The child cannot safely remain at home, either because there are no preventive services that can ensure the health and safety of the child or because, even with appropriate and available services being provided, the health and safety of the child cannot be ensured; or

d. The parent or legal custodian is alleged to have committed any of the acts listed as grounds for expedited termination of parental rights in s. 39.806(1)(f)-(i).

6. *That the department has made reasonable efforts to place the child in order of priority as provided in s. 39.4021 unless such priority placement is not a placement option or in the best interest of the child based on the criteria and factors set out in s. 39.01375.*

7. That the department has made reasonable efforts to keep siblings together if they are removed and placed in out-of-home care unless such placement is not in the best interest of each child. It is preferred that siblings be kept together in a foster home, if available. Other reasonable efforts shall include short-term placement in a group home with the ability to accommodate sibling groups if such a placement is available. The department shall report to the court its efforts to place siblings together unless the court finds that such placement is not in the best interest of a child or his or her sibling.

8.7. That the court notified the parents, relatives that are providing out-of-home care for the child, or legal custodians of the time, date, and location of the next dependency hearing and of the importance of the active participation of the parents, relatives that are providing out-of-home care for the child, or legal custodians in all proceedings and hearings.

9.8. That the court notified the parents or legal custodians of their right to counsel to represent them at the shelter hearing and at each subsequent hearing or proceeding, and the right of the parents to appointed counsel, pursuant to the procedures set forth in s. 39.013.

10.9. That the court notified relatives who are providing out-of-home care for a child as a result of the shelter petition being granted that they have the right to attend all subsequent hearings, to submit reports to the court, and to speak to the court regarding the child, if they so desire.

11.10. That the department has placement and care responsibility for any child who is not placed in the care of a parent at the conclusion of the shelter hearing.

Section 5. Section 39.4021, Florida Statutes, is created to read:

39.4021 *Priority placement for out-of-home placements.—*

(1) *LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds that it is a basic tenet of child welfare practice and the law that a child be placed in the least restrictive, most family-like setting available in close proximity to the home of his or her parents which meets the needs of the child, and that a child be placed in a permanent home in a timely manner.*

(2) *PLACEMENT PRIORITY.—*

(a) *When a child cannot safely remain at home with a parent, out-of-home placement options must be considered in the following order:*

1. *Non-offending parent.*

2. *Relative caregiver.*

3. *Adoptive parent of the child's sibling, when the department or community-based care lead agency is aware of such sibling.*

4. *Fictive kin with a close existing relationship to the child.*

5. *Nonrelative caregiver that does not have an existing relationship with the child.*

6. *Licensed foster care.*

7. *Group or congregate care.*

(b) *Except as otherwise provided for in ss. 39.4022 and 39.4024, sibling groups must be placed in the same placement whenever possible and if placement together is in the best interest of each child in the sibling group. Placement decisions for sibling groups must be made pursuant to ss. 39.4022 and 39.4024.*

(c) *Except as otherwise provided for in this chapter, a change to a child's physical or legal placement after the child has been sheltered but before the child has achieved permanency must be made in compliance*

with this section. Placements made pursuant to s. 63.082(6) are exempt from this section.

Section 6. Section 39.4022, Florida Statutes, is created to read:

39.4022 *Multidisciplinary teams; staffings; assessments; report.*—

(1) **LEGISLATIVE INTENT.**—

(a) *The Legislature finds that services for children and families are most effective when delivered in the context of a single integrated multidisciplinary team staffing that includes the child, his or her family, natural and community supports, and professionals who join together to empower, motivate, and strengthen a family and collaboratively develop a plan of care and protection to achieve child safety, child permanency, and child and family well-being.*

(b) *The Legislature also finds that effective assessment through an integrated multidisciplinary team is particularly important for children who are vulnerable due to existing histories of trauma which led to the child's entrance into the child welfare system. This assessment is especially important for young children who are 3 years of age or younger, as a result of the enhanced need for such children to have healthy and stable attachments to assist with necessary brain development. Stable and nurturing relationships in the first years of life, as well as the quality of such relationships, are integral to healthy brain development, providing a foundation for lifelong mental health and determining well-being as an adult.*

(2) **DEFINITIONS.**—*For purposes of this section, the term:*

(a) *“Change in physical custody” means a change by the department or the community-based care lead agency to the child's physical residential address, regardless of whether such change requires a court order changing the legal custody of the child.*

(b) *“Emergency situation” means that there is an imminent risk to the health or safety of the child, other children, or others in the home or facility if the child remains in the placement.*

(c) *“Multidisciplinary team” means an integrated group of individuals which meets to collaboratively develop and attempt to reach a consensus decision on the most suitable out-of-home placement, educational placement, or other specified important life decision that is in the best interest of the child.*

(3) **CREATION AND GOALS.**—

(a) *Multidisciplinary teams must be established for the purpose of allowing better engagement with families and a shared commitment and accountability from the family and their circle of support.*

(b) *The multidisciplinary teams must adhere to the following goals:*

1. *Secure a child's safety in the least restrictive and intrusive placement that can meet his or her needs;*

2. *Minimize the trauma associated with separation from the child's family and help the child to maintain meaningful connections with family members and others who are important to him or her;*

3. *Provide input into the proposed placement decision made by the community-based care lead agency and the proposed services to be provided in order to support the child;*

4. *Provide input into the decision to preserve or maintain the placement, including necessary placement preservation strategies;*

5. *Contribute to an ongoing assessment of the child and the family's strengths and needs;*

6. *Ensure that plans are monitored for progress and that such plans are revised or updated as the child's or family's circumstances change; and*

7. *Ensure that the child and family always remain the primary focus of each multidisciplinary team meeting.*

(4) **PARTICIPANTS.**—

(a) *Collaboration among diverse individuals who are part of the child's network is necessary to make the most informed decisions possible for the child. A diverse team is preferable to ensure that the necessary combination of technical skills, cultural knowledge, community resources, and personal relationships is developed and maintained for the child and family. The participants necessary to achieve an appropriately diverse team for a child may vary by child and may include extended family, friends, neighbors, coaches, clergy, coworkers, or others the family identifies as potential sources of support.*

1. *Each multidisciplinary team staffing must invite the following members:*

a. *The child, unless he or she is not of an age or capacity to participate in the team;*

b. *The child's family members and other individuals identified by the family as being important to the child, provided that a parent who has a no contact order or injunction, is alleged to have sexually abused the child, or is subject to a termination of parental rights may not participate;*

c. *The current caregiver, provided the caregiver is not a parent who meets the criteria of one of the exceptions under sub-subparagraph b.;*

d. *A representative from the department other than the Children's Legal Services attorney, when the department is directly involved in the goal identified by the staffing;*

e. *A representative from the community-based care lead agency, when the lead agency is directly involved in the goal identified by the staffing; and*

f. *The case manager for the child, or his or her case manager supervisor.*

2. *The multidisciplinary team must make reasonable efforts to have all mandatory invitees attend. However, the multidisciplinary team staffing may not be delayed if the invitees in subparagraph 1. fail to attend after being provided reasonable opportunities.*

(b) *Based on the particular goal the multidisciplinary team staffing identifies as the purpose of convening the staffing as provided under subsection (5), the department or lead agency may also invite to the meeting other professionals, including, but not limited to:*

1. *A representative from Children's Medical Services;*

2. *A guardian ad litem, if one is appointed;*

3. *A school personnel representative who has direct contact with the child;*

4. *A therapist or other behavioral health professional, if applicable.*

5. *A mental health professional with expertise in sibling bonding, if the department or lead agency deems such expert is necessary; or*

6. *Other community providers of services to the child or stakeholders, when applicable.*

(c) *Members of the multidisciplinary team who are required to attend under subparagraph (a)1. or who are invited to participate under paragraph (b) may attend the multidisciplinary team staffing in person or remotely.*

(d) *Each multidisciplinary team staffing must be led by a person who serves as a facilitator and whose main responsibility is to help team participants use the strengths within the family to develop a safe plan for the child. The person serving as the facilitator must be a trained professional who is otherwise required to attend the multidisciplinary team staffing under this section in his or her official capacity. Further, the trained professional serving as the facilitator does not need to be the same person for each meeting convened in a child's case under this section or in the service area of the designated lead agency handling a child's case.*

(5) SCOPE OF MULTIDISCIPLINARY TEAM.—

(a) A multidisciplinary team staffing must be held when an important decision is required to be made about a child's life, including all of the following:

1. Initial placement decisions for a child who is placed in out-of-home care. A multidisciplinary team staffing required under this subparagraph may occur before the initial placement or, if a staffing is not possible before the initial placement, must occur as soon as possible after initial removal and placement to evaluate the appropriateness of the initial placement and to ensure that any adjustments to the placement, if necessary, are promptly handled.

2. Changes in physical custody after the child is placed in out-of-home care by a court and, if necessary, determination of an appropriate mandatory transition plan in accordance with s. 39.4023.

3. Changes in a child's educational placement and, if necessary, determination of an appropriate mandatory transition plan in accordance with s. 39.4023.

4. Placement decisions for a child as required by subparagraph 1., subparagraph 2., or subparagraph 3. which involve sibling groups that require placement in accordance with s. 39.4024.

5. Any other important decisions in the child's life which are so complex that the department or appropriate community-based care lead agency determines convening a multidisciplinary team staffing is necessary to ensure the best interest of the child is maintained.

(b) A multidisciplinary team convened under this section may address multiple needs and decisions under paragraph (a) regarding the child or sibling group for which the team is convened during the same staffing.

(c) This section does not apply to multidisciplinary team staffings that occur for one of the decisions specified in paragraph (a) and that are facilitated by a children's advocacy center in accordance with s. 39.3035. The children's advocacy center that facilitates a staffing is encouraged to include family members or other persons important to the family in the staffing if the children's advocacy center determines it is safe for the child to involve such persons.

(d) This section does not apply to placements made pursuant to s. 63.082(6).

(6) ASSESSMENTS.—

(a)1. The multidisciplinary team staffing participants must, before formulating a decision under this section, gather and consider data and information on the child which is known at the time, including, but not limited to information allowing the team to address the best interest factors under s. 39.01375.

2. Multidisciplinary team staffings may not be delayed to accommodate pending behavioral health screenings or assessments or pending referrals for services.

(b) The assessment conducted by the multidisciplinary team may also use an evidence-based assessment instrument or tool that is best suited for determining the specific decision of the staffing and the needs of that individual child and family.

(c) To adequately prepare for a multidisciplinary staffing team meeting to consider a decision related to a child 3 years of age or younger, all of the following information on the child which is known at the time must be gathered and considered by the team:

1. Identified kin and relatives who express interest in caring for the child, including strategies to overcome potential delays in placing the child with such persons if they are suitable.

2. The likelihood that the child can remain with the prospective caregiver past the point of initial removal and placement with, or subsequent transition to, the caregiver and the willingness of the caregiver to provide care for any duration deemed necessary if placement is made.

3. The prospective caregiver's ability and willingness to:

a. Accept supports related to early childhood development and services addressing any possible developmental delays;

b. Address the emotional needs of the child and accept infant mental health supports, if needed;

c. Help nurture the child during the transition into out-of-home care;

d. Work with the parent to build or maintain the attachment relationship between parent and child;

e. Effectively co-parent with the parent; and

f. Ensure frequent family visits and sibling visits.

4. Placement decisions for each child in out-of-home placement which are made under this paragraph must be reviewed as often as necessary to ensure permanency for that child and to address special issues that may arise which are unique to younger children.

(d)1. If the participants of a multidisciplinary team staffing reach a unanimous consensus decision, it becomes the official position of the community-based care lead agency regarding the decision under subsection (5) for which the team convened. Such decision is binding upon all department and lead agency participants, who are obligated to support it.

2. If the participants of a multidisciplinary team staffing cannot reach a unanimous consensus decision on a plan to address the identified goal, the trained professional acting as the facilitator shall notify the court and the department within 48 hours after the conclusion of the staffing. The department shall then determine how to address the identified goal of the staffing by what is in the child's best interest.

(7) CONVENING A TEAM UPON REMOVAL.—The formation of a multidisciplinary team staffing must begin as soon as possible when a child is removed from a home. The multidisciplinary team must convene a staffing no later than 72 hours from the date of a subsequent removal in an emergency situation in accordance with s. 39.4023.

(8) REPORT.—If a multidisciplinary team staffing fails to reach a unanimous consensus decision, the facilitator must prepare and submit a written report to the court within 5 business days after the conclusion of the staffing which details the decision made at the conclusion of the multidisciplinary team staffing under subsection (6) and the positions of the staffing's participants.

(9) CONFIDENTIALITY.—Notwithstanding any other provision of law, participants representing the department and the community-based care lead agency may discuss confidential information during a multidisciplinary team staffing in the presence of individuals who participate in the staffing. Information collected by any agency or entity that participates in the multidisciplinary team staffing which is confidential and exempt upon collection remains confidential and exempt when discussed in a staffing required under this section. All individuals who participate in the staffing shall maintain the confidentiality of any information shared during the staffing.

(10) CONSTRUCTION.—This section may not be construed to mean that multidisciplinary team staffings coordinated by the department or the appropriate lead agency for purposes other than those provided for in subsection (5) before October 1, 2021, are no longer required to be conducted or are required to be conducted in accordance with this section. Further, this section may not be construed to create a duty on the department or lead agency to attend multidisciplinary staffings that the department or lead agency does not attend for any purpose specified in subsection (5) for which the department or lead agency is not required to attend before October 1, 2021.

(11) RULEMAKING.—The department shall adopt rules to implement this section.

Section 7. The department shall contract for the development of model placement transition plans and related explanatory material that may be the basis for developing individualized transition plans for children in out-of-home care who are changing placements. Such plans must provide specific recommendations regarding transition plan elements that may include, but are not limited to, the length and pace of the

transition and the sequence of steps needed to gradually introduce new caregivers and to build relationships and attachments. The model transition plans shall consider and vary in response to important factors affecting how a child's placement transition should proceed to mitigate trauma and encourage the child's healthy development and the stability of the placement, which may include, but is not limited to, the child's age or developmental stage; the level and type of abuse, neglect, or trauma experienced by the child; attachment to or the length of time the child has spent with the current caregiver; and familiarity with, location of, and attachment to the proposed caregiver. The model transition plans and accompanying explanatory material must be provided to, at a minimum, all staff who develops transition plans for children in out-of-home care, whether such staff works for the department, a community-based care lead agency, or a subcontracted provider. The model transition plans and accompanying material may also be provided to caregivers and other child welfare professionals.

Section 8. Section 39.4023, Florida Statutes, is created to read:

39.4023 Placement and education transitions; transition plans.—

(1) LEGISLATIVE FINDINGS AND INTENT.—

(a) The Legislature finds that many children in out-of-home care experience multiple changes in placement, and those transitions often result in trauma not only for the child but also for caregivers, families, siblings, and all professionals involved.

(b) The Legislature further finds that poorly planned and executed or improperly timed transitions may adversely impact a child's healthy development as well as the child's continuing capacity to trust, attach to others, and build relationships in the future.

(c) The Legislature finds that the best child welfare practices recognize the need to prioritize the minimization of the number of placements for every child in out-of-home care. Further, the Legislature finds that efforts must be made to support caregivers in order to promote stability. When placement changes are necessary, they must be thoughtfully planned.

(d) The Legislature finds that transition plans are critical when moving all children, including infants, toddlers, school-age children, adolescents, and young adults.

(e) It is the intent of the Legislature that a placement change or an educational change for a child in out-of-home care be achieved ideally through a period of transition that is unique to each child, provides support for all individuals affected by the change, and has flexible planning to allow for changes necessary to meet the needs of the child.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Educational change" means any time a child is moved between schools when such move is not the result of the natural transition from elementary school to middle school or middle school to high school. The term also includes changes in child care or early education programs for infants and toddlers.

(b) "Emergency situation" means that there is an imminent risk to the health or safety of the child, other children, or others in the home or facility if the child remains in the placement.

(c) "Placement change" means any time a child is moved from one caregiver to another, including moves to a foster home, a group home, relatives, prospective guardians, or prospective adoptive parents and removal from or reunification with parents or legal custodian. A child being moved temporarily to respite care for the purpose of providing the primary caregiver relief does not constitute a placement change.

(d) "School" means any child care, early education, elementary, secondary, or postsecondary educational setting.

(3) PLACEMENT TRANSITIONS.—

(a) Mandatory transition plans.—Except as otherwise provided, the department or the community-based care lead agency shall create and implement an individualized transition plan before each placement change experienced by a child.

(b) Minimizing placement transitions.—Once a caregiver accepts the responsibility of caring for a child, the child may be removed from the home of the caregiver only for the reasons specified in s. 409.1415(2)(b)7.

(c) Services to prevent disruption.—The community-based care lead agency shall provide any supportive services deemed necessary to a caregiver and a child if the child's current out-of-home placement with the caregiver is in danger of needing modification. The supportive services must be offered in an effort to remedy the factors contributing to the placement being considered unsuitable and therefore contributing to the need for a change in placement.

(d) Transition planning.—

1. If the supportive services provided pursuant to paragraph (c) have not been successful to make the maintenance of the placement suitable or if there are other circumstances that require the child to be moved, the department or the community-based care lead agency must convene a multidisciplinary team staffing as required under s. 39.4022 before the child's placement is changed, or within 72 hours of moving the child in an emergency situation, for the purpose of developing an appropriate transition plan.

2. A placement change may occur immediately in an emergency situation without convening a multidisciplinary team staffing. However, a multidisciplinary team staffing must be held within 72 hours after the emergency situation arises.

3. The department or the community-based care lead agency must provide written notice of the planned move at least 14 days before the move or within 72 hours after an emergency situation, to the greatest extent possible and consistent with the child's needs and preferences. The notice must include the reason a placement change is necessary. A copy of the notice must be filed with the court and be provided to:

a. The child, unless he or she, due to age or capacity, is unable to comprehend the written notice, which will necessitate the department or lead agency to provide notice in an age-appropriate and capacity-appropriate alternative manner;

b. The child's parents, unless prohibited by court order;

c. The child's out-of-home caregiver;

d. The guardian ad litem, if one is appointed;

e. The attorney for the child, if one is appointed; and

f. The attorney for the department.

4.a. The transition plan must be developed through cooperation among the persons included in subparagraph 3., and such persons must share any relevant information necessary for its development. Subject to the child's needs and preferences, the transition plan must meet the requirements of s. 409.1415(2)(b)8. and exclude any placement changes that occur between 7 p.m. and 8 a.m.

5. The department or the community-based care lead agency shall file the transition plan with the court within 48 hours after the creation of such plan and provide a copy of the plan to the persons included in subparagraph 3.

(e) Additional considerations for transitions of infants and children under school age.—Relationship patterns over the first year of life are important predictors of future relationships. Research demonstrates that babies begin to form a strong attachment to a caregiver at approximately 7 months of age. From that period of time through age 2, moving a child from a caregiver who is the psychological parent is considerably more damaging. Placement decisions must focus on promoting security and continuity for infants and children under 5 years of age in out-of-home care. Transition plans for infants and young children must describe the facts that were considered when each of the following were discussed and must specify what decision was made as to how each of the following applies to the child:

1. The age of the child and the child's current ability to accomplish developmental tasks, with consideration made for whether the child is:

a. Six months of age or younger, thereby indicating that it may be in the child's best interest to move the child sooner rather than later; or

b. Seven months of age or older, but younger than 3 years of age, thereby indicating it may not be a healthy time to move the child.

2. The length of time the child has lived with the current caregiver, the strength of attachment to the current caregiver, and the harm of disrupting a healthy attachment compared to the possible advantage of a change in placement.

3. The relationship, if any, the child has with the new caregiver and whether a reciprocal agreement exists between the current caregiver and the prospective caregiver to maintain the child's relationship with both caregivers.

4. The pace of the transition and whether flexibility exists to accelerate or slow down the transition based on the child's needs and reactions.

(f) Preparation of prospective caregivers before placement.—

1. Prospective caregivers must be fully informed of the child's needs and circumstances and be willing and able to accept responsibility for providing high-quality care for such needs and circumstances before placement.

2. The community-based care lead agency shall review with the prospective caregiver the caregiver's roles and responsibilities according to the parenting partnerships plan for children in out-of-home care pursuant to s. 409.1415. The case manager shall sign a copy of the parenting partnerships plan and obtain the signature of the prospective caregiver acknowledging explanation of the requirements before placement.

(4) EDUCATION TRANSITIONS.—

(a) Findings.—Children in out-of-home care frequently change child care, early education programs, and schools. These changes can occur when the child first enters out-of-home care, when the child must move from one caregiver to another, or when the child returns home upon reunification. Research shows that children who change schools frequently make less academic progress than their peers and fall further behind with each school change. Additionally, educational instability at any level makes it difficult for children to develop supportive relationships with teachers or peers. State and federal law contain requirements that must be adhered to in order to ensure educational stability for a child in out-of-home care. A child's educational setting should only be changed when maintaining the educational setting is not in the best interest of the child.

(b) Mandatory educational transition plans.—The department or the community-based care lead agency shall create and implement an individualized transition plan each time a child experiences a school change.

(c) Minimizing school changes.—

1. Every effort must be made to keep a child in the school of origin if it is in the child's best interest. Any placement decision must include thoughtful consideration of which school a child will attend if a school change is necessary.

2. Members of a multidisciplinary team staffing convened for a purpose other than a school change must determine the child's best interest regarding remaining in the school or program of origin if the child's educational options are affected by any other decision being made by the multidisciplinary team.

3. The determination of whether it is in the child's best interest to remain in the school of origin, and if not, of which school the child will attend in the future, must be made in consultation with the following individuals, including, but not limited to, the child; the parents; the caregiver; the child welfare professional; the guardian ad litem, if appointed; the educational surrogate, if appointed; child care and educational staff, including teachers and guidance counselors; and the school district representative or foster care liaison. A multidisciplinary team member may contact any of these individuals in advance of a multidisciplinary team staffing to obtain his or her recommendation. An in-

dividual may remotely attend the multidisciplinary team staffing if one of the identified goals is related to determining an educational placement. The multidisciplinary team may rely on a report from the child's current school or program district and, if applicable, any other school district being considered for the educational placement if the required school personnel are not available to attend the multidisciplinary team staffing in person or remotely.

4. The multidisciplinary team and the individuals listed in subparagraph 3. must consider, at a minimum, all of the following factors when determining whether remaining in the school or program of origin is in the child's best interest or, if not, when selecting a new school or program:

a. The child's desire to remain in the school or program of origin.

b. The preference of the child's parents or legal guardians.

c. Whether the child has siblings, close friends, or mentors at the school or program of origin.

d. The child's cultural and community connections in the school or program of origin.

e. Whether the child is suspected of having a disability under the Individuals with Disabilities Education Act (IDEA) or s. 504 of the Rehabilitation Act of 1973, or has begun receiving interventions under this state's multitiered system of supports.

f. Whether the child has an evaluation pending for special education and related services under IDEA or s. 504 of the Rehabilitation Act of 1973.

g. Whether the child is a student with a disability under IDEA who is receiving special education and related services or a student with a disability under s. 504 of the Rehabilitation Act of 1973 who is receiving accommodations and services and, if so, whether those required services are available in a school or program other than the school or program of origin.

h. Whether the child is an English Language Learner student and is receiving language services, and if so, whether those required services are available in a school or program other than the school or program of origin.

i. The impact a change to the school or program of origin would have on academic credits and progress toward promotion.

j. The availability of extracurricular activities important to the child.

k. The child's known individualized educational plan or other medical and behavioral health needs and whether such plan or needs are able to be met at a school or program other than the school or program of origin.

l. The child's permanency goal and timeframe for achieving permanency.

m. The child's history of school transfers and how such transfers have impacted the child academically, emotionally, and behaviorally.

n. The length of the commute to the school or program from the child's home or placement and how such commute would impact the child.

o. The length of time the child has attended the school or program of origin.

5. The cost of transportation cannot be a factor in making a best interest determination.

(d) Transitions between child care and early education programs.—When a child enters out-of-home care or undergoes a placement change, the child shall, if possible, remain with a familiar child care provider or early education program unless there is an opportunity to transition to a higher quality program. If it is not possible for the child to remain with the familiar child care provider or early education program or transition to a higher quality program, the child's transition plan must be made with the participation of the child's current and future school or pro-

gram. The plan must give the child an opportunity to say goodbye to important figures in the educational environment.

(e) *Transitions between K-12 schools.*—The transition plan for a transition between K-12 schools must include all of the following:

1. Documentation that the department or community-based care lead agency has made the decision to change the child's school in accordance with paragraph (c). The plan must include a detailed discussion of all factors considered in reaching the decision to change the child's school.

2. Documentation that the department or community-based care lead agency has coordinated, or will coordinate before the school change, with local educational agencies to provide immediate and appropriate enrollment in a new school, including transfer of educational records, any record of a school-entry health examination, and arrangements for transportation to the new school.

3. Discussion of the timing of the proposed school change which addresses the potential impact on the child's education and extracurricular activities. This section must include, at a minimum, grading periods, exam schedules, credit acquisitions, sports eligibility, and participation in extracurricular activities.

4. Details concerning the transportation of the child to school.

(5) *TRANSITION PLAN AND DOCUMENTATION.*—

(a) The department, in collaboration with the Quality Parenting Initiative, shall develop a form to be completed and updated each time a child in out-of-home care is moved from one placement to another.

(b) A completed form must be attached to the case record face sheet required to be included in the case file pursuant to s. 39.00146. The form must be used statewide and, at a minimum, must include all of the following information:

1. The membership of the multidisciplinary team staffing convened under s. 39.4022 to develop a transition plan for the change in placement and the dates on which the team met.

2. The name of the person who served as the facilitator in that specific multidisciplinary team staffing.

3. The topics considered by the multidisciplinary team staffing in order to ensure an appropriate transition.

4. The recommendations of the multidisciplinary team and the name of each individual or entity responsible for carrying out each recommendation.

(c) The department or the community-based care lead agency shall document all multidisciplinary team staffings and placement transition decisions in the Florida Safe Families Network and must include the information in the social study report for judicial review, as required under s. 39.701.

(6) *EXEMPTION.*—Placements made pursuant to s. 63.082(6) are exempt from this section.

(7) *RULEMAKING.*—The department shall adopt rules to implement this section.

Section 9. Section 39.4024, Florida Statutes, is created to read:

39.4024 Placement of siblings; visitation; continuing contact.—

(1) *LEGISLATIVE FINDINGS.*—

(a) The Legislature finds that sibling relationships can provide a significant source of continuity throughout a child's life and are likely to be the longest relationships that most individuals experience. Further, the placement of siblings together can increase the likelihood of achieving permanency and is associated with a significantly higher rate of family reunification.

(b) The Legislature finds that it is beneficial for a child who is placed in out-of-home care to be able to continue existing relationships with his

or her siblings, regardless of age, so that they may share their strengths and association in their everyday and often common experiences.

(c) The Legislature also finds that healthy connections with siblings can serve as a protective factor for children who have been placed in out-of-home care. The Legislature finds that child protective investigators and caseworkers should be aware of the variety of demographic and external situational factors that may present challenges to placement in order to identify such factors relevant to a particular group of siblings and ensure that these factors are not the sole reasons that siblings are not placed together.

(d) The Legislature also finds that it is the responsibility of all entities and adults involved in a child's life, including, but not limited to, the department, community-based care lead agencies, parents, foster parents, guardians ad litem, next of kin, and other persons important to the child to seek opportunities to foster sibling relationships to promote continuity and help sustain family connections.

(e) While there is a presumption in law and policy that it is in the best interest of a child going into out-of-home care to be placed with any siblings, the Legislature finds that overall well-being of the child and family improves when the person or team responsible for placement decisions evaluates the child's sibling and family bonds and prioritizes the bonds that are unique drivers of the child's ability to maintain and develop healthy relationships. The person or team with an understanding of the need to balance all attachment bonds of a child and the potential need to prioritize existing and healthy sibling relationships differently than a potential or unhealthy sibling relationship over a healthy existing bond with a caregiver will result in more stable and healthier placements for all children in out-of-home care.

(2) *DEFINITIONS.*—As used in this section, the term:

(a) "Lead agency" means a community-based care lead agency under contract with the department to provide care to children in foster care under chapter 409.

(b) "Multidisciplinary team" has the same meaning as provided in s. 39.4022.

(c) "Sibling" means:

1. A child who shares a birth parent or legal parent with one or more other children; or

2. A child who has lived together in a family with one or more other children whom he or she identifies as siblings.

(3) *PLACEMENT OF SIBLINGS IN OUT-OF-HOME CARE.*—

(a) *General provisions.*—

1. The department or lead agency shall make reasonable efforts to place sibling groups that are removed from their home in the same foster, kinship, adoptive, or guardianship home when it is in the best interest of each sibling and when an appropriate, capable, and willing joint placement for the sibling group is available.

2. If a child enters out-of-home care after his or her sibling, the department or lead agency and the multidisciplinary team shall make reasonable efforts to initially place the child who has entered out-of-home care with his or her siblings in the sibling's existing placement, provided it would not jeopardize the stability of such placement and it is in the best interest for each child.

3. When determining whether to move a child from a current placement to a new placement when such change is initiated by a sibling relationship, all relevant factors must be considered by the multidisciplinary team to ensure that the child is best served by the decision. A uniform policy that does not consider and apply a balancing test to ensure all existing attachment bonds for a child and his or her siblings are honored and evaluated holistically may result in placement decisions or changes of placement decisions that may result in additional trauma.

4. The department and the court are not required to make a change in placement, whether such change is to the physical residential address of the child or the legal custody of the child, to develop a relationship between siblings which did not exist at the time a child is placed in out-

of-home care and must determine whether the change in placement is contrary to the child's safety and well-being by evaluating all of the factors in this section and ss. 39.01375, 39.4022, and 39.4023.

(b) *Factors to consider when placing sibling groups.—*

1. *At the time a child who is a part of a sibling group is removed from the home, the department or lead agency shall convene a multidisciplinary team staffing in accordance with s. 39.4022 to determine and assess the sibling relationships from the perspective of each child to ensure the best placement of each child in the sibling group. The multidisciplinary team shall consider all relevant factors included in s. 39.01375 and this section, including, but not limited to, the existing emotional ties between and among the siblings, the degree of harm each child is likely to experience as a result of separation, and the standard protocols established by the Quality Parenting Initiative under paragraph (d).*

2.a. *If the department or the appropriate lead agency is able to locate a caregiver that will accept the sibling group and the multidisciplinary team determines that the placement is suitable for each child, the sibling group must be placed together.*

b. *If the department or appropriate lead agency is not able to locate a caregiver or placement option that allows the sibling group to be placed together in an initial placement, the department or lead agency must make all reasonable efforts to ensure contact and visitation between siblings placed in separate out-of-home care placements and provide reviews of the placements in accordance with this section.*

3. *If all the siblings are unable to be placed in an existing placement and the siblings do not have an existing relationship, when determining whether to move any child who is part of the sibling group from his or her current placement to a new placement that will unite the sibling group, the department or lead agency must consider all of the following additional factors:*

a. *The presence and quality of current attachment relationships, including:*

(I) *The quality and length of the attachment of the child to both the current and prospective caregiver;*

(II) *The age of the child at placement with the current caregiver and the child's current age as well as the ages of any siblings;*

(III) *The ease with which the child formed an attachment to the current family;*

(IV) *Any indications of attachment difficulty in the child's history; and*

(V) *The number of moves and number of caregivers the child has experienced.*

b. *The potential of the new caregiver to be a primary attachment figure to the sibling group by ensuring care for each child's physical needs and the willingness and availability to meet each child's emotional needs.*

c. *The quality of existing sibling relationships and the potential quality of sibling relationships that can be formed between the children.*

d. *The consideration of any costs and benefits of disrupting existing emotional attachments to a primary caregiver to place children in a new placement with siblings, including:*

(I) *The length and quality of the established and current primary attachment relationships between the siblings and between the siblings and their current caregivers; and*

(II) *Relationships between any other siblings and whether such relationships appear adequate and not stressful or harmful.*

e. *The ability to establish and maintain sibling visitation and contact pursuant to this section in a manner and schedule that makes sense for an infant or young child if it is determined that the infant or young child is to remain with his or her primary caregivers rather than be placed with his or her siblings.*

f. *The ability to establish and maintain contact with the sibling and new caregiver as part of a transition plan developed in accordance with paragraph (c) and s. 39.4023 before changing the child's placement to allow the child, his or her siblings, and new caregiver to adjust and form bonds.*

(c) *Transitioning a child after a determination.—If after considering the provisions and factors described in paragraphs (a) and (b) it is determined that the child would benefit from being placed with his or her siblings, the transition of the child to the new home must be carried out gradually in accordance with s. 39.4023.*

(d) *Standards for evaluating sibling placements.—The department, in collaboration with the Quality Parenting Initiative, must develop standard protocols for the department and lead agency which incorporate the provisions and factors described in paragraphs (a), (b), and (c) and any other factors deemed relevant for use in making decisions about when placing siblings together would be contrary to a child's well-being or safety or decisions providing for frequent visitation and contact under subsection (4).*

(4) **MAINTAINING CONTACT WHEN SIBLINGS ARE SEPARATED.—**

(a) *Regular contact among a sibling group that cannot be placed together, especially among siblings with existing attachments to each other, is critical for the siblings to maintain their existing bonds and relationships or to develop such bonds and attachments, if appropriate. The following practices must be considered in helping to maintain or strengthen the relationships of separated siblings:*

1. *Respect and support the child's ties to his or her birth or legal family, including parents, siblings, and extended family members, must be provided by the caregiver, and he or she must assist the child in maintaining allowable visitation and other forms of communication. The department and lead agency shall provide a caregiver with the information, guidance, training, and support necessary for fulfilling this responsibility.*

2. *Provide adequate support to address any caregiver concerns and to enhance the caregiver's ability to facilitate contact between siblings who are not in the same out-of-home placement and promote the benefits of sibling contact.*

3. *Prioritize placements with kinship caregivers who have an established personal relationship with each child so that even when siblings cannot be placed together in the same home, kinship caregivers are more likely to facilitate contact.*

4. *Prioritize placement of siblings geographically near each other, such as in the same neighborhood or school district, to make it easier for the siblings to see each other regularly.*

5. *Encourage frequent and regular visitation, if the siblings choose to do so, to allow the children to be actively involved in each other's lives and to participate in celebrations, including, but not limited to, birthdays, graduations, holidays, school and extracurricular activities, cultural customs, and other milestones.*

6. *Provide other forms of contact when regular in-person meetings are not possible or are not sufficient to meet the needs or desires of the siblings, such as maintaining frequent contact through letters, e-mail, social media, cards, or telephone calls.*

7. *Coordinate, when possible, joint outings or summer or weekend camp experiences to facilitate time together, including, but not limited to, activities or camps specifically designed for siblings in out-of-home care.*

8. *Encourage joint respite care to assist the caregivers who are caring for separated siblings to have needed breaks while also facilitating contact among the siblings, including, but not limited to, providing babysitting or respite care for each other. A child being moved temporarily as respite care for the purpose of providing the primary caregiver relief and encouraging and facilitating contact among the siblings does not constitute a placement change or require the convening of a multidisciplinary team.*

9. *Prohibit the withholding of communication or visitation among the siblings as a form of punishment.*

(b) The court may not limit or restrict communication or visitation under this subsection unless there is a finding that the communication or visitation between the child and his or her siblings is contrary to the safety or well-being of the child. If the court makes such a finding, and services are available that would reasonably be expected to ameliorate the risk to the child's safety or well-being that are the basis of the court's finding and that may result in the communication and visitation being restored, the court must direct the department or community-based care lead agency to immediately provide such services.

(5) **SUBSEQUENT REVIEWS.—**

(a) The department and the lead agency shall periodically, but at least once every 6 months, reassess sibling placement, visitation, and other sibling contact decisions in cases where siblings are separated, not visiting, or not maintaining contact to determine if a change in placement is warranted unless the decision to not place a child with his or her sibling group was made due to such placement being inappropriate, unhealthy, or unsafe for the child.

(b) If a child in a sibling group who has been placed in an out-of-home care placement with his or her siblings does not adjust to the placement, the lead agency must provide services to the caregiver and sibling group in accordance with s. 39.4023(3) to try to prevent the disruption of the placement. If after reasonable efforts are made under s. 39.4023(3), the child still has not adjusted to the out-of-home placement, a multidisciplinary team staffing must be convened to determine what is best for all of the children. The multidisciplinary team shall review the current placement of the sibling group and choose a plan that will be least detrimental to each child. If the team determines that the best decision is to move the child who has not adjusted to a new out-of-home placement, the team must develop a transition plan in accordance with ss. 39.4022 and 39.4023 which ensures the opportunity for the siblings to maintain contact in accordance with subsection (4) of this section.

(c) If it becomes known that a child in out-of-home care has a sibling of whom the child, department, or lead agency was previously unaware, the department or lead agency must convene a multidisciplinary team staffing within a reasonable amount of time after the discovery of such sibling to decide if the current placement or permanency plan requires modification.

(6) **ADDITIONAL REQUIREMENTS AND CONSIDERATIONS.—**

(a) The department shall promptly provide a child with the location of and contact information for his or her siblings. If the existence or location of or contact information for a child's siblings is not known, the department must make reasonable efforts to ascertain such information.

(b)1. If a child's sibling is also in out-of-home care and such sibling leaves out-of-home care due to emancipation or reunification with his or her parent or guardian, the child must be allowed to communicate with that emancipated or reunified sibling, if the emancipated sibling or the reunified sibling and his or her parent consent.

2. If a child's sibling is also in out-of-home care and such sibling leaves out-of-home care for any reason, including, but not limited to, the reasons in subparagraph 1. and communication is not occurring, the child has a right to have the court consider the appropriateness of continued communication with his or her sibling. The court shall consider the recommendation of the department or community-based care lead agency and any other information deemed relevant by the court.

3. If a child's sibling leaves out-of-home care because he or she is adopted, the child may be allowed to have continued communication with the sibling either by consent of the adoptive parent or by order of the court in accordance with s. 63.0427.

(c) The department or the lead agency must document in writing any decision to separate siblings in the case file as required in s. 39.00146 and document the decision in the Florida Safe Families Network. The documentation must include any efforts made to keep the siblings together, an assessment of the short-term and long-term effects of separation on each child and the sibling group as a whole, and a description of the plan for communication or contact between the children if separation is approved.

(7) **EXEMPTION.—**Placements made pursuant to s. 63.082(6) are exempt from this section.

(8) **RULEMAKING AUTHORITY.—**The department shall adopt rules to implement this section.

Section 10. Section 39.522, Florida Statutes, is amended to read:

39.522 Postdisposition change of custody.—

(1) The court may change the temporary legal custody or the conditions of protective supervision at a postdisposition hearing, without the necessity of another adjudicatory hearing.

(2)(a)(1)(a) At any time before a child is residing in the permanent placement approved at the permanency hearing, a child who has been placed in the child's own home under the protective supervision of an authorized agent of the department, in the home of a relative, in the home of a legal custodian, or in some other place may be brought before the court by the department or by any other interested person, upon the filing of a motion alleging a need for a change in the conditions of protective supervision or the placement. If any party or the current caregiver denies the parents or other legal custodians deny the need for a change, the court shall hear all parties in person or by counsel, or both.

(b) Upon the admission of a need for a change or after such hearing, the court shall enter an order changing the placement, modifying the conditions of protective supervision, or continuing the conditions of protective supervision as ordered. The standard for changing custody of the child shall be the best interests of the child. When determining whether a change of legal custody or placement is in the best interests of the child, the court shall consider the factors listed in s. 39.01375 and the report filed by the multidisciplinary team, if applicable, unless the change of custody or placement is made pursuant to s. 63.082(6). The court shall also consider the priority of placements established under s. 39.4021 when making a decision regarding the best interest of the child in out-of-home care:

1. ~~The child's age.~~
2. ~~The physical, mental, and emotional health benefits to the child by remaining in his or her current placement or moving to the proposed placement.~~
3. ~~The stability and longevity of the child's current placement.~~
4. ~~The established bonded relationship between the child and the current or proposed caregiver.~~
5. ~~The reasonable preference of the child, if the court has found that the child is of sufficient intelligence, understanding, and experience to express a preference.~~
6. ~~The recommendation of the child's current caregiver.~~
7. ~~The recommendation of the child's guardian ad litem, if one has been appointed.~~
8. ~~The child's previous and current relationship with a sibling, if the change of legal custody or placement will separate or reunite siblings.~~
9. ~~The likelihood of the child attaining permanency in the current or proposed placement.~~
10. ~~Any other relevant factors.~~

(c)(b) If the child is not placed in foster care, the new placement for the child must meet the home study criteria and court approval under this chapter.

(3)(a) For purposes of this subsection, the term "change in physical custody" means a change by the department or community-based care lead agency to the child's physical residential address, regardless of whether such change requires a court order to change the legal custody of the child. However, this term does not include a change in placement made pursuant to s. 63.082(6).

(b)1. In a hearing on the change of physical custody under this section, there shall be a rebuttable presumption that it is in the child's best

interest to remain permanently in his or her current physical placement if:

- a. The child has been in the same safe and stable placement for 9 consecutive months or more;
- b. Reunification is not a permanency option for the child;
- c. The caregiver is able, willing, and eligible for consideration as an adoptive parent or permanent custodian for the child;
- d. The caregiver is not requesting the change in physical placement; and
- e. The change in physical placement being sought is not to reunify the child with his or her parent or sibling or transition the child from a safe and stable nonrelative caregiver to a safe and stable relative caregiver.

2. In order to rebut the presumption established in this paragraph, the court shall hold an evidentiary hearing on the change in physical custody to determine if the change in placement is in the best interest of the child. As part of the evidentiary hearing, the court must consider competent and substantial evidence and testimony related to the factors enumerated in s. 39.01375 and any other evidence deemed relevant to a determination of placement, including evidence from a court-selected neutral and independent licensed professional with expertise in the science and research of child-parent bonding.

3. This presumption may not be rebutted solely by the expressed wishes of a biological parent, a biological relative, or a caregiver of a sibling of the child.

(c)1. The department or community-based care lead agency must notify a current caregiver who has been in the physical custody placement for at least 9 consecutive months and who meets all the established criteria in paragraph (b) of an intent to change the physical custody of the child, and a multidisciplinary team staffing must be held in accordance with ss. 39.4022 and 39.4023 at least 21 days before the intended date for the child's change in physical custody, unless there is an emergency situation as defined in s. 39.4022(2)(b). If there is not a unanimous decision reached by the multidisciplinary team, the department's official position must be provided to the parties within the designated time period as provided for in s. 39.4022.

2. A caregiver who objects to the department's official position on the change in physical custody must notify the court and the department or community-based care lead agency of his or her objection and the intent to request an evidentiary hearing in writing in accordance with this section within 5 days after receiving notice of the department's official position provided under subparagraph 1. The transition of the child to the new caregiver may not begin before the expiration of the 5-day period within which the current caregiver may object.

3. Upon the department or community-based care lead agency receiving written notice of the caregiver's objection, the change to the child's physical custody must be placed in abeyance and the child may not be transitioned to a new physical placement without a court order, unless there is an emergency situation as defined in s. 39.4022(2)(b).

4. Within 7 days after receiving written notice from the caregiver, the court must conduct an initial case status hearing, at which time the court must:

- a. Grant party status to the current caregiver who is seeking permanent custody and has maintained physical custody of that child for at least 9 continuous months for the limited purpose of filing a motion for a hearing on the objection and presenting evidence pursuant to this subsection;
- b. Appoint an attorney for the child who is the subject of the permanent custody proceeding, in addition to the guardian ad litem, if one is appointed;
- c. Advise the caregiver of his or her right to retain counsel for purposes of the evidentiary hearing; and
- d. Appoint a court-selected neutral and independent licensed professional with expertise in the science and research of child-parent bonding.

(d) The court must conduct the evidentiary hearing and provide a written order of its findings regarding the placement that is in the best interest of the child no later than 90 days after the date the caregiver provided written notice to the court under this subsection. The court must provide its written order to the department or community-based care lead agency, the caregiver, and the prospective caregiver. The party status granted to the current caregiver under sub-subparagraph (c)4.a. terminates upon the written order by the court, or upon the 90-day time limit established in this paragraph, whichever occurs first.

(e) If the court orders that the physical custody of the child change from the current caregiver after the evidentiary hearing, the department or community-based care lead agency must implement the appropriate transition plan developed in accordance with ss. 39.4022 and 39.4023 or as ordered by the court.

(4)(2) In cases where the issue before the court is whether a child should be reunited with a parent, the court shall review the conditions for return and determine whether the circumstances that caused the out-of-home placement and issues subsequently identified have been remedied to the extent that the return of the child to the home with an in-home safety plan prepared or approved by the department will not be detrimental to the child's safety, well-being, and physical, mental, and emotional health.

(5)(3) In cases where the issue before the court is whether a child who is placed in the custody of a parent should be reunited with the other parent upon a finding that the circumstances that caused the out-of-home placement and issues subsequently identified have been remedied to the extent that the return of the child to the home of the other parent with an in-home safety plan prepared or approved by the department will not be detrimental to the child, the standard shall be that the safety, well-being, and physical, mental, and emotional health of the child would not be endangered by reunification and that reunification would be in the best interest of the child.

(6)(4) In cases in which the issue before the court is whether to place a child in out-of-home care after the child was placed in the child's own home with an in-home safety plan or the child was reunified with a parent or caregiver with an in-home safety plan, the court must consider, at a minimum, the following factors in making its determination whether to place the child in out-of-home care:

- (a) The circumstances that caused the child's dependency and other subsequently identified issues.
- (b) The length of time the child has been placed in the home with an in-home safety plan.
- (c) The parent's or caregiver's current level of protective capacities.
- (d) The level of increase, if any, in the parent's or caregiver's protective capacities since the child's placement in the home based on the length of time the child has been placed in the home.

The court shall additionally evaluate the child's permanency goal and change the permanency goal as needed if doing so would be in the best interests of the child. If the court changes the permanency goal, the case plan must be amended pursuant to s. 39.6013(5).

Section 11. Subsections (2) and (5) of section 39.523, Florida Statutes, are amended to read:

39.523 Placement in out-of-home care.—

(2) ASSESSMENT AND PLACEMENT.—When any child is removed from a home and placed in ~~into~~ out-of-home care, a comprehensive placement assessment process shall be completed in accordance with s. 39.4022 to determine the level of care needed by the child and match the child with the most appropriate placement.

(a) The community-based care lead agency or subcontracted agency with the responsibility for assessment and placement must coordinate a multidisciplinary team staffing as established in s. 39.4022 with the necessary participants for the stated purpose of the staffing with any available individual currently involved with the child including, but not limited to, a representative from the department and the case manager for the child; a therapist, attorney ad litem, guardian ad litem, teachers, coaches, Children's Medical Services; and other community providers of

services to the child or stakeholders as applicable. The team may also include clergy, relatives, and fictive kin if appropriate. Team participants must gather data and information on the child which is known at the time including, but not limited to:

- ~~1. Mental, medical, behavioral health, and medication history;~~
- ~~2. Community ties and school placement;~~
- ~~3. Current placement decisions relating to any siblings;~~
- ~~4. Alleged type of abuse or neglect including sexual abuse and trafficking history; and~~
- ~~5. The child's age, maturity, strengths, hobbies or activities, and the child's preference for placement.~~

(b) The comprehensive placement assessment process may also include the use of an assessment instrument or tool that is best suited for the individual child.

(c) The most appropriate available out-of-home placement shall be chosen after consideration by all members of the multidisciplinary team of all of the information and data gathered, including the results and recommendations of any evaluations conducted.

(d) Placement decisions for each child in out-of-home placement shall be reviewed as often as necessary to ensure permanency for that child and address special issues related to this population of children.

(e) When a child has been adjudicated dependent, a case plan has been filed with the court, and:

1. The child continues to be abused, neglected, or abandoned by the parent or parents. The failure of the parent or parents to substantially comply with the case plan for a period of 12 months after an adjudication of the child as a dependent child or the child's placement into shelter care, whichever occurs first, constitutes evidence of continuing abuse, neglect, or abandonment unless the failure to substantially comply with the case plan was due to the parent's lack of financial resources or to the failure of the department to make reasonable efforts to reunify the parent and child. The 12-month period begins to run only after the child's placement into shelter care or the entry of a disposition order placing the custody of the child with the department or a person other than the parent and the court's approval of a case plan having the goal of reunification with the parent, whichever occurs first; or

2. The parent or parents have materially breached the case plan by their action or inaction. Time is of the essence for permanency of children in the dependency system. In order to prove the parent or parents have materially breached the case plan, the court must find by clear and convincing evidence that the parent or parents are unlikely or unable to substantially comply with the case plan before time to comply with the case plan expires.

3. The child has been in care for any 12 of the last 22 months and the parents have not substantially complied with the case plan so as to permit reunification under s. 39.522(4) ~~s. 39.522(2)~~ unless the failure to substantially comply with the case plan was due to the parent's lack of financial resources or to the failure of the department to make reasonable efforts to reunify the parent and child.

Section 15. Section 39.8155, Florida Statutes, is created to read:

39.8155 Reinstatement of parental rights.—

(1) After parental rights have been terminated in accordance with this part, the department, the parent whose rights were terminated, or the child may file a motion to reinstate the parent's parental rights. The court may consider a motion to reinstate parental rights if:

(a) The grounds for termination of parental rights were based on s. 39.806(1)(a) or (e)1.-3.

(b) The parent is not the verified perpetrator of sexual or physical abuse of the child.

(c) The parent has not been a perpetrator involved in any verified reports of abuse, neglect, or abandonment since his or her parental rights for the child were terminated.

(d) The parent has not had his or her parental rights terminated for any other child, under any grounds, in this state or any other jurisdiction, since his or her parental rights for the child were terminated.

(e) The child is at least 13 years of age.

(f) The child has not achieved permanency and is not in a preadoptive placement, and at least 36 months have passed since the termination of parental rights.

(2) The court shall dismiss a motion to reinstate parental rights if the criteria are not met in subsection (1).

(3) If a motion to reinstate parental rights is filed, the court shall consider all relevant evidence, including whether:

(a) The child possesses sufficient maturity to express a preference regarding the reinstatement of parental rights.

(b) The child is not in a preadoptive home or under permanent guardianship.

(c) The parent has a documented change in behavior such that, given the current age and maturity of the child, the circumstances that brought the child into care are remedied.

(d) The parent demonstrates sufficient protective capacities, given the child's age, physical and behavioral health, and any other specific characteristics and needs, such that the risk of the child reentering care is low.

(e) Both the parent and child wish to reinstate parental rights.

(f) The child's guardian ad litem recommends the reinstatement of parental rights.

(g) A multidisciplinary team was convened under s. 39.4022 and recommends the reinstatement of parental rights and has developed a plan to transition the child to the former parent's care pursuant to s. 39.4023.

(4) Upon finding that the criteria in subsection (3) are established by clear and convincing evidence, the court shall order the department to conduct supervised visitation and trial home visits between the child and former parent for at least 3 consecutive months after the completion of a home study. In issuing the order, the court shall consider the transition plan developed by the child's multidisciplinary team. The department shall report to the court at least once every 30 days regarding the former parent's interactions with the child and recommend whether the court should reinstate parental rights. The department shall immediately cease the visitation with the former parent if there is an allegation of abuse, neglect, or abandonment of the child by the parent; if the department determines that the child's safety or well-being is threatened;

or that such visitation is not in the child's best interest. The department shall immediately notify the court if it ceases visitation between the child and former parent.

(5) The court may reinstate parental rights upon a finding of clear and convincing evidence that it is in the best interest of the child. Upon ordering reinstatement of parental rights, the court shall place the child in the custody of the former parent with an in-home safety plan. The court shall retain jurisdiction for at least 6 months, during which the department shall supervise the placement and report to the court on the stability of the placement. The court shall determine whether its jurisdiction should be continued or terminated 6 months after reinstating parental rights based on a report from the department or the child's guardian ad litem and any other relevant factors.

Section 16. Subsections (3), (5), and (7) of section 409.1451, Florida Statutes, are amended, and subsections (1), (2), (4), (6), and (8) through (11) of that section are reenacted, to read:

409.1451 The Road-to-Independence Program.—

(1) LEGISLATIVE FINDINGS AND INTENT.—

(a) The Legislature recognizes that most children and young adults are resilient and, with adequate support, can expect to be successful as independent adults. Not unlike many young adults, some young adults who have lived in foster care need additional support and resources for a period of time after reaching 18 years of age.

(b) The Legislature finds that while it is important to provide young adults who have lived in foster care with education and independent living skills, there is also a need to focus more broadly on creating and preserving family relationships so that young adults have a permanent connection with at least one committed adult who provides a safe and stable parenting relationship.

(c) It is the intent of the Legislature that young adults who choose to participate in the program receive the skills, education, and support necessary to become self-sufficient and leave foster care with a lifelong connection to a supportive adult through the Road-to-Independence Program, either through postsecondary education services and support, as provided in subsection (2), or aftercare services.

(2) POSTSECONDARY EDUCATION SERVICES AND SUPPORT.—

(a) A young adult is eligible for services and support under this subsection if he or she:

1. Was living in licensed care on his or her 18th birthday or is currently living in licensed care; or was at least 16 years of age and was adopted from foster care or placed with a court-approved dependency guardian after spending at least 6 months in licensed care within the 12 months immediately preceding such placement or adoption;

2. Spent at least 6 months in licensed care before reaching his or her 18th birthday;

3. Earned a standard high school diploma pursuant to s. 1002.3105(5), s. 1003.4281, or s. 1003.4282, or its equivalent pursuant to s. 1003.435;

4. Has been admitted for enrollment as a full-time student or its equivalent in an eligible postsecondary educational institution as provided in s. 1009.533. For purposes of this section, the term "full-time" means 9 credit hours or the vocational school equivalent. A student may enroll part-time if he or she has a recognized disability or is faced with another challenge or circumstance that would prevent full-time attendance. A student needing to enroll part-time for any reason other than having a recognized disability must get approval from his or her academic advisor;

5. Has reached 18 years of age but is not yet 23 years of age;

6. Has applied, with assistance from the young adult's caregiver and the community-based lead agency, for any other grants and scholarships for which he or she may qualify;

7. Submitted a Free Application for Federal Student Aid which is complete and error free; and

8. Signed an agreement to allow the department and the community-based care lead agency access to school records.

(b) The amount of the financial assistance shall be as follows:

1. For a young adult who does not remain in foster care and is attending a postsecondary school as provided in s. 1009.533, the amount is \$1,256 monthly.

2. For a young adult who remains in foster care, is attending a postsecondary school, as provided in s. 1009.533, and continues to reside in a licensed foster home, the amount is the established room and board rate for foster parents. This takes the place of the payment provided for in s. 409.145(3).

3. For a young adult who remains in foster care, but temporarily resides away from a licensed foster home for purposes of attending a postsecondary school as provided in s. 1009.533, the amount is \$1,256 monthly. This takes the place of the payment provided for in s. 409.145(3).

4. For a young adult who remains in foster care, is attending a postsecondary school as provided in s. 1009.533, and continues to reside in a licensed group home, the amount is negotiated between the community-based care lead agency and the licensed group home provider.

5. For a young adult who remains in foster care, but temporarily resides away from a licensed group home for purposes of attending a postsecondary school as provided in s. 1009.533, the amount is \$1,256 monthly. This takes the place of a negotiated room and board rate.

6. A young adult is eligible to receive financial assistance during the months when he or she is enrolled in a postsecondary educational institution.

(c) Payment of financial assistance for a young adult who:

1. Has chosen not to remain in foster care and is attending a postsecondary school as provided in s. 1009.533, shall be made to the community-based care lead agency in order to secure housing and utilities, with the balance being paid directly to the young adult until such time the lead agency and the young adult determine that the young adult can successfully manage the full amount of the assistance.

2. Has remained in foster care under s. 39.6251 and who is attending postsecondary school as provided in s. 1009.533, shall be made directly to the foster parent or group home provider.

3. Community-based care lead agencies or other contracted providers are prohibited from charging a fee associated with administering the Road-to-Independence payments.

(d)1. The department must advertise the availability of the stipend and must provide notification of the criteria and application procedures for the stipend to children and young adults leaving, or who were formerly in, foster care; caregivers; case managers; guidance and family services counselors; principals or other relevant school administrators; and guardians ad litem.

2. If the award recipient transfers from one eligible institution to another and continues to meet eligibility requirements, the award shall be transferred with the recipient.

3. The department, or an agency under contract with the department, shall evaluate each Road-to-Independence award for renewal eligibility on an annual basis. In order to be eligible for a renewal award for the subsequent year, the young adult must:

a. Be enrolled for or have completed the number of hours, or the equivalent, to be considered a full-time student under subparagraph (a) 4., unless the young adult qualifies for an exception under subparagraph (a)4.

b. Maintain standards of academic progress as defined by the education institution, except that if the young adult's progress is insufficient to renew the award at any time during the eligibility period,

the young adult may continue to be enrolled for additional terms while attempting to restore eligibility as long as progress towards the required level is maintained.

4. Funds may be terminated during the interim between an award and the evaluation for a renewal award if the department, or an agency under contract with the department, determines that the award recipient is no longer enrolled in an educational institution as described in subparagraph (a)4. or is no longer a resident of this state.

5. The department, or an agency under contract with the department, shall notify a recipient who is terminated and inform the recipient of his or her right to appeal.

6. An award recipient who does not qualify for a renewal award or who chooses not to renew the award may apply for reinstatement. An application for reinstatement must be made before the young adult reaches 23 years of age. In order to be eligible for reinstatement, the young adult must meet the eligibility criteria and the criteria for award renewal for the program.

(3) **AFTERCARE SERVICES.—**

(a)1. Aftercare services are available to a young adult who has reached 18 years of age but is not yet 23 years of age and is:

(c) Temporary assistance provided to prevent homelessness shall be provided as expeditiously as possible and within the limitations defined by the department.

(4) **APPEALS PROCESS.—**

(a) The department shall have a procedure by which a young adult may appeal the department's refusal to provide Road-to-Independence Program services or support, or the termination of such services or support if funds for such services or support are available.

(b) The appeal procedure must be readily accessible to young adults, must provide for timely decisions, and must provide for an appeal to the department. The decision of the department constitutes final agency action and is reviewable by the court as provided in s. 120.68.

(5) **QUALITY ASSURANCE.**—*On an ongoing basis, the department's quality assurance program shall review screened-out reports involving three or more unaccepted reports on a single child, when jurisdiction applies, in order to detect such things as harassment and situations that warrant an investigation because of the frequency of the reports or the variety of the sources of the reports. A component of the quality assurance program must analyze unaccepted reports to the central abuse hotline by identified relatives as a part of the review of screened-out reports. The Assistant Secretary for Child Welfare may refer a case for investigation when it is determined, as a result of such review, that an investigation may be warranted.*

Such counselors must receive periodic training in encouraging all reporters to provide their names when making a report.

(2) EXCEPTIONS TO REPORTING.—

(a) An additional report of child abuse, abandonment, or neglect is not required to be made by:

1. A professional who is hired by or who enters into a contract with the department for the purpose of treating or counseling a person as a result of a report of child abuse, abandonment, or neglect if such person was the subject of the referral for treatment or counseling.

2. An officer or employee of the judicial branch when the child is currently being investigated by the department, when there is an existing dependency case, or when the matter has previously been reported to the department if there is reasonable cause to believe that the information is already known to the department. This subparagraph applies only when the information related to the alleged child abuse, abandonment, or neglect has been provided to such officer or employee in the course of carrying out his or her official duties.

3. An officer or employee of a law enforcement agency when the incident under investigation by the law enforcement agency was reported to law enforcement by the central abuse hotline through the electronic transfer of the report or telephone call. The department's central abuse hotline is not required to electronically transfer calls or reports received under sub-subparagraph (1)(a)1.b. to the county sheriff's office if the matter was initially reported to the department by the county sheriff's office or by another law enforcement agency. This subparagraph applies only when the information related to the alleged child abuse, abandonment, or neglect has been provided to the officer or employee of a law enforcement agency or central abuse hotline counselor in the course of carrying out his or her official duties.

(b) Nothing in this section or in the contract with community-based care providers for foster care and related services as specified in s. 409.987 may be construed to remove or reduce the duty and responsibility of any person, including any employee of the community-based care provider, to report a known or suspected case of child abuse, abandonment, or neglect to the department's central abuse hotline.

(3) ADDITIONAL CIRCUMSTANCES RELATED TO REPORTS.—

(a) Abuse occurring out of state.—

1. Except as provided in subparagraph 2., the central abuse hotline may not take a report or call of known or suspected child abuse, abandonment, or neglect when the report or call is related to abuse, aban-

2. If the alleged victim is currently being evaluated in a medical facility in this state, the central abuse hotline must accept the report or call for investigation and must transfer the information in the report or call to the appropriate state or country.

(b) Reports received from emergency room physicians.—The department must initiate an investigation when it receives a report from an emergency room physician.

(c) Abuse involving impregnation of a child.—A report must be immediately electronically transferred to the appropriate county sheriff's office or other appropriate law enforcement agency by the central abuse hotline if the report is of an instance of known or suspected child abuse involving impregnation of a child 15 years of age or younger by a person 21 years of age or older under s. 827.04(3). If the report is of known or suspected child abuse under s. 827.04(3), subsection (1) does not apply to health care professionals or other professionals who provide medical or counseling services to pregnant children when such reporting would interfere with the provision of such medical or counseling services.

(e) Surrendered newborn infants.—

1. The central abuse hotline must receive reports involving surrendered newborn infants as described in s. 383.50.

2.a. A report may not be considered a report of child abuse, abandonment, or neglect solely because the infant has been left at a hospital, emergency medical services station, or fire station under s. 383.50.

b. If the report involving a surrendered newborn infant does not include indications of child abuse, abandonment, or neglect other than that necessarily entailed in the infant having been left at a hospital, emergency medical services station, or fire station, the central abuse hotline must provide to the person making the report the name of an eligible licensed child-placing agency that is required to accept physical custody of and to place surrendered newborn infants. The department shall provide names of eligible licensed child-placing agencies on a rotating basis.

3. If the report includes indications of child abuse, abandonment, or neglect beyond that necessarily entailed in the infant having been left at a hospital, emergency medical services station, or fire station, the report must be considered as a report of child abuse, abandonment, or neglect and, notwithstanding chapter 383, is subject to s. 39.395 and all other relevant provisions of this chapter.

(4) REPORTS OF CHILD ABUSE, ABANDONMENT, OR NEGLECT BY A PARENT, LEGAL CUSTODIAN, CAREGIVER, OR OTHER PERSON RESPONSIBLE FOR A CHILD'S WELFARE.—

2. Any report meeting the statutory criteria for child abuse, abandonment, or neglect must be accepted for a child protective investigation pursuant to part III of this chapter.

(b)1. Any call received from a parent or legal custodian seeking assistance for himself or herself which does not meet the criteria for being a report of child abuse, abandonment, or neglect may be accepted by the central abuse hotline for response to ameliorate a potential future risk of harm to a child.

2. The department must refer the parent or legal custodian for appropriate voluntary community services if it is determined by the department that a need for community services exists.

(5) REPORTS OF SEXUAL ABUSE OF A CHILD OR JUVENILE SEXUAL ABUSE; REPORTS OF A CHILD WHO HAS EXHIBITED INAPPROPRIATE SEXUAL BEHAVIOR.—

(a)1. *Sexual abuse of a child or juvenile sexual abuse must be reported immediately to the central abuse hotline, including any alleged incident involving a child who is in the custody of or under the protective supervision of the department. Such reports may be made in writing, through the statewide toll-free telephone number, or through electronic reporting.*

2. *Within 48 hours after the central abuse hotline receives a report under subparagraph 1., the department shall conduct an assessment, assist the family in receiving appropriate services under s. 39.307, and send a written report of the allegation to the appropriate county sheriff's office.*

(b) *Reports involving a child who has exhibited inappropriate sexual behavior must be made and received by the central abuse hotline. Within 48 hours after receiving a report under this paragraph, the department shall conduct an assessment, assist the family in receiving appropriate services under s. 39.307, and send a written report of the allegation to the appropriate county sheriff's office.*

(c) *The services identified in the assessment conducted under paragraph (a) or paragraph (b) must be provided in the least restrictive environment possible and must include, but are not limited to, child advocacy center services under s. 39.3035 and sexual abuse treatment programs developed and coordinated by the Children's Medical Services Program in the Department of Health under s. 39.303.*

(d) *The department shall ensure that the facts and results of any investigation of sexual abuse of a child or juvenile sexual abuse involving a child in the custody of or under the protective supervision of the department are made known to the court at the next hearing and are included in the next report to the court concerning the child.*

(e)1. *In addition to conducting an assessment and assisting the family in receiving appropriate services, the department shall conduct a child protective investigation under part III of this chapter if the incident leading to a report occurs on school premises, on school transportation, at a school-sponsored off-campus event, at a public or private school readiness or prekindergarten program, at a public K-12 school, at a private school, at a Florida College System institution, at a state university, or at any other school. The child protective investigation must include an interview with the child's parent or legal custodian.*

2. *The department shall orally notify the Department of Education; the law enforcement agency having jurisdiction over the municipality or county in which the school, program, institution, or university is located; and, as appropriate, the superintendent of the school district in which the school is located, the administrative officer of the private school, or the owner of the private school readiness or prekindergarten program provider.*

3. *The department shall make a full written report to the law enforcement agency having jurisdiction over the municipality or county in which the school, program, institution, or university is located within 3 business days after making the oral report. Whenever possible, any criminal investigation must be coordinated with the department's child protective investigation. Any interested person who has information regarding sexual abuse of a child or juvenile sexual abuse may forward a statement to the department.*

(6) MANDATORY REPORTS OF A CHILD DEATH.—*Any person required to report or investigate cases of suspected child abuse, abandonment, or neglect who has reasonable cause to suspect that a child died as a result of child abuse, abandonment, or neglect shall report his or her suspicion to the appropriate medical examiner. The medical examiner shall accept the report for investigation and report his or her findings, in writing, to the local law enforcement agency, the appropriate state attorney, and the department. Autopsy reports maintained by the medical examiner are not subject to the confidentiality requirements under s. 39.202.*

One investigation shall be initiated for an allegation of sexual abuse that is based on the same act, criminal episode, or transaction regardless of the number of reports that are made about the allegations to the central abuse hotline.*

Section 7. Section 39.208, Florida Statutes, is created to read:

39.208 *Cross-reporting child abuse, abandonment, or neglect and animal cruelty*.—

(1) **LEGISLATIVE FINDINGS AND INTENT**.—

(a) *The Legislature recognizes that animal cruelty of any kind is a type of interpersonal violence that often co-occurs with child abuse and other forms of family violence, including elder abuse and domestic violence. Early identification of animal cruelty is an important tool in safeguarding children from abuse, abandonment, and neglect; providing needed support to families; and protecting animals.*

(b) *The Legislature finds that education and training for child protective investigators and animal control officers should include information on the link between the welfare of animals in the family and child safety and protection.*

(c) *Therefore, it is the intent of the Legislature to require reporting and cross-reporting protocols and collaborative training between child protective investigators and animal control officers to help protect the safety and well-being of children, their families, and their animals.*

(2) **RESPONSIBILITIES OF CHILD PROTECTIVE INVESTIGATORS**.—

(a) *Any person who is required to investigate child abuse, abandonment, or neglect under this chapter and who, while acting in his or her professional capacity or within the scope of employment, knows or has reasonable cause to suspect that animal cruelty, as those terms are defined in s. 828.27(1)(a) and (d), respectively, has occurred at the same address shall report such knowledge or suspicion within 72 hours after the child protective investigator becomes aware of the known or suspected animal cruelty to his or her supervisor who shall submit the report to a local animal control agency. The report must include all of the following information:*

1. A description of the animal and of the known or suspected animal cruelty.
2. The name and address of the animal's owner or keeper, if that information is available to the child protective investigator.

3. Any other information available to the child protective investigator which might assist an animal control officer, as defined in s. 828.27(1)(b), or law enforcement officer in establishing the cause of the animal cruelty and the manner in which it occurred.

(b) A child protective investigator who makes a report under this section is presumed to have acted in good faith. An investigator acting in good faith who makes a report under this section or who cooperates in an investigation of known or suspected animal cruelty is immune from any civil or criminal liability or administrative penalty or sanction that might otherwise be incurred in connection with making the report or otherwise cooperating.

(3) **RESPONSIBILITIES OF ANIMAL CONTROL OFFICERS.**— Any person who is required to investigate animal cruelty under chapter 828 and who, while acting in his or her professional capacity or within the scope of employment, knows or has reasonable cause to suspect that a child is abused, abandoned, or neglected by a parent, legal custodian, caregiver, or other person responsible for the child's welfare or that a child is in need of supervision and care and does not have a parent, a legal custodian, or a responsible adult relative immediately known and available to provide supervision and care to that child shall immediately report such knowledge or suspicion to the department's central abuse hotline.

(4) **PENALTIES.**—

(a) A child protective investigator who is required to report known or suspected animal cruelty under subsection (2) and who knowingly and willfully fails to do so commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(b) An animal control officer, as defined in s. 828.27(1)(b), who is required to report known or suspected abuse, abandonment, or neglect of a child under subsection (3) and who knowingly and willfully fails to report an incident of known or suspected abuse, abandonment, or neglect, as required by s. 39.201 is subject to the penalties under s. 39.205.

(5) **TRAINING.**—The department, in consultation with animal welfare associations, shall develop or adapt and use already available training materials in a 1-hour training course for all child protective investigators and animal control officers on the accurate and timely identification and reporting of child abuse, abandonment, or neglect or animal cruelty and the interconnectedness of such abuse, abandonment, or neglect. The department shall incorporate into the required training for child protective investigators information on the identification of harm to and neglect of animals and the relationship of such activities to child welfare case practice. The 1-hour training course developed for animal control officers must include a component that advises such officers of the mandatory duty to report any known or suspected child abuse, abandonment, or neglect under this section and s. 39.201 and the criminal penalties associated with a violation of failing to report known or suspected child abuse, abandonment, or neglect which is punishable as provided under s. 39.205.

(6) **RULEMAKING.**—The department shall adopt rules to implement this section.

Section 8. Subsection (6) and paragraph (a) of subsection (9) of section 39.301, Florida Statutes, are amended, and subsection (24) is added to that section, to read:

39.301 Initiation of protective investigations.—

(6) Upon commencing an investigation under this part, if a report was received from a reporter under s. 39.201(1)(a)2. ~~s. 39.201(1)(b)~~, the protective investigator must provide his or her contact information to the reporter within 24 hours after being assigned to the investigation. The investigator must also advise the reporter that he or she may provide a written summary of the report made to the central abuse hotline to the investigator which shall become a part of the electronic child welfare case file.

(9)(a) For each report received from the central abuse hotline and accepted for investigation, the department or the sheriff providing child protective investigative services under s. 39.3065, shall perform the following child protective investigation activities to determine child safety:

1. Conduct a review of all relevant, available information specific to the child and family and alleged maltreatment; family child welfare history; local, state, and federal criminal records checks; and requests for law enforcement assistance provided by the abuse hotline. Based on a review of available information, including the allegations in the current report, a determination shall be made as to whether immediate consultation should occur with law enforcement, the Child Protection Team, a domestic violence shelter or advocate, or a substance abuse or mental health professional. Such consultations should include discussion as to whether a joint response is necessary and feasible. A determination shall be made as to whether the person making the report should be contacted before the face-to-face interviews with the child and family members.

2. Conduct face-to-face interviews with the child; other siblings, if any; and the parents, legal custodians, or caregivers.

3. Assess the child's residence, including a determination of the composition of the family and household, including the name, address, date of birth, social security number, sex, and race of each child named in the report; any siblings or other children in the same household or in the care of the same adults; the parents, legal custodians, or caregivers; and any other adults in the same household.

4. Determine whether there is any indication that any child in the family or household has been abused, abandoned, or neglected; the nature and extent of present or prior injuries, abuse, or neglect, and any evidence thereof; and a determination as to the person or persons apparently responsible for the abuse, abandonment, or neglect, including the name, address, date of birth, social security number, sex, and race of each such person.

5. Complete assessment of immediate child safety for each child based on available records, interviews, and observations with all persons named in subparagraph 2. and appropriate collateral contacts, which may include other professionals, and *continually assess the child's safety throughout the investigation*. The department's child protection investigators are hereby designated a criminal justice agency for the purpose of accessing criminal justice information to be used for enforcing this state's laws concerning the crimes of child abuse, abandonment, and neglect. This information shall be used solely for purposes supporting the detection, apprehension, prosecution, pretrial release, posttrial release, or rehabilitation of criminal offenders or persons accused of the crimes of child abuse, abandonment, or neglect and may not be further disseminated or used for any other purpose.

6. Document the present and impending dangers to each child based on the identification of inadequate protective capacity through utilization of a standardized safety assessment instrument. If present or impending danger is identified, the child protective investigator must implement a safety plan or take the child into custody. If present danger is identified and the child is not removed, the child protective investigator shall create and implement a safety plan before leaving the home or the location where there is present danger. If impending danger is identified, the child protective investigator shall create and implement a safety plan as soon as necessary to protect the safety of the child. The child protective investigator may modify the safety plan if he or she identifies additional impending danger.

- a. If the child protective investigator implements a safety plan, the plan must be specific, sufficient, feasible, and sustainable in response to the realities of the present or impending danger. A safety plan may be an in-home plan or an out-of-home plan, or a combination of both. A safety plan may include tasks or responsibilities for a parent, caregiver, or legal custodian. However, a safety plan may not rely on promissory commitments by the parent, caregiver, or legal custodian who is currently not able to protect the child or on services that are not available or will not result in the safety of the child. A safety plan may not be implemented if for any reason the parents, guardian, or legal custodian lacks the capacity or ability to comply with the plan. If the department is not able to develop a plan that is specific, sufficient, feasible, and sustainable, the department shall file a shelter petition. A child pro-

tective investigator shall implement separate safety plans for the perpetrator of domestic violence, if the investigator, using reasonable efforts, can locate the perpetrator to implement a safety plan, and for the parent who is a victim of domestic violence as defined in s. 741.28. Reasonable efforts to locate a perpetrator include, but are not limited to, a diligent search pursuant to the same requirements as in s. 39.503. If the perpetrator of domestic violence is not the parent, guardian, or legal custodian of any child in the home and if the department does not intend to file a shelter petition or dependency petition that will assert allegations against the perpetrator as a parent of a child in the home, the child protective investigator shall seek issuance of an injunction authorized by s. 39.504 to implement a safety plan for the perpetrator and impose any other conditions to protect the child. The safety plan for the parent who is a victim of domestic violence may not be shared with the perpetrator. If any party to a safety plan fails to comply with the safety plan resulting in the child being unsafe, the department shall file a shelter petition.

b. The child protective investigator shall collaborate with the community-based care lead agency in the development of the safety plan as necessary to ensure that the safety plan is specific, sufficient, feasible, and sustainable. The child protective investigator shall identify services necessary for the successful implementation of the safety plan. The child protective investigator and the community-based care lead agency shall mobilize service resources to assist all parties in complying with the safety plan. The community-based care lead agency shall prioritize safety plan services to families who have multiple risk factors, including, but not limited to, two or more of the following:

- (I) The parent or legal custodian is of young age;
- (II) The parent or legal custodian, or an adult currently living in or frequently visiting the home, has a history of substance abuse, mental illness, or domestic violence;
- (III) The parent or legal custodian, or an adult currently living in or frequently visiting the home, has been previously found to have physically or sexually abused a child;
- (IV) The parent or legal custodian, or an adult currently living in or frequently visiting the home, has been the subject of multiple allegations by reputable reports of abuse or neglect;
- (V) The child is physically or developmentally disabled; or
- (VI) The child is 3 years of age or younger.

c. The child protective investigator shall monitor the implementation of the plan to ensure the child's safety until the case is transferred to the lead agency at which time the lead agency shall monitor the implementation.

d. The department may file a petition for shelter or dependency without a new child protective investigation or the concurrence of the child protective investigator if the child is unsafe but for the use of a safety plan and the parent or caregiver has not sufficiently increased protective capacities within 90 days after the transfer of the safety plan to the lead agency.

(24) *At the beginning of and throughout an investigation of an allegation of sexual abuse of a child placed in out-of-home care, the child protective investigator must assess and take appropriate protective actions to address the safety of other children in the out-of-home placement, or who are accessible to the alleged perpetrator, who are not the subject of the allegation.*

Section 9. Subsections (1) and (2) of section 39.302, Florida Statutes, are amended to read:

39.302 Protective investigations of institutional child abuse, abandonment, or neglect.—

(1) The department shall conduct a child protective investigation of each report of institutional child abuse, abandonment, or neglect. Upon receipt of a report that alleges that an employee or agent of the department, or any other entity or person covered by s. 39.01(37) or (54), acting in an official capacity, has committed an act of child abuse, abandonment, or neglect, the department shall initiate a child protec-

tive investigation within the timeframe established under s. 39.101(2) ~~s. 39.201(5)~~ and notify the appropriate state attorney, law enforcement agency, and licensing agency, which shall immediately conduct a joint investigation, unless independent investigations are more feasible. When conducting investigations or having face-to-face interviews with the child, investigation visits shall be unannounced unless it is determined by the department or its agent that unannounced visits threaten the safety of the child. If a facility is exempt from licensing, the department shall inform the owner or operator of the facility of the report. Each agency conducting a joint investigation is entitled to full access to the information gathered by the department in the course of the investigation. A protective investigation must include an interview with the child's parent or legal guardian. The department shall make a full written report to the state attorney within 3 *business working* days after making the oral report. A criminal investigation shall be coordinated, whenever possible, with the child protective investigation of the department. Any interested person who has information regarding the offenses described in this subsection may forward a statement to the state attorney as to whether prosecution is warranted and appropriate. Within 15 days after the completion of the investigation, the state attorney shall report the findings to the department and shall include in the report a determination of whether or not prosecution is justified and appropriate in view of the circumstances of the specific case.

(2)(a) If in the course of the child protective investigation, the department finds that a subject of a report, by continued contact with children in care, constitutes a threatened harm to the physical health, mental health, or welfare of the children, the department may restrict a subject's access to the children pending the outcome of the investigation. The department or its agent shall employ the least restrictive means necessary to safeguard the physical health, mental health, and welfare of the children in care. This authority shall apply only to child protective investigations in which there is some evidence that child abuse, abandonment, or neglect has occurred. A subject of a report whose access to children in care has been restricted is entitled to petition the circuit court for judicial review. The court shall enter written findings of fact based upon the preponderance of evidence that child abuse, abandonment, or neglect did occur and that the department's restrictive action against a subject of the report was justified in order to safeguard the physical health, mental health, and welfare of the children in care. The restrictive action of the department shall be effective for no more than 90 days without a judicial finding supporting the actions of the department.

(b) *During an investigation, the alleged perpetrator may be represented by an attorney, at his or her own expense, or may be accompanied by another person, if the attorney or the other person executes an affidavit of understanding with the department and agrees to comply with the confidentiality requirements under s. 39.202. The absence of an attorney or accompanying person does not prevent the department from proceeding with other aspects of the investigation, including interviews with other persons. In institutional child abuse, abandonment, or neglect cases when the institution is not operational and the child cannot otherwise be located, the investigation must commence immediately upon the institution resuming operation. If requested by a state attorney or local law enforcement agency, the department shall furnish all investigative reports to such state attorney or agency.*

(c) ~~(b)~~ Upon completion of the department's child protective investigation, the department may make application to the circuit court for continued restrictive action against any person necessary to safeguard the physical health, mental health, and welfare of the children in care.

Section 10. Subsections (1), (2), and (3) of section 39.3035, Florida Statutes, are renumbered as subsections (2), (3), and (4), respectively, present subsection (3) is amended, and a new subsection (1) is added to that section, to read:

39.3035 Child advocacy centers; standards; state funding.—

(1) *Child advocacy centers are facilities that offer multidisciplinary services in a community-based, child-focused environment to children who are alleged to be victims of child abuse, abandonment, or neglect. The children served by such centers may have experienced a variety of*

types of child abuse, abandonment, or neglect, including, but not limited to, sexual abuse or severe physical abuse. The centers bring together, often in one location, child protective investigators, law enforcement officers, prosecutors, health care professionals, and mental health professionals to provide a coordinated, comprehensive response to victims and their caregivers.

(4)(9) A child advocacy center within this state may not receive the funds generated pursuant to s. 938.10, state or federal funds administered by a state agency, or any other funds appropriated by the Legislature unless all of the standards of subsection (2) (4) are met and the screening requirement of subsection (3) (2) is met. The Florida Network of Children’s Advocacy Centers, Inc., shall be responsible for tracking and documenting compliance with subsections (2) and (3) (1) and (2) for any of the funds it administers to member child advocacy centers.

(a) Funds for the specific purpose of funding children’s advocacy centers shall be appropriated to the Department of Children and Families from funds collected from the additional court cost imposed in cases of certain crimes against minors under s. 938.10. Funds shall be disbursed to the Florida Network of Children’s Advocacy Centers, Inc., as established under this section, for the purpose of providing community-based services that augment, but do not duplicate, services provided by state agencies.

(b) The board of directors of the Florida Network of Children’s Advocacy Centers, Inc., shall retain 10 percent of all revenues collected to be used to match local contributions, at a rate not to exceed an equal match, in communities establishing children’s advocacy centers. The board of directors may use up to 5 percent of the remaining funds to support the activities of the network office and must develop funding criteria and an allocation methodology that ensures an equitable distribution of remaining funds among network participants. The criteria and methodologies must take into account factors that include, but need not be limited to, the center’s accreditation status with respect to the National Children’s Alliance, the number of clients served, and the population of the area being served by the children’s advocacy center.

(c) At the end of each fiscal year, each children’s advocacy center receiving revenue as provided in this section must provide a report to the board of directors of the Florida Network of Children’s Advocacy Centers, Inc., which reflects center expenditures, all sources of revenue received, and outputs that have been standardized and agreed upon by network members and the board of directors, such as the number of clients served, client demographic information, and number and types of services provided. The Florida Network of Children’s Advocacy Centers, Inc., must compile reports from the centers and provide a report to the President of the Senate and the Speaker of the House of Representatives in August of each year.

Section 11. Subsection (3) of section 39.4015, Florida Statutes, is amended to read:

39.4015 Family finding.—

(3) FAMILY-FINDING PROGRAM.—~~Subject to available resources,~~ The department, in collaboration with sheriffs’ offices that conduct child protective investigations and community-based care lead agencies, shall ~~may~~ develop a formal family-finding program to be implemented by child protective investigators and community-based care lead agencies ~~as resources permit~~.

(a) Family-finding efforts shall ~~Family finding may~~ begin as soon as a child is taken into custody of the department, pursuant to s. 39.401, and throughout the duration of the case as necessary, finding and engaging with as many family members and fictive kin as possible for each child who may help with care or support for the child. The department or community-based care lead agency must specifically document strategies taken to locate and engage relatives and fictive kin. Strategies of engagement may include, but are not limited to, asking the relatives and fictive kin to:

1. Participate in a family group decisionmaking conference, family team conferencing, or other family meetings aimed at developing or supporting the family service plan;

2. Attend visitations with the child;
3. Assist in transportation of the child;
4. Provide respite or child care services; or
5. Provide actual kinship care.

(b) The ~~family-finding~~ family-finding program shall provide the department and the community-based care lead agencies with best practices for identifying family and fictive kin. The ~~family-finding~~ family-finding program must use diligent efforts in family finding and must continue those efforts until multiple relatives and fictive kin are identified, ~~and must go beyond basic searching tools by exploring alternative tools and methodologies.~~ Family-finding ~~Family finding~~ efforts by the department and the community-based care lead agency may include, but are not limited to:

1. Searching for and locating adult relatives and fictive kin.
2. Identifying and building positive connections between the child and the child’s relatives and fictive kin.
3. Supporting the engagement of relatives and fictive kin in social service planning and delivery of services and creating a network of extended family support to assist in remedying the concerns that led to the child becoming involved with the child welfare system, when appropriate.
4. Maintaining family connections, when possible.
5. Keeping siblings together in care, when in the best interest of each child and when possible.

(c) *To be compliant with this section, family-finding efforts must go beyond basic searching tools by exploring alternative tools and methodologies.* A basic computer search using the Internet or attempts to contact known relatives at a last known address or telephone number do not constitute effective family finding.

Section 12. Section 39.4085, Florida Statutes, is amended to read:

39.4085 ~~Legislative findings and declaration of intent for~~ Goals for dependent children; responsibilities; education.—

(i)(9) To be placed away from other children known to pose a threat of harm to them, either because of their own risk factors or those of the other child.

(v)(22) To organize as a group for purposes of ensuring that they receive the services and living conditions to which they are entitled and to provide support for one another while in the custody of the department.

Nothing in This subsection does not require section shall be interpreted as requiring the delivery of any particular service or level of service in excess of existing appropriations. A No person does not shall have a cause of action against the state or any of its subdivisions, agencies, contractors, subcontractors, or agents, based upon the adop-

tion of or failure to provide adequate funding for the achievement of these goals by the Legislature. This subsection does not Nothing herein shall require the expenditure of funds to meet the goals established in this subsection herein except those funds specifically appropriated for such purpose.

(2) The department shall operate with the understanding that the rights of children in shelter or foster care are critical to their safety, permanency, and well-being. The department shall work with all stakeholders to help such children become knowledgeable about their rights.

(3)(a) The case manager or other staff shall provide verbal and written instructions to a child entering shelter or foster care to educate the child on identifying and reporting abuse, abandonment, or neglect. The verbal and written instructions must use words and phrasing that each child can understand and must occur in a manner that is most effective for each child. The written instructions are only required if the child is of a sufficient age and understanding to receive such instructions. The case manager or other staff must give each child the opportunity to ask questions about his or her rights and how to identify and report abuse, abandonment, or neglect. The case manager or other staff shall document in court reports and case notes the date the information was provided to the child. The case manager or other staff must review the information with the child every 6 months and upon every placement change until the child leaves shelter or foster care.

(b) District school boards are authorized and encouraged to establish educational programs for students ages 5 through 18 relating to identifying and reporting abuse, abandonment, or neglect and the effects of such abuse, abandonment, or neglect on a child. The district school boards may provide such programs in conjunction with the youth mental health awareness and assistance training program required under s. 1012.584, any other mental health education program offered by the school district, or any of the educational instruction required under s. 1003.42(2).

Section 13. Paragraphs (c), (k), and (l) of subsection (1) of section 39.4087, Florida Statutes, are amended to read:

39.4087 Department goals and requirements relating to caregivers; dispute resolution.—

(1) To provide the best care to children, the Legislature establishes as goals for the department to treat foster parents, kinship caregivers, and nonrelative caregivers with dignity, respect, and trust while ensuring delivery of child welfare services is focused on the best interest of the child. To that end, regarding foster parents, kinship caregivers, and nonrelative caregivers caring for dependent children in their home, to the extent not otherwise prohibited by state or federal law and to the extent of current resources, the department will strive to:

(c)1. Fully disclose all relevant information regarding the child and the background of his or her biological family. A caregiver must maintain the confidentiality of any information as required by law. Such disclosure includes, but is not limited to:

a.1. Any issues relative to the child that may jeopardize the health and safety of the caregiver or other individuals residing in the household or alter the manner in which the caregiver would normally provide care.

b.2. Any delinquency or criminal record of the child, including, but not limited to, any pending petitions or adjudications of delinquency when the conduct constituting the delinquent act, if committed by an adult, would constitute murder in the first degree, murder in the second degree, rape, robbery, or kidnapping.

c.3. Information about any physical or sexual abuse the child has experienced.

d.4. Any behavioral issues that may affect the care and supervision of the child.

e.5. With parental consent to the extent required by law, any known health history and medical, psychological, or behavioral mental health issues or needs of the child, including, but not limited to, current in-

(k) Give at least 7 days' notice to a caregiver, to the extent possible, of any meeting or court hearing related to a child in his or her care. The notice ~~must~~ *shall* include, at minimum, ~~but is not limited to,~~ the name of the judge or hearing officer, the docket number, and the purpose and location of the hearing or meeting. Section 14. Section 39.4092, Florida Statutes, is created to read:

39.4092 *Multidisciplinary legal representation model program for parents of children in the dependency system.—*

(1) *LEGISLATIVE FINDINGS.—*

(a) *The Legislature finds that the use of a specialized team that includes an attorney, a social worker, and a parent-peer specialist, also known as a multidisciplinary legal representation model program, in dependency judicial matters is effective in reducing safety risks to children and providing families with better outcomes, such as significantly reducing the time the children spend in out-of-home care and achieving permanency more quickly.*

(b) *The Legislature finds that parents in dependency court often suffer from multiple challenges, such as mental illness, substance use disorder, domestic violence or other trauma, unstable housing, or unemployment. These challenges are often a contributing factor to children experiencing instability or safety risks. While these challenges may result in legal involvement or require legal representation, addressing the underlying challenges in a manner that achieves stability often falls within the core functions of the practice of social work.*

(c) *The Legislature also finds that social work professionals have a unique skill set, including client assessment and clinical knowledge of family dynamics. This unique skill set allows these professionals to interact and engage with families in meaningful and unique ways that are distinct from the ways in which the families interact with attorneys or other professional staff involved in dependency matters. Additionally, social work professionals are skilled at quickly connecting families facing crisis to resources that can address the specific underlying challenges.*

(d) *The Legislature finds that there is a great benefit to using parent-peer specialists in the dependency system, which allows parents who have successfully navigated the dependency system and have been successfully reunified with their children to be paired with parents whose children are currently involved in the dependency system. By working with someone who has personally lived the experience of overcoming great personal crisis, parents currently involved in the dependency system have a greater ability to address the underlying challenges that resulted in the instability and safety risk to their children, to provide a safe and stable home environment, and to be successfully reunified.*

(e) *The Legislature further finds that current federal law authorizes the reimbursement of a portion of the cost of attorneys for parents and children in eligible cases, whereas such funds were formerly restricted to foster care administrative costs.*

(f) *The Legislature finds it is necessary to encourage and facilitate the use of a multidisciplinary legal representation model for parents and their children in order to improve outcomes for those families involved in the dependency system and to provide the families who find themselves in a crisis with the best opportunity to be successful in creating safe and stable homes for their children.*

(2) *ESTABLISHMENT.—Each office of criminal conflict and civil regional counsel established under s. 27.511 may establish a multidisciplinary legal representation model program to serve families in the dependency system.*

(3) *DUTIES.—*

(a) *The department shall collaborate with the office of criminal conflict and civil regional counsel to determine and execute any necessary documentation for approval of federal Title IV-E matching funding. The department shall submit such documentation as promptly as possible upon the establishment of a multidisciplinary legal representation model program and shall execute the necessary agreements to ensure the program accesses available federal matching funding for the program in order to help eligible families involved in the dependency system.*

(b) *An office of criminal conflict and civil regional counsel that establishes a multidisciplinary legal representation model program must, at a minimum:*

1. *Use a team that consists of an attorney, a forensic social worker, and a parent-peer specialist. For purposes of this section, the term "parent-peer specialist" means a person who has:*

a. *Previously had his or her child removed from his or her care and placed in out-of-home care.*

b. *Been successfully reunified with the child for more than 2 years.*

c. *Received specialized training to become a parent-peer specialist.*

2. *Comply with any necessary cost-sharing or other agreements to maximize financial resources and enable access to available federal Title IV-E matching funding.*

3. *Provide specialized training and support for attorneys, forensic social workers, and parent-peer specialists involved in the model program.*

4. *Collect uniform data on each child whose parent is served by the program and ensure that reporting of data is conducted through the child's unique identification number in the Florida Safe Families Network or any successor system, if applicable.*

5. *Develop consistent operational program policies and procedures throughout each region that establishes the model program.*

6. *Obtain agreements with universities relating to approved placements for social work students to ensure the placement of social workers in the program.*

7. *Execute conflict of interest agreements with each team member.*

(4) *REPORTING.—*

(a) *Beginning October 1, 2022, and annually thereafter through October 1, 2025, each office of criminal conflict and civil regional counsel that establishes a multidisciplinary legal representation model program must submit an annual report to the Office of Program Policy Analysis and Government Accountability. The annual report must use the uniform data collected on each unique child whose parents are served by the program and must detail, at a minimum, all of the following:*

1. *Reasons the family became involved in the dependency system.*

2. *Length of time it takes to achieve a permanency goal for children whose parents are served by the program.*

3. *Frequency of each type of permanency goal achieved by children whose parents are served by the program.*

4. *Rate of subsequent abuse or neglect which results in the removal of children whose parents are served by the program.*

5. *Any other relevant factors that tend to show the impact of the use of such multidisciplinary legal representation model programs on the outcomes for children in the dependency system. Each region that has established a model program must agree on the additional factors and how to collect data on such additional factors for the annual report.*

(b) *The Office of Program Policy Analysis and Government Accountability shall compile the results of the reports required under paragraph (a) and conduct an analysis comparing the reported outcomes from the multidisciplinary legal representation model program to known outcomes of children in the dependency system whose parents are not served by a multidisciplinary legal representation model program. Each office of criminal conflict and civil regional counsel shall provide any additional information or data requested by the Office of Program Policy Analysis and Government Accountability for its analysis. By December 1, 2022, and annually thereafter through December 1, 2025, the Office of Program Policy Analysis and Government Accountability must submit its analysis in a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives.*

Section 15. Paragraph (b) of subsection (2) of section 39.5086, Florida Statutes, is amended to read:

5. Promotes partnerships between public and private agencies, including schools, community-based or faith-based organizations, and relevant governmental agencies, to increase their knowledge of the needs of kinship care families to promote better services for those families.

Section 16. Subsection (15) of section 39.6225, Florida Statutes, is renumbered as subsection (13), and present subsections (13) and (14) are amended to read:

39.6225 Guardianship Assistance Program.—

~~(13) The Florida Institute for Child Welfare shall evaluate the implementation of the Guardianship Assistance Program. This evaluation shall be designed to determine the impact of implementation of the Guardianship Assistance Program, identify any barriers that may prevent eligible caregivers from participating in the program, and identify recommendations regarding enhancements to the state's system of supporting kinship caregivers. The institute shall submit the report to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2021. At a minimum, the evaluation shall include:~~

~~(a) Information about the perspectives and experiences of program participants, individuals who applied for licensure as child-specific~~

~~foster homes or program participation but were determined to be ineligible, and individuals who were likely eligible for licensure as a child-specific foster home or for the program but declined to apply. The institute shall collect this information through methodologies including, but not limited to, surveys and focus groups.~~

~~(14) The program shall take effect July 1, 2019.~~

Section 17. Paragraph (m) is added to subsection (3) and paragraph (u) is added to subsection (5) of section 394.9082, Florida Statutes, to read:

A rebuttable presumption of a conflict of interest exists if the activity was acted on by the board without prior notice as required under subsection (3).

(b) For contracts with a managing entity which are in existence on July 1, 2021, and are not subject to renewal before January 1, 2022, a board member or an officer of the managing entity shall disclose to the board any activity that may reasonably be construed to be a conflict of interest under this section by December 31, 2021.

If the board finds that a board member or officer has violated this paragraph, the board member or officer shall be removed from office before the next scheduled board meeting.

(b) In the event that the board does not approve a conflict of interest as required under paragraph (3)(b), the parties to the activity may opt to cancel the activity or, in the alternative, the board member or officer of the managing entity must resign from the board before the next scheduled board meeting. If the activity canceled is a contract, the managing entity is only liable for the reasonable value of the goods and services provided up to the time of cancellation and is not liable for any termination fee, liquidated damages, or other form of penalty for such cancellation.

(5) A board member or an officer of the managing entity, or a relative of a board member or an officer, who is a party to, or has an interest in, an activity that is a possible conflict of interest may attend the meeting at which the activity is considered by the board and may make a presentation to the board regarding the activity. (a) *The department and local community alliance shall develop a plan that must detail how the community will continue to implement community-based care through competitively procuring either the specific components of foster care and related services or comprehensive services for defined eligible populations of children and families from qualified entities as part of the community's efforts to develop the local capacity for a community-based system of coordinated care. The plan must ensure local control over the management and administration of service provision. At a minimum, the plan must describe the reasons for the department's inability to competitively contract for lead agency services, the proposed alternative approach to providing lead agency services, the entities that will be involved in service provision, how local*

control will be maintained, how services will be managed to ensure that federal and state requirements are met and outcome goals under s. 409.986 are achieved, and recommendations for increasing the ability of the department to contract with a lead agency in that area.

Before a board member or an officer of the lead agency, or a relative of a board member or an officer, engages in the proposed activity, the activity and contract or other transactional documents must be approved by an affirmative vote of two-thirds of all other board members present.*

A board member or an officer who is a party to, or has an interest in, the activity shall recuse himself or herself from the vote.

(f) A contract entered into between a board member or an officer of a lead agency, or a relative of a board member or an officer, and the lead agency which has not been properly disclosed as a conflict of interest or potential conflict of interest under this section is voidable and terminates upon the filing of a written notice terminating the contract with the board of directors which contains the consent of at least 20 percent of the voting interests of the lead agency.

POINT OF ORDER

Senator Farmer raised a point of order that **House Amendment 1 (649221)** to **CS for CS for SB 1028** deals with a proposition on a subject different from that under consideration and therefore is barred under Rule 7.1(3). Senator Farmer further stated the amendment violates Rule 7.1(8)(c) in that the language is the substance of a bill that has not been reported favorably from all committees of reference. The President referred the point of order to Senator Passidomo, Chair of the Committee on Rules.

RULING ON POINT OF ORDER

On recommendation of Senator Passidomo, Senator Farmer's point of order on **House Amendment 1 (649221)** to **CS for CS for SB 1028** is out of order under Rule 7.1(8)(c). Rule 7.8 guides the Senate's consideration of receiving a House amendment. Senate rules cannot be made to apply to a House amendment without constraining the House's constitutional right to legislate within its legitimate powers and according to its own rules. Therefore, the amendment from the House is in order because Rule 7.1 does not apply. The Rule that does apply is Rule 7.8, which provides that after reading a House amendment to a Senate bill, the Senate may consider the following motions in order of precedence: amend the House amendment, concur in the House amendment, refuse to concur in the House amendment and ask the House to recede, or request a conference committee. The President accepted the recommendation of the Rules Chair and ruled the point not well taken.

MOTIONS

On motion by Senator Passidomo, the rules were waived and time of adjournment was extended until 10:00 p.m.

On motion by Senator Hutson, the Senate concurred in **House Amendment 1 (649221)** to **Senate Amendment 1 (357618)** to **House Amendment 1 (436105)**.

PRAYER

The following prayer was offered by Luke Brueggemeyer, staff member of the Senate Majority Office, Tallahassee:

Dear God, we ask you today to remind us of the great power, and even greater responsibility, that comes with our appointed roles as civil servants. Let these words not just be fillers of our egos or of our speeches, but words that permeate to the depths of our souls. Help us to embody our positions as servants long before we boast our positions as lawmakers, staffers, writers, and analysts.

In our political power, no matter how major or minor it may be, remind us that we are first and foremost servants to our brothers and sisters across the state. Let every action that takes place in this chamber reflect this truth.

Finally, remind us that our servitude holds far greater power than any amount of money or influence could ever afford us. In doing so, help us to boldly embrace any opportunity for servitude as it presents itself to us this day. We ask all of this in your name. Amen.

PLEDGE

Senator Diaz led the Senate in the Pledge of Allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Dennis F. Saver of Vero Beach, sponsored by Senator Mayfield, as the doctor of the day. Dr. Saver specializes in family medicine.

(a) *Is printed and published periodically at least once a week.*

(b) *Contains or oftener, containing at least 25 percent of its words in the English language.*

(c) *Satisfies one of the following criteria*:

1. *Has an audience consisting of at least 10 percent of the households in the county or municipality, as determined by the most recent decennial census, where the legal or public notice is being published or posted, by calculating the combination of the total of the number of print copies reflecting the day of highest print circulation, of which at least 25 percent of such print copies must be delivered to individuals' home or business addresses, as certified biennially by a certified independent third-party auditor, and the total number of online unique monthly visitors to the newspaper's website from within the state, as measured by industry-accepted website analytics software. The newspaper must also be sold, or otherwise available to the public, at no less than 10 publicly accessible outlets. For legal and public notices published by non-governmental entities, the newspaper's audience in the county or municipality where the project, property, or other primary subject of the notice is located must meet the 10 percent threshold.*

2. *Holds a periodicals permit as of March 1, 2021, and accepts legal notices for publication as of that date. Any such newspaper may continue to publish legal notices through December 31, 2023, so long as the newspaper continues to meet the requirements set forth in section 21 of chapter 99-2, Laws of Florida, and continues to hold a periodicals permit. Beginning January 1, 2024, and thereafter, any such newspaper must meet the criteria under subparagraph 1.*

3. *For newspapers publishing legal notices in a fiscally constrained county, holds a periodicals permit and meets all other requirements of this chapter. A newspaper qualified under this subparagraph does not need to meet the criteria under subparagraph 1. so long as the newspaper continues to hold a periodicals permit. For purposes of this subparagraph, the term "fiscally constrained county" means a county within a rural area of opportunity designated by the Governor pursuant to s. 288.0656 or a county for which the value of a mill will raise no more than \$5 million in revenue, based on the certified taxable value certified pursuant to s. 1011.62(4)(a)1.a., from the previous July 1.*

(d) ~~Is entered or qualified to be admitted and entered as periodicals matter at a post office in the county where published, for sale to the public generally, available to the public generally for the publication of official or other notices with no more than 75 percent of its content dedicated toward advertising, as measured in half of the newspaper's issues that are published during any 12-month period, and customarily containing information of a public character or of interest or of value to the residents or owners of property in the county where published, or of interest or of value to the general public.~~

(e) *Continually publishes in a prominent manner the name, street address, phone number, website URL of the newspaper's approved print auditor, the newspaper's most recent statement of ownership, and a statement of the auditor certifying the veracity of the newspaper's print distribution and the number of the newspaper's website's monthly unique visitors, or the newspaper's periodicals permit, if applicable, within the first five pages of the print edition and the bottom portion of the homepage of the newspaper's website.*

(2) *Internet publication for governmental agency notices under s. 50.0211(1)(b) on the website of any newspaper in the county to which the legal notice pertains and on the statewide legal notice website as provided in s. 50.0211(5). A newspaper is deemed to be a newspaper in the county to which the legal notice pertains if it satisfies the criteria in subsection (1).*

Section 2. Section 50.021, Florida Statutes, is amended to read:

50.021 *Publication when no newspaper in county.*—When any law, or order or decree of court, ~~directs shall direct~~ advertisements to be made in a ~~any~~ county and there is ~~be~~ no newspaper published in the ~~said~~ county, the advertisement may be made by *publication in any*

newspaper qualified under chapter 50 in an adjoining county or on the website of any such newspaper for governmental agency notices under s. 50.0211(1)(b), and on the statewide legal notice website as provided in s. 50.0211(5) or by posting three copies thereof in three different places in the said county, one of which shall be at the front door of the courthouse, and by publication in the nearest county in which a newspaper is published.

Section 3. Section 50.0211, Florida Statutes, is amended to read:

50.0211 Internet website publication.—

18. Forfeiture notices pursuant to ss. 849.38 and 932.704.

(2) This section applies to legal notices that must be published in accordance with this chapter unless otherwise specified.

(3)(2) If a governmental agency publishes a legal notice in the print edition of a newspaper, each legal notice must be posted on the newspaper’s website on the same day that the printed notice appears in the newspaper, at no additional charge, in a separate web page titled “Legal Notices,” “Legal Advertising,” or comparable identifying language. A link to the legal notices web page shall be provided on the front page of the newspaper’s website that provides access to the legal notices. If there is a specified size and placement required for a printed legal notice, the size and placement of the notice on the newspaper’s website must optimize its online visibility in keeping with the print requirements. The newspaper’s web pages that contain legal notices must

present the legal notices as the dominant and leading subject matter of those pages. The newspaper’s website must contain a search function to facilitate searching the legal notices. A fee may not be charged, and registration may not be required, for viewing or searching legal notices on a newspaper’s website if the legal notice is published in a newspaper.

(4)(a)(3)(a) If a legal notice is published in the print edition of a newspaper or on a newspaper’s website, the newspaper publishing the notice shall place the notice on the statewide website established and maintained as an initiative of the Florida Press Association as a repository for such notices located at the following address: www.floridapublicnotices.com.

(b) A legal notice placed on the statewide website created under this subsection must be:

1. Accessible and searchable by party name and case number.
2. Posted for a period of at least 90 consecutive days after the first day of posting.

(c) The statewide website created under this subsection shall maintain a searchable archive of all legal notices posted on the publicly accessible website on or after October 1, 2014, for 18 months after the first day of posting. Such searchable archive shall be provided and accessible to the general public without charge.

(d) The Florida Press Association shall seek to ensure that minority populations throughout the state have equitable access to legal notices posted on the statewide legal notice website located at: www.floridapublicnotices.com. The Florida Press Association shall publish a report listing all newspapers that have placed notices on www.floridapublicnotices.com in the preceding calendar quarter. The report must specifically identify which criteria under s. 50.011(1)(c)1.-3. that each newspaper satisfied. Each quarterly report must also include the number of unique visitors to the statewide legal notice website during that quarter and the number of legal notices that were published during that quarter by Internet-only publication or by publication in a print newspaper and on the statewide website. At a minimum, the reports for the 4 preceding calendar quarters shall be available on the website.

(5)(a) In lieu of publishing a legal notice in the print edition of a newspaper of general circulation, a governmental agency may opt for Internet-only publication of governmental agency notices with any newspaper of general circulation within the jurisdiction of the affected governmental agency so long as the governmental agency, after a public hearing noticed in a print edition of a newspaper in accordance with this chapter, makes a determination by a majority of the members of the governing body of the governmental agency that the Internet publication of such governmental agency notices is in the public interest and that the residents within the jurisdiction of the governmental agency have sufficient access to the Internet by broadband service as defined in s. 364.02 or through other means such that Internet-only publication of governmental agency notices would not unreasonably restrict public access. Any such Internet-only publication published in accordance with this subsection must be placed in the legal notices section of the newspaper’s website and the statewide legal notice website established under subsection (4). All requirements regarding the format and accessibility of legal notices placed on the newspaper’s website and the statewide legal notice website in subsections (3) and (4) also apply to Internet-only publication of legal notices published in accordance with this subsection. A newspaper is deemed to be a newspaper of general circulation within the jurisdiction of the affected governmental agency if it satisfies the criteria in s. 50.011(1).

(b) The legal notices section of the print edition of a newspaper must include a disclaimer stating that additional legal notices may be accessed on the newspaper’s website and the statewide legal notice website. The legal notices section of the newspaper’s website must also include a disclaimer stating that legal notices are also published in the print edition of the newspaper and on the statewide legal notice website.

(c) A newspaper may charge for the publication of any governmental agency notice that is published only on the newspaper’s website, without rebate, commission, or refund; however, the newspaper may not charge any higher rate for publication than the amount that would be authorized under s. 50.061 if the governmental agency notice had been printed in the newspaper. Where it is impracticable, due to the nature of the business practices within an industry, to separately state Florida tax on any charge ticket, sales slip, invoice, or other tangible evidence of sale, the department may establish an effective tax rate for such industry. The department may also amend this effective tax rate as the industry's pricing or practices change. (b) *Notwithstanding any provision of this chapter to the contrary, a dealer may advertise or hold out to the public that he or she will pay all or any part of the tax on behalf of the purchaser, subject to both of the following conditions:*

1. *The dealer must expressly state on any charge ticket, sales slip, invoice, or other tangible evidence of sale given to the purchaser that the dealer will pay to the state the tax imposed by this chapter. The dealer may not indicate or imply that the transaction is exempt or excluded from the tax imposed by this chapter.*

2. *A charge ticket, sales slip, invoice, or other tangible evidence of the sale given to the purchaser must separately state the sale price and the amount of the tax in accordance with subsection (2).*

(c) A person who violates this ~~subsection commits provision with respect to advertising or refund is guilty of~~ a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. (8) Any person who has purchased at retail, used, consumed, distributed, or stored for use or consumption in this state tangible personal property, admissions, communication or other services taxable under this chapter, or leased tangible personal property, or who has leased, occupied, or used or was entitled to use any real property, space or spaces in parking lots or garages for motor vehicles, docking or storage

(5) EXEMPTIONS; ACCOUNT OF USE.—

(s) *Data center property.*—

1. As used in this paragraph, the term:

a. "Critical IT load" means that portion of electric power capacity, expressed in terms of megawatts, which is reserved solely for owners or tenants of a data center to operate their computer server equipment. The term does not include any ancillary load for cooling, lighting, common areas, or other equipment.

b. "Cumulative capital investment" means the combined total of all expenses incurred by the owners or tenants of a data center after July 1, 2017, in connection with acquiring, constructing, installing, equipping, or expanding the data center. However, the term does not include any expenses incurred in the acquisition of improved real property operating as a data center at the time of acquisition or within 6 months before the acquisition.

c. "Data center" means a facility that:

(I) Consists of one or more contiguous parcels in this state, along with the buildings, substations and other infrastructure, fixtures, and personal property located on the parcels;

(II) Is used exclusively to house and operate equipment that receives, stores, aggregates, manages, processes, transforms, retrieves, researches, or transmits data; or that is necessary for the proper operation of equipment that receives, stores, aggregates, manages, processes, transforms, retrieves, researches, or transmits data;

(III) Has a critical IT load of 15 megawatts or higher, and a critical IT load of 1 megawatt or higher dedicated to each individual owner or tenant within the data center; and

(IV) Is constructed on or after July 1, 2017.

d. "Data center property" means property used exclusively at a data center to construct, outfit, operate, support, power, cool, dehumidify, secure, or protect a data center and any contiguous dedicated substations. The term includes, but is not limited to, construction materials, component parts, machinery, equipment, computers, servers, installations, redundancies, and operating or enabling software, including any replacements, updates and new versions, and upgrades to or for such property, regardless of whether the property is a fixture or is otherwise affixed to or incorporated into real property. The term also includes electricity used exclusively at a data center.

2. Data center property is exempt from the tax imposed by this chapter, except for the tax imposed by s. 212.031. To be eligible for the exemption provided by this paragraph, the data center's owners and tenants must make a cumulative capital investment of \$150 million or more for the data center and the data center must have a critical IT load of 15 megawatts or higher and a critical IT load of 1 megawatt or higher dedicated to each individual owner or tenant within the data center. Each of these requirements must be satisfied no later than 5 years after the commencement of construction of the data center.

3.a. To receive the exemption provided by this paragraph, the person seeking the exemption must apply to the department for a temporary tax exemption certificate. The application must state that a qualifying data center designation is being sought and provide information that the requirements of subparagraph 2. will be met. Upon a

tentative determination by the department that the data center will meet the requirements of subparagraph 2., the department must issue the certificate.

b.(I) The certificateholder shall maintain all necessary books and records to support the exemption provided by this paragraph. Upon satisfaction of all requirements of subparagraph 2., the certificateholder must deliver the temporary tax certificate to the department together with documentation sufficient to show the satisfaction of the requirements. Such documentation must include written declarations, pursuant to s. 92.525, from:

(A) A professional engineer, licensed pursuant to chapter 471, certifying that the critical IT load requirement set forth in subparagraph 2. has been satisfied at the data center; and

(B) A Florida certified public accountant, as defined in s. 473.302, certifying that the cumulative capital investment requirement set forth in subparagraph 2. has been satisfied for the data center.

The professional engineer and the Florida certified public accountant may not be professionally related with the data center's owners, tenants, or contractors, except that they may be retained by a data center owner to certify that the requirements of subparagraph 2. have been met.

(II) If the department determines that the subparagraph 2. requirements have been satisfied, the department must issue a permanent tax exemption certificate.

(III) Notwithstanding s. 212.084(4), the permanent tax exemption certificate remains valid and effective for as long as the data center described in the exemption application continues to operate as a data center as defined in subparagraph 1., with review by the department every 5 years to ensure compliance. As part of the review, the certificateholder shall, within 3 months before the end of any 5-year period, submit a written declaration, pursuant to s. 92.525, certifying that the critical IT load of 15 megawatts or higher and the critical IT load of 1 megawatt or higher dedicated to each individual owner or tenant within the data center required by subparagraph 2. continues to be met. All owners, tenants, contractors, and others purchasing exempt data center property shall maintain all necessary books and records to support the exemption as to those purchases.

(IV) Notwithstanding s. 213.053, the department may share information concerning a temporary or permanent data center exemption certificate among all owners, tenants, contractors, and others purchasing exempt data center property pursuant to such certificate.

c. If, in an audit conducted by the department, it is determined that the certificateholder or any owners, tenants, contractors, or others purchasing, renting, or leasing data center property do not meet the criteria of this paragraph, the amount of taxes exempted at the time of purchase, rental, or lease is immediately due and payable to the department from the purchaser, renter, or lessee of those particular items, together with the appropriate interest and penalty computed from the date of purchase in the manner prescribed by this chapter. Notwithstanding s. 95.091(3)(a), any tax due as provided in this sub-subparagraph may be assessed by the department within 6 years after the date the data center property was purchased.

d. Purchasers, lessees, and renters of data center property who qualify for the exemption provided by this paragraph shall obtain from the data center a copy of the tax exemption certificate issued pursuant to sub-subparagraph a. or sub-subparagraph b. Before or at the time of purchase of the item or items eligible for exemption, the purchaser, lessee, or renter shall provide to the seller a copy of the tax exemption certificate and a signed certificate of entitlement. Purchasers, lessees, and renters with self-accrual authority shall maintain all documentation necessary to prove the exempt status of purchases.

e. For any purchase, lease, or rental of property that is exempt pursuant to this paragraph, the possession of a copy of a tax exemption certificate issued pursuant to sub-subparagraph a. or sub-subparagraph b. and a signed certificate of entitlement relieves the seller of the responsibility of collecting the tax on the sale, lease, or rental of such property, and the department must look solely to the purchaser, renter,

or lessee for recovery of the tax if it determines that the purchase, rental, or lease was not entitled to the exemption.

4. After June 30, 2027 ~~2022~~, the department may not issue a temporary tax exemption certificate pursuant to this paragraph.

Section 21. Effective January 1, 2022, paragraph (u) is added to subsection (5) of section 212.08, Florida Statutes, to read:

For purposes of the dealer's credit granted for keeping prescribed records, filing timely tax returns, and properly accounting and remitting taxes under s. 212.12, the amount of tax due used to calculate the credit shall include any eligible contribution made to an eligible charitable organization from a direct pay permitholder. For purposes of the distributions of tax revenue under s. 212.20, the department shall disregard any tax credits allowed under this section to ensure that any reduction in tax revenue received which is attributable to the tax credits results only in a reduction in distributions to the General Revenue Fund. Section 402.62 applies to the credit authorized by this section. A dealer who claims a tax credit under this section must file his or her tax returns and pay his or her taxes by electronic means under s. 213.755.
