Beth Kidder
Deputy Secretary for Medicaid

Presented to
Senate Appropriations Subcommittee on

October 11, 2017

1115 MMA Waiver Extension Approved

- Managed Medical Assistance (MMA) program operates under the authority of an 1115 Research and Demonstration Waiver.
- December 30, 2016: The Agency submitted a 5-year extension request to federal CMS.
- August 3, 2017: extension approved through June 2022
- Special Terms and Conditions generally unchanged.
 - Only substantive changes are to the parameters of the Low Income Pool program.

Low Income Pool: History

- Began in 2006 as part of Medicaid Reform pilot
- Original purpose:
 - Provide supplemental funding to hospitals, clinics, and other entities to improve access to health care services in rural communities.
 - Ensure continued government support for the provision of health care services to the uninsured and underinsured.
- Current purpose:
 - Provide government support for safety net providers for the costs of uncompensated care for low income individuals who are uninsured.

How it Works

- Local government entities put money into the pool through Intergovernmental Transfers (IGTs).
 - Contributing entities can include counties, municipalities, and local health care taxing districts.
 - The Agency draws matching funds from the federal government based on the Federal Medical Assistance Percentage (FMAP).
- The Agency distributes the combined local and federal funds to qualified providers based on a legislatively approved distribution model.
