a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate Local Funding Initiative Request Fiscal Year 2024-2025

LFIR # 1425

The specific goals include improved storm water management in the critically impaired Blue and Gemini Springs BMAP area. The current storm water pipes are over 40 years old and have collapsed and/or disintegrated. The collapse has caused sidewalks and roadways to collapse as well. Finally, flooding would be eliminated. Installing new pipes and sliplining others will allow for proper conduction of storm water to prevent phosphates and nitrates from flowing into the springs, prevent flooding, and improve pedestrian and vehicle safety in the area.

b. What activities and services will be provided to meet the intended purpose of these funds?

Collapsed and disintegrated pipes would be replaced or sliplined. Sidewalks and roadways that have collapsed due to the collapsed pipes would be repaired. Flooding due to storm water would be eliminated.

c. What direct services will be provided to citizens by the appropriation project?

Immediately would prevent collapsing roads and sidewalks, providing for safer passage throughout the community. Storm water would be properly conducted and flooding would be prevented.

d. Who is the target population served by this project? How many individuals are expected to be served?

The immediate beneficiaries are the thousands of residents and homeowners in this area, approximately 13% of our population. In addition, the hundreds of thousands of visitors to the springs each year would benefit, including wildlife such as manatees.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Storm water would be properly conducted, eliminated flooding and reducing nitrates and phosphates into the outstanding springs. The nitrate and phosphate levels would be monitored by DEP.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

	Nonpayment of invoices
