1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. Project/Program Description

The specific purpose of the funds is to provide an increase in pay for Jewish Community Services of South Florida (JCS) 988/211 Miami helpline counselors who provide high level information and referral services to Miami-Dade and Monroe communities, in addition to FREE, over-the-phone crisis counseling. This service is provided 24/7/365 in English, Spanish, and Haitian-Creole in addition to any other language through a tele-interpreter. JCS 988/211 Miami answers over 50,000 calls a year through the helpline in addition to over 20,000 more calls through our work with the National Suicide Prevention Lifeline. In order to recruit and retain qualified helpline counselors, an increase in salary will enable us to be competitive in the current tumultuous job market for us to continue to provide this life saving service.

Fiscal Year 2024-2025

LFIR # 1515

a. What specific purpose or goal will be achieved by the funds requested?

JCS 988/211 Miami Helpline counselors will connect vulnerable community members in distress to information and referral services, as well as provide crisis intervention. Qualified and committed staff members are critical to the programs success in order to provide culturally competent 24/7 phone assistance relating to crisis counseling and referrals to community resources in order to address concerns with suicide and mental health.

b. What activities and services will be provided to meet the intended purpose of these funds?

Approximately 50,000 calls are received annually to JCS 988/211 Miami Helpline. This 24/7 operation requires commitment, sensitivity, and trained professionals in order to address the variety of needs in our community. By increasing the salary of these staff members, we will be able to retain trained professionals and remain competitive in recruiting new professionals to join our agency. High quality, person-centered, and culturally responsive services will flourish.

c. What direct services will be provided to citizens by the appropriation project?

Crisis counseling and referrals to community resources, as well as suicide prevention services will be provided to community members regardless of their race, gender, religion, ethnicity, or ability to pay.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population for these funds are individuals in families in Miami-Dade and Monroe counties who may be in distress, economically disadvantaged, in poor physical or mental health, require food support, housing & shelter, legal assistance, clothing, and other free or low cost resources. We expect to serve approximately 70,000 callers.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Callers will be connected to vital resources needed to maintain self sufficiency and enhance their quality of life. Helpline counselors and support staff conduct an initial assessment of needs. Upon intake, Helpline counselors will connect the caller to the appropriate resource in the community or if they need to be connected to other JCS services, Helpline counselors will make an immediate transfer. Callers will feel less distress and supported by receiving the services/resources they need.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Corrective action plans may be required for noncompliance, nonperformance, or unacceptable performance. Financial penalties may be imposed for failures to implement or to make acceptable progress on such corrective action plans. Increments of penalty imposition shall apply and shall be based upon the severity of the noncompliance, nonperformance, or unacceptable performance that generated the need for corrective action plan.
